Consequence - Corn and

Oats Rallied.

last night. Other leading staples, too,

that the profit in feeding corn to cattle and hogs at present prices justified farmers in withholding shipments.

Threats that Canadian competition in eats would be come acute as soon as navigation opened did not prevent that cereal from sympathizing with corn.

Provision prices were lifted by other advances. Packers were fair sellers at the bulge.

401/4 | Asquith Said to Have Dropped 'Home Rule Within Home Rule."

LONDON, March 6.—It is under-steed that at the meeting of the Brit-have small industries conform with stood that at the meeting of the British cabinet on Wednesday last the plan, previously favored by Premier Asquith and Sir Edward Grey, the foreign secretary, under which the province of Ulster was to be offered a sort of home rule within home rule, was abandoned in favor of a temporary scheme of local option. It is now proposed, according to reports porary scheme of local option. It is now proposed, according to reports from Government circles, to allow any Cash: Wheat—No. 1 northern, 90½c; No. 2 do., 88%c; No. 3 do., 87c; No. 4, 82%c; No. 5, 77c; No. 6, 72½c; feed, 66c; No. 1 rejected seeds, 86½c; No. 2 do., 84%c; No. 3 do., 83c; No. 1 smutty, 86½c; No. 2 do., 84%c; No. 3 do., 83c; No. 1 red winter, 90½c; No. 2 do., 88%c; No. 2 do., 88%c; No. 2 do., 84%c; No. 2 do., 88%c; No. 3 do., 80%c; No. 2 d ant to acquiesce in the local option plan, and they have only accepted it subject to endorsement by their convention which will be summoned to meet in Dublin after Premier Asquith has made his announcement in the house of commons on Monday, when the bill comes up for second reading.

This power of a plebiscite by the the bill comes up for second reading. This power of a plebiscite by the Irish counties will come into operation immediately after the bill is pass-

LIBERAL WILL JOIN

IN MARCONI INQUIRY LONDON, March 6 .- Lord Hals. bury, the Earl of Loreburn, the Earl of Desart, Baron Charnwood and Baron Sanderson, have been appointed members of the committee of the house of lords to investigate the allegations against Lord Murray of Eli-lank relating to his dealings in wireless shares. The announcement came as a surprise to the Earl of Crewe, leader of the Liberals in the house of lords, who declared he had not expected it so soon, and had not ye prepared a statement which he had expected to make explaining the presence of Lords Loreburn and Charnwood, both Liberals, on the committee. This explanation, he said, would

se made Monday. TRENTON TEACHERS SHOW ART PICTURES TO PUPILS. Exhibition of Two Hundred Art Works
Will Be Arranged,

TRENTON. March 6 .- Recognizing the educational advantages to be derived from the opportunity of seeing good art, the teachers of the public and high schools in co-operation have ar-ranged for an art exhibition of two hundred pictures to be held in Dufferin Street School on Wednesday, Thursday and Friday evenings, March 11-13, be-ginning at 7 o'clock, and concluding with an at-home given by the lady members of the high and public school staffs on Saturday afternoon from 3 to 6, when refreshments will be served.

STRATFORD FAVORS GARBAGE INCINERATION. Up-to-Date System of Collection and Disposal to Be Installed.

STRATFORD, March 6 .-- If the plans of the joint committee from the city council and board of health materialize, Stratford will have an up-to-date sys tem of garbage collection and disposal The committee has gone very fully into the question and the members were agreed that the best method is by incineration. The question of the cost of an incinerator has been carefully looked into and the committee believe this system can be established as cheaply as collection by contract.

The World is a newspaper for the home as well as for the busi-

COMPENSATON IS PUBLIC RELIE

Miles B. Dawson Says Ontario's Bill for Workmen is First on Continent.

"CURRENT COST" BEST

gests Way for Province to Carry Out Compensation.

most authority on workmen's compensation on the continent, yesterday at McConkey's addressed the Toronto Board of Trade and the Manufacturers' Association on the Workmen's Compensation Act soon to be introduced in the Ontario Legislature. Here are some of his opinions on this ques-

He thought the Ontario bill far in advance of New York State's br any of the other twenty states where it is now in force. Our law would be one of the best in the world. It was really a system of public re-lief. Funds to conduct it should not be raised by levying a lump sum as capital. There should be no capital count stored away at low interest

The funds should be raised by the There should be "no choice of in- markets.

surance companies." The system should be state operated.

Three Suggestions.

His three suggestions to Ontario vere:
1. It should be public, both in the ollection of the tax and in its dis-

2. It should be economically admin-istered, that method of administration to be selected which would get as many dollars as possible of the money contributed by the employers and ultimately by the consumers.

