ONE OF CREW DROWNED

Unlucky Thirteen Turns Out Lucky This Time for Men Saved.

Special to The Toronto World. PORT DALHOUSIE, June 16.—

The drowning of Burt the third occurring here in three days, on Saturday a man fell from the wharf and on Sunday another was cut to pieces with a propeller.

Survivors say Burt was among the very first into the boats, but he went below and was never seen again. His body is still missing.

The fatal storm came up with startling rapidity, residents say. A cold front from the southwest and a half an hour later the gale was blowing.

Then too the dreaded "thirteen" is noted. Thirteen men were saved. Captain James Gible is lying in his cottage along the lake from half-conscious. His head was struck by the stem post of the tug, his wife says.

Capt. Gible is 30 years of age and was brought up in Palmerston, Ont. He has been sailing for eight years, and was given command of the Delver only this year.

Before that he was second "runner," to quote the term used by his Nova Scotian wife. "While she was telling all this her five-year-old child, the eldest of three, was playing the kitten with the white cat of Burt, the lost man who lived next door."

"He and my husband were great friends," said Mrs. Gible. "Oh, I am very glad to have my man back again. Mrs. Burt is heartbroken. The Dominion Dredging Co. expect to raise the Delver at once. She lies several hundred yards off the pier-head in twenty-five feet of water."

YEAST

World had given me a square deal this morning had happened.

His notice of the second meeting had come to the house, but he did not know of it till too late. He had not dined. He had gone to every Toronto member in the legislature to see about fixing up the session in Toronto. They were not rightly arranged, and none knew it better than the members themselves.

"I never agreed to support Mr. Rowell, and I will not support one of his party," he declared. "I said I would go further than he did, and I prepared to move in the house for the abolition of the bar."

"Would Oppose Anyone." "The asking of me if I would oppose Dr. Payne is the same as asking me if I would oppose the bar."

He took his seat amid great applause. An uproar of applause broke loose when upon Russell, ex-M.P., advanced smilingly to the edge of the platform.

"I was brought into this contest much against my will. I came in to save situation," he said. "I was promised a unanimous nomination and here I find one of the hottest contests possible."

He wanted the voice of the people to settle his nomination. If he had not given his name to the convention, he would not have been tempted to run. As for his own stand he was prepared to follow Sir James until his death. He thought was adequate. One of the members who had been asked to stand when the bar was removed.

A temperance man to the last word was Mr. Leung. "As long as I am on the patronage committee of ward one, no man who is under the influence of liquor will secure a position for me," he declared. "I want to say that the liquor men to a man came out and supported Doughty ahead of a drinking man."

"Don't indulge in personalities," urged the chairman.

Not for the World. "I am not going to be the answer. I would not hurt my friend Doughty for the world." His reference was not clear, but evidently concerned the nomination of Doughty to the presidency of ward one.

"To 'Tommy' Church the abolition of the bar plank was not to stand on but to get in on. 'The bars are going to stay,' he asserted with confidence. 'I matter for every man's conscience and every man's pocket. I put the critical situation in the riding. Since Mr. Doughty had suffered his 'mishap,' four or five men had 'hand-picked' themselves to pick a candidate. This was not fair play and would disrupt the organization. He went on to say that not long ago a man had run as an independent, and contrary to the rules of party. At this moment heots and jests broke loose and only strenuous efforts from the chair quelled the babel.

Continuing, Mr. Parsons said that no man should legislate over his head. Retirement followed.

Herring Across the Trail. Dr. Norman Allen maintained that the temperance issue was a herring across the trail. What they wanted was an out-and-out Whitney man, and one who could show a good Conservative record. It would be a mistake to send a man who would not support him in all things. As a physician of 25 years' standing, he would say that the private drinking from liquor stores wrought more evil than the bar. He retired forthwith "hand-picked" themselves to pick a candidate. Total membership of \$1,117 shows an increase of 1470 and an increase of 108 in total membership to church societies of 17,843; \$1,768 has been received for missionary purposes, being only \$2184 more than last year.

Carlton street congregation extended an invitation to the conference to meet in their church in 1915, but after consideration it was decided to hold the sessions in Elm Street Church on account of its central location.
