A fire broke out in the small hours of this morning at the Duncan Lithographing Co.'s plant on South Mac-nab-street. For a while it looked as if the lithographing Co.'s plant and the Dominion Drug Co.'s warehouse would be totally gutted, but good work by the firemen stopped the blaze when it had done about \$10,000 damage to the former and about \$200 to the latter.

The fire started supposedly from the spontaneous combustion in the basement at the rear of the building, destroyed the generating plant, shot up the elevator shaft to the roof, and spread over the second floor, destroying a lot of valuable machinery, plates and dyes.

Plenty to Do in the Cities Before Going Abroad.

The first rally of the Young People's Missionary Movement, following the Whiby Conference, was held in St. Anne's Anglican Church last evening. Rev. Dr. MacKay presiding and about 1600 being present.

Overpopulation of cities and the need for missionary work on account thereof was discussed by Rev. Mr. Bryce. Rev. Lawrence E. Skye followed with a strong emphasis on the need of city work. He advised that anyone who had a desire for the foreign field should test his ability first at home. Rev. Mr. Fitch spoke of the work abroad. There were 200,000,000 untaught souls in the world and it required an army of 75,000 missionaries to reach them.

A Denial.

The accuracy of a report that Mr. McCann of Toronto is to become Archbishop of Ottawa, was denied last evening by the vicar-general.

The Catholic Record has announced that Archbishop Gauthier of Kingston is to be transferred to Ottawa.

JURY CENSURES G.T.R. FOR OVERWORKING MAN

But Find that Edward Crane's
Death at Dunn Ave. Crossing
Was an Accident.

Indignation that a man should be expected and required by the Grand Trunk to work 21 hours at a stretch was shown by the coroner's jury enquiring last night into the death of Watchman Edward Thomas Crane, killed at the Dunn-avenue crossing on Sept. 12.

At the conclusion of the evidence, the foreman announced that it would not be necessary to retire to return a verdict, but he would like to know if it was a rule of the company that compelled deceased to work for nearly 24 hours straight, or was it an agreement between the two watchmen when changing shifts.

"I want to know this, because we all feel pretty strongly on that point, particularly when the Grand Trunk makes a boast of not permitting their drivers to work more than so many hours," he said.

Coroner Lynd informed him that the company fixed the schedule for watchmen, an agreed that it was a hardship to the men. A rider could be attached to the verdict censuring the company on this point.

"Well, Mr. Coroner, I would like to see the wording of that rider made pretty stiff," said the foreman.

The result of the deliberations was a finding "that deceased came to his death by being struck by an engine on the G. T. R., that it was an accident, but we consider the company censurable for requiring or allowing watchmen to be on duty for 21 hours."

Leonard Harris, driver of a milk wagon, testified to seeing deceased on the south track sweeping the crossing.

"He waved his broom and I nodded to let him know I saw him. He went on sweeping and then the engine whistled. My horse backed up and the next thing I saw him as if falling away from the engine."

"There are no gates there," asked Assistant Crown Attorney Monahan.

"No. It is very dangerous, and my father got struck there once."

Since the terminal had been moved to Mimico, it was a very busy crossing. The view from the west was obstructed by the cabin and some houses, and it was hard to see any train approaching from the east when coming from Dunn-avenue.

George Teale of Belleville, engineer of the train, said he saw the watchman standing on the boards near the tracks. He whistled, but it was not a usual thing at this point. As the watchman paid no attention, witness tried to stop and brought his engine to a standstill 40 feet east of the crossing.

Peter Morrissey, the other watchman, said traffic ran thru all day and night, sometimes at 18 miles an hour. Deceased had been on duty since 9 o'clock Sunday morning. They shifted every two weeks, and this had been Crane's long trick. He believed Crane's eyesight and hearing were both good.

VEGETABLE CROP REPORT

Some Districts Report Poor Yields—Others Do Well.

The Ontario Vegetable Growers' Association have received reports from the branches at Ottawa, Belleville, Kingston and Picton regarding the condition of the crops. These reports show that the tomato crop in Eastern Ontario is not up to the average, and the potato crop is lighter than usual, although the late varieties are picking up. The condition of the onion crop is not as favorable as could be wished, owing to the blight and onion maggot. Early celery will not amount to much. Winter varieties of cabbage and cauliflower will be good if the weather is favorable. Ottawa reports that the corn crop is poor and that the vegetable crops generally have been poor and the prices low. Picton reports crop conditions good.

In Central Ontario conditions are fair and tomatoes ripening slowly. The potato crop is poor in the early varieties, although the later varieties will be good. Onion crops are not up to the average. Around Sarnia the onion crop is not more than 50 per cent. of an average. The celery crop is good, especially that sown late, and the cabbage and cauliflower crop seems unusually good. Sarnia reports that quantities of sweet corn are being shipped, a new departure in that vicinity.

Reports have been received from Tecumseh, Oshawa, St. Thomas, Dunnville and Brantford and show that the tomato crop is in good average, with conditions favorable. The early potato crop suffered from dry weather and then from excess of rain, while the late potatoes are improving. The reports on the onion crop are the same all over the province—poor, while exceptional cases exist where the crop is favorable. The celery and cauliflower crops have come on well and will still improve if the weather is favorable. Reports from Essex complain of a very dry summer and poor crops.
