COUNCIL CONTROL OF EXPENDITURE

Education Disbursements to Be Submitted to Finance Committee.

NO GRANT FOR ARCHES

Wiring at Cottingham Street Would Set Costly Precedent.

The most important legislation taken up at yesterday's session of the city council was in connection with the board of control's recommendaation that the present provincial act in connection with the estimates of the board of education be amended and that the sums necessary for the maintenance of schools under the jurisdiction of the board should be subject to the approval of the council of the municipality.

A motion was introduced by Ald. Ramsden that the estimates shall be submitted to the finance commission-er before their final passing and approval, which was passed.

Considerable discussion over a pro-

posed appropriation by the city, amounting to about \$375, for the wiring and lighting of a triumphal arch erected by the residents of Cottingham street district, at North Toronto, took place, but a motion for this appropriation was lost by six votes. In speaking of the proposal that the stimates of the board of education be submitted for the approval of the council, Cont. McBride said that the matter had been taken up last year with the board, and they practically told the city council to mind its own

"It is unwise to take the powers of the board away from them when they were elected to look after that work,"

continued the controller.

He referred to the good work the technical school was doing. It gave an opportunity for the sons and daughters of the middle and poorer classes to learn something besides. classes to learn something besides how to dig drains, and the school board was entitled to have a voice in the estimates. He clinched his point by observing that the council was now too late in introducing the amendment to the act in that the assembly opened in two weeks and all bills or amendments have to be pub-lished four weeks prior to the official opening opening.

Mayor Explains. In a few words the mayor explained the position of the council. "This council must regain the power over the expenditures of the various boards. There must be some author-ity to settle disputes. We are responsible to the taxpayers and we must have some say in how these moneys are spent, he continued. It was his opinion that if the question had been submitted to the ratepayers at the polls they would have decided that the council had the right to superestimates, the same as they decided upon medical examinations in

The question was first brought up by the Ratepayers' Association of Ward Seven. The idea of their asking the council to revise the estimates of the board of education to the mind of Cont. Cameron, foolish. A deputation from Logan avenue waited on the council, asking that A. water manufacturing plant at the rear or a residence on the street, as it would tend to turn a residential district into a manufacturing one. James Conroy, secretary of the G. W. V. A., on behalf of Mr. Forbes, said that he

ALIENS OUT, LOCK, STOCK AND BARREL

R. Forbes, a returned soldier, be restricted from establishing a mineral G.W.V.A. Would Deprive Hostiles of Employment, Funds and Habitat.

Very little discussion preceded the March. on behalf of Mr. Forbes, said that he could see no reason why he should be restricted from establishing the business, as it was blut a small one, and would be in no way obnoxious to the residents of the district. After considerable discussion the matter was referred back to the property composition of the deportation of alien enemies.

Very little discussion preceded the unanimous passage of exceptionally important resolutions at last night's session of the central branch of the Great War Veterans' Association. En bloc, the anti-alien resolutions called for the deportation of alien enemies.

Very little discussion preceded the unanimous passage of exceptionally important resolutions at last night's session of the central branch of the great war Veterans' Association. En bloc, the anti-alien resolutions called for the deportation of alien enemies. An application was also made by Major Gibson, officer in charge of demobilization for the district, for the mobilization for the district, for the district, for the district, for the mobilization for the district, for the mobilization for the district when the mobilization for the district when the dismissal from factories and plants in Canada of all except natural values and plants in Canada permission to use the vacant space in fusal of permission to become naturalized except where application was ing at the Exhibition, and also for made prior to August, 1914; the exthe erection of a temporary building clusion from Canada of all enemy on it. No definite action was taken. aliens for a period of twenty years,

for a period not exceeding three years from the date of the application.

The application was granted; the majority of the members of the council believing that it was necessary to provide employment for as many as possible. Permission for the use of the building had been granted the company by the board of control on the condition that the building was the condition that the condition that the building was the condition that the situated, in one year. It was felt by all that during the period of the war, the building was as much of a fire risk as it would be now.

Controller McBride was strong for granting the request of the reguest of the residents of Cottingham street district, for \$250 for wiring a triumphal arch, which they are erecting in their district, and the payment of \$21 a month for six months' lighting. He thought that the refusal to grant the amount would dampen the enthusiasm of other returned soldier members of the transport of the words of the transport of the words of the transport of the present administration of the present administra