3. It should also be economical in the sense that the community should not money than is necessary to provide the sums required to be paid current-ly in compensation, plus a reasonable

Must Be Fair to All. Before Mr. Dawson spoke, R. D. Fairwas needed, and it should be one of fair treatment to the employer, yet afford complete protection to the worker. "I would suggest to the formulators of the act," said Mr. Dawson, "that it would not be wise to have small industries conform with the act, but I would grant the power to the commission to form a class by

conducting its own insurance in brief, oil has not been found on the island, but insurance of employes would be An English company is at the back of paid by the commission and the ad-justing of all claims could be more the operations. economically and justly dealt with if a central agency—the commission—

to be considered in the Ontario house. It is not a model law, but it was the best we could put forward if we were to have compensation of workmen at all in the state. The act there was far costlier than it should be, but they believed that giving the relief to workmen was paramount to cost. The employers in New York State were absolutely unorganized, so that the only hills brught were the state of the state of the colly hills brught was the state of only bills brought up were made fa-vorable to the insurance companies or the labor organizations. Crowds Out Agents.

Of manufacturers there was no organized representation. Thus the agents had absorbed 30 per cent, of the money. "Under your bill the agent is of no more use than the ambulance chasing lawyer." In Michigan State 88 per cent, of the funds of the bill went to truck conservations. went to trust companies.
For Public Relief.

"Just the minute you can see this is a system of public relief you will find the capitalized system simply abourd," he said. This "current cost" system was the only proper one.
"You can't encourage prevention is any better way than by fastening the eye of the people who can prevent on the immediate benefit to them-selves," Mr. Dawson said in showing how the "current cost" would be made cheaper, as each year the employers would aim at hammering down the accident rate and thus save themselves money. He quoted what prevention has done in Germany to lower the

"Now, I think you all see you are at the dividing of the ways. If you introduce the system of so-called choice of companies you will introduce all sorts of mischief; if you cose the 'capital' plan you saddle yourselves with a great cost.

The speaker then gave the three suggestions stated above for Ontario's

HALIFAX DRYDOCK TO BE WORLD'S LARGEST.

Special Correspondence.) HALIFAX, N.S., March 6.—Plans to build the largest drydock in the world are being prepared in this city by the public works department, and surveyors have been sent to determine the exact location of the big dock. As soon as the site is selected work will at once be commenced and the construction rushed with all possible speed.

COMMITTED FOR BIGAMY.

BELLEVILLE, March 6. - J. I. Lindsay has been committed by Mag-istrate Casemen at Madoc to the county jail for trial by the county judge on a charge of bigamy. Lindsay was brought to jail on Wednesday after-noon. The alleged bigamous marriage took place in August last.

Random Notes on the Mining Stocks.

There was a decided weakness in the mining market yesterday caused principaly by the sagging of issues on outside exchanges.

Peterson Lake was the exception from the general tone of the market, being active and strong selling up to 42 1-2. If it had not been for the weakness of outside markets Peterson probably would have sold up two or New York Authority Sug- three points, as there seemed to be an unlimited amount of stock wanted near the market figures, but buyers kept their orders around 42. When the market as a whole strengthens again, the present position of Peterson would seem to indicate that a sharp advance could easily take place.

Dome Lake sold back to 35, but there seems to be a good demand, but too many are trying to take profits from the new issue, which is having a de

Dome Extension sold down to 10 1-2. The weakness was caused by the semi-authoritative announcement that no deal for the sale of the property was on. A good deal of the buying has been coming from Porcupine, and it is probable that the Big Dome vein which was traced up to the Dome Extension line is showing up much better than has been announced.

From the circular sent out by H. H. Ward, president of the Porcupine Gold Company (Vipond), it looks as if some hitch has occurred in the deal The funds should be raised by the "current cost" system. Each year the tax should be for that year's liabilities alone. Thus the manufacturer could use his money and get higher interest from it. Also he would see it to his interests to constantly try to his interests to constantly try to keep the cost down. Greater safety would result.

There should be "no croice of interests in Vipond on the stock markets."

News arrived from Porcupine yesterday that the Dome Lake Company had siruck a vein of high-grade ore on the 115-foot level. Altho where encountered the vein is narrow, there is every indication of it broadening. It is said that the ofe is the highest grade that has been taken out of the Dome Lake property, and the present Dome Lake property, and the present management are quite elated over the

One of the oldest and most conservative mining brokers expressed him-self yesterday as very hopeful of the mining stock market particularly in he gold issues. He stated that a umber of low priced Porcupine stocks had excellent chances for a good advance such as Apex Dome Extension, Jupiter, Pearl Lake, Mc-Intyre and Porcupine Gold. He also pointed out that Canadian Gold Fields Before Mr. Dawson spoke, R. D. Fair-bairn, president of the Manufacturers' Association, said there was no doubt a new Workmen's Compensation Act was needed, and it should be one of fair treatment to the employer, yet af

test wells for oil. Up to the present
