Stocks bought and sold on all Exchanges.
Bank stocks, and Municipal and other good
Debentures dealt in. Correspondence invited.

Mercantile Summary

HENDERSON BROS., Limited, wholesale druggists, Vancouver, B.C., held their first annual general meeting, since amalgamation, last week, and, after declaring a good dividend, re-elected officers as follows: President, Mr. T. M. Henderson; vice-president, Mr. H. McDowell; secretary-treasurer, Mr. W. Henderson; directors, Messrs. J. N. Henderson, J. M. Atkins, and H. H. Watson.

An expert engineer employed by the Dominion Government to report upon the feasibility of bringing water by force of gravity from Fraser Falls, on the Stewart River, to the Dome, or centre of the Klondyke mining region, says such a scheme would not be practicable, owing to the lack of sufficient height in the Falls. The idea had been suggested of installing a water system for supplying the placer operators with water for hydraulic purposes.

THE Fredericton (N.B.), Boom Company held a sale of unmarked and mixed lumber last week, in which great interest was taken by the many lumbermen present. Competition was keen. Spruce rose to \$13 per thousand, unmarked hemlock fetched \$4.50, mixed cedar, \$10.25, unmarked and mixed pine, \$11.25. The quantities of stranded logs above Grand Falls have not been affected by recent rains, these not having been heavy enough to do much good.

AN item published in last issue made it appear as if the Michigan Central Railway had proposed to refund \$3,000,000 of the bonds of the Lake Erie & Detroit River road in order to secure a lower rate of interest. The former road has nothing to do with the latter, however, and the above-mentioned action was taken by the Pere Marquette Railroad. What the directors of the Michigan Central did at their meeting a few days ago was merely to renew the lease of the Canada Southern, as stated.

MR. J. C. BAILEY, the well known engineer, died in Toronto on Monday last in the 78th year of his age. He had a long and varied experience in the exploration, location and construction of railroads and other public works. Among some of the railways of recent date of which he was chief engineer are: The Credit Valley, Toronto & Nipissing; Lake Simcoe Junction, Toronto & Ottawa; the Midland and its various extensions, and the Northern & Pacific Junction Railways. He located the Sault Ste. Marie Railway, and the Nipissing & James' Bay (now Temiskaming & Northern Ontario Railway), and was also connected with the Atlantic & Great Western, Detroit & Milwaukee and Muskegon railways, and other roads in Canada and the United States.

A boy put a lighted match to a load of hay in Winnipeg and the fire spread to a large storehouse of the Arctic Ice Company, and 10,000 tons of ice were spoilt. The loss was about \$40,000. What was done with that boy was are not told.
