MONTREAL MINING EXCHANGE.

The Exchange opened the week with a continuance of strength and firmness with which it closed Saturday.

The stocks showing the most amount of strength were Republic, War Eagle, Payne, and Golden Star. The actual sales in some of these issues were however, only nominal, in War Eagle there were no sales recorded, the bid and asked price being 400 to 385. It is selling ex dividend to-morrow, and one of the Freasons of its show of strength is the take of an increase in dividend.

Golden Star continues to be exceedingly firm-2000 shares to-day changed hands at 62 with sellers asking 63.

Amongst the many properties in Deadwood Camp upon which satisfactory development work is being done are the Morrison and Sunset. The main tunnel of the Sunset extends now to over 400 feet, and the shaft is deepened to the body of pay ore, both ore and vein are reported to be steadily widening. Lumber is being got out for the gallows frame for the hoist at the new shaft, which will be in operation next mo, th.

The big surface showing on the Morrison was lately prospected and some nice ore was met within a prospect shaft. The management expresses itself as being pleased with the outlook.
