

The treatment recommended by the society is to be persevered in for three or four hours. It is an erroneous opinion that persons are irrecoverable because life does not soon make its appearance, as cases have come under the notice of the society of a successful result even after five hours' perseverance, and it is absurd to suppose that a body must not be meddled with or removed without permission of a coroner.

## CHAPTER XIV.

### METHOD FOR RESUSCITATION FROM AN ELECTRIC SHOCK, ETC.

(Illustration No. 15.)

APPARATUS FOR RESUSCITATING PERSONS FROM AN ELECTRIC SHOCK, .

INVENTED BY PETER J. GIBBONS, M.A., M.D., OF SYRACUSE, N. Y.

The following articles on the subject of restoration of persons struck by lightning, or dynamic electricity, first directed the attention of Dr. Hodgins, the Honorary Secretary of the Royal Canadian Humane Association, to the subject:—

1. The first was from the *Popular Science Monthly* for August,
