

ARTICLE XII

The Contracting Parties reaffirm their common interest in fostering the peaceful uses of atomic energy through the International Atomic Energy Agency and intend that the results of their co-operation shall benefit this Agency and its Members.

ARTICLE XIII

1. At the request of either Contracting Party, representatives of the Contracting Parties shall meet from time to time to consult with each other on matters arising out of the application of the present Agreement, to supervise its operation and to discuss arrangements for co-operation additional to those provided in the present Agreement.

2. The Contracting Parties may by mutual consent invite other countries to take part in the joint programme mentioned in Article II.

ARTICLE XIV

For the purpose of this Agreement, except as otherwise specified therein,

- (a) "Contracting Parties" means the Government of Canada and the Governmental enterprises of Canada as defined in Paragraph (b) of this Article on the one hand and the European Atomic Energy Community (Euratom) on the other hand;
- (b) "Governmental enterprises of Canada" means Atomic Energy of Canada Limited and Eldorado Mining and Refining Limited, and such other enterprises under the jurisdiction of the Government of Canada as may be agreed between the Contracting Parties;
- (c) "persons" means individuals, firms, corporations, companies, partnerships, associations, Government agencies or Government corporations and other entities, private or governmental; but the term "persons" shall not include the Contracting Parties as defined in Paragraph (a) of this Article;
- (d) "equipment" means major items of machinery or plant, or major components thereof, specially suitable for use in atomic energy projects;
- (e) "material" means source material, special nuclear material, heavy water, graphite of nuclear quality, and any other substance which by reason of its nature or purity is specially suitable for use in nuclear reactors;
- (f) "source material" means uranium containing the mixture of isotopes occurring in nature; uranium depleted in the isotope 235; thorium; any of the foregoing in the form of metal, alloy, chemical compound, or concentrate; any other material containing one or more of the foregoing in such concentration as may be agreed between the Contracting Parties; and such other material as may be agreed between the Contracting Parties;
- (g) "special nuclear material" means plutonium; uranium 233; uranium 235; uranium enriched in the isotopes 233 or 235; any substance containing one or more of the foregoing; and such other substance as may be agreed between the Contracting Parties; but the term "special nuclear material" shall not include "source material";
