

The Parties shall make special efforts to foster longlasting linkages between their private sectors, including educational institutions and non-governmental organizations, by identifying development projects that would:

- (a) Strengthen Thailand's planning and economic management institutions through technical assistance and other mechanisms;
- (b) Assist in the implementation of human resource development through projects linking Canadian and Thai educational, training and research institutions, with particular attention to programs that would enhance the capacity of Canadian and Thai organizations to utilize new technologies appropriate to their developmental needs;
- (c) Assist in the implementation of rural and regional industrialization, particularly with respect to the needs of small and medium-size industries; and
- (d) Encourage, support and facilitate programs to assist the Government of Thailand in the development of export markets.
