

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumption. Patients in advanced stages of the disease.

Disorders of the pulmonary organs are so prevalent and so fatal in our ever-changing climate, that a reliable medicine has been long and anxiously sought for by the whole community. The indispensable qualities of such a remedy for popular use must be, certainty of healthy operation, absence of danger from accidental over-doses, and adaptation to every patient of any age or either sex. These conditions have been realized in this preparation which, while it reaches to the foundations of disease and acts with unflinching certainty, is still harmless to the most delicate invalid or tender infant. A trial of many years has proved to the world that it is efficacious in curing pulmonary complaints, beyond any remedy hitherto known to mankind. As time makes these facts wider and better known, this medicine has gradually become a daily necessity, from the log cabin of the American settler to the palaces of European kings. Throughout this entire country, in every state, city, and indeed almost every hamlet it contains, the *Cherry Pectoral* is known by its works. Each has living evidence of its unrivalled usefulness, in some recovered victims, or victims, from the threatening symptoms of consumption. Although this is not true to some extent abroad, still the article is well understood in many foreign countries, to be the best medicine extant for distempers of the respiratory organs and in several of them it is extensively used by their most intelligent physicians. In Great Britain, France, and Germany, where the medical sciences have reached their highest perfection, *Cherry Pectoral* is introduced, and in constant use in the armies, hospitals, dispensaries, public institutions, and in domestic practice, as the surest remedy their attending physicians can employ for the more dangerous affections of the lungs. Thousands of cases of pulmonary disease, which had baffled every expedient of human skill, have been permanently cured by the *Cherry Pectoral*, and these cures speak convincingly to all who know them.

SCROFULA, OR KING'S-EVIL.

is constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unwholesome food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corruption or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and, on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidney, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

ONE QUARTER OF ALL OUR PEOPLE are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it.

cleanse it from the system we must renovate it by an alterative medicine, and invigorate it by food and exercise. Such a medicine we supply

AYER'S COMPOUND EXTRACT SASSAPARILLA,

the most effectual remedy which the medical art can devise for this everywhere present and fatal malady. It is combined from the most efficacious remedies that have been discovered for the cure of this foul disorder from the blood, the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other diseases which arise from it, such as Erythema and Eczema, St. Anthony's Fire, Rose, or Erysipelas, Pustules, Blisters, Blains and Boils, Itch, Gout, Salt Rheum, Scald Head, Ringworm, Syphilis and Mercurial Diseases, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The relief in "IMPURITY OF THE BLOOD" is, in truth, for scrofula is a degeneration of the blood, for the particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, with sound health is impossible in contaminated conditions.

Dr. J. B. S. Channing, of New York city, writes: "I most cheerfully comply with the request of the agent in saying I have found your Sarsaparilla an excellent alternative in the numerous cases of Scrofula which we employ such a remedy, but especially in the Female Diseases of the Scrofulous diathesis, cured many inveterate cases of Leucorrhoea, some where the complaint was caused by the ulceration of the uterus. The ulceration itself was so cured. Nothing within my knowledge equals it for its effects."

Dr. Robert M. Preble writes from Salem, Mass., Sept. 12th, 1859, that he has cured an inveterate case of Dropsy, which threatened to terminate in the persevering use of our Sarsaparilla. A dangerous attack of Malignant Erysipelas was cured by the same; says he cures the common Eruption by it constantly.

AYER'S CATHARTIC PILL

FOR THE CURE OF

Costiveness, Bilious Complaints, Rheumatism, Heartburn, Headache arising from a full stomach, Nausea, Indigestion, Morbid Inaction of the Liver and Pain arising therefrom, Flatulency, Laxity, all Ulcers and Cutaneous Diseases, and an evacuating Medicine, Scrofula or King's-Evil, also, by purifying the blood and stimulating the system, cure many Complaints which it would not otherwise reach; such as Deafness, Paralysis, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred ailments arising from a low state of the body and of its functions.

These Pills have been prepared to supersede every other purgative medicine, and has hitherto been available to the American people. No cost or toil has been spared in bringing the state of perfection which, now, after a patient, laborious investigation, is attained. Their every part and property has been justified by experiment to produce the best results in the present state of the medical science. It is possible to produce on the animal economy the secure the utmost benefit, without the use of those which follow the use of common cathartic virtues alone of medicines are simple composition, and so combined as to insure a uniform action on every portion of the canal. Sold by Morton & Cogswell, H. A. Watson, Charlottetown, P. E. I.; E. J. Sydney, C. B.; and at retail by drug dealers in every section of the country.
