

2. Subparagraph (f) shall be amended by deleting the period and replacing it with “; and”.
3. A new subparagraph (g) shall be added as follows:
“(g) public engagement and outreach activities.”

ARTICLE V

Annex 2 of the Agreement shall be amended by adding a new paragraph 5 as follows:

“5. The Parties further agree, subject to their respective laws and regulations, to consult and share respective information on data, tools and methodologies and develop joint analyses on ground-level ozone and its precursors, including:

- (a) research and applications that contribute to tracking of human health and environmental responses to controls;
- (b) facility-specific emissions data, quantification methods, and related information required for modeling and regulatory policy development, assumptions and models used to estimate emissions from other sources, and air quality data for all relevant monitors;
- (c) evaluation of transboundary transport, using methods such as, *inter alia*, monitoring and meteorological data analyses, and modeling;
- (d) evaluation of adequacy of monitoring networks;
- (e) review of new technologies; and
- (f) analysis of options for reductions from significant emitting source categories such as transportation, manufacturing and electricity where there may be opportunities to achieve further cost-effective emission reductions through various means, for example, energy efficiency, renewable energy, cleaner fuels, and alternative technologies and approaches.”
