Reconstruction and Telephone Service!

WHILE meeting and solving the problems of reconstruction, we are most anxious that our service should be up to the highest standard and that courtesy and helpfulness should characterize all our relations with our subscribers.

Back of the switchboard operator who handles your call, is needed the united effort of an army of skilled workers to keep intricate apparatus in order and to extend the service.

Over 840 of our trained men went overseas. There was a world-wide demand for the materials that go to make up a telephone system, making the problem of maintenance and extension of our plant during the war very difficult.

Now, although the majority of our men are back at work, the business world has sprung into intense activity and the problems of reconstruction, of getting back to normal, confront us.

We shall endeavor to tell you frankly what some of these problems are.

LENINE IN LUXURY, BUT PEOPLE STARVE

Swiss Minister Makes Report on Deplorable Conditions in Russia.

London.—It is impossible to walk the streets of Petrograd without undergoing the risk of assassination. Bodies of murdered persons can be seen lying in the streets, and they remain unburied. Famine and epidemics cause frightful mortality.

This gruesome picture is given by Monsieur Odier, Swiss minister to Russia, who has just returned from the Bolshevik-ridden country and has made to his government numerous reports on the situation in Petrograd and Moscow.

Monsieur Odier draws an interesting but shocking picture of the life of Lenine, who, he says, lives in luxury while the people of Russia are dying of hunger.

Lenine lives luxuriously, like an Oriental monarch," Monsieur Odier says, "during this period of disastrous misery. He has concluded a contract with the well-known Moscow food purveyor, Etisuff, by which this firm undertakes, in return for the payment of 30,000 roubles a month, to keep him supplied with an abundant and very choice selection of provisions. Thus, while the people of Russia are dying of hunger, Lenine lives in opulent luxury and it costs the country 1,000 roubles daily to feed him.

Rules by Starving. Monsieur Odier says Lenine's rule is by the starvation method, this view coinciding with that expressed by Sir George Buchanan, British ambassador to Russia for ten years up to 1913. "The misery of Russia surpasses description," says Monsieur Odier.

About 300 Bolshevik leaders have succeeded in exploiting this immense country. Their method is to rule by famine, which weakens the same population and renders resistance impossible. The small quantity of food available in the towns is brought in from the country by peasants, but Bolsheviks await them at the stations and seize everything, which they carry away with them.

"The Bolsheviks then destroy anything which they themselves cannot use; we have seen them break hundreds of eggs which they could not take away with them from the station.

"The lack of fuel causes the greatest suffering. A fagot of wood, which cost 5 or 6 roubles before the Bolshevik regime, cannot be bought now for less than 800 or 900 roubles. Banknotes are so worthless that they are sold in such a waste paper.

"The Russians do nothing. They seem to have prostrated themselves in complete passivity to await the passing of the Bolshevik cyclone.

"The people are unanimous in detesting the Bolshevik regime. The Bolsheviks, hated by the whole nation, only reign thru their pretorian army, thru their well-fed and well-paid soldiers. "Petrograd resembles an immense cemetery."

PARIS HAS BECOME CITY OF JEWELERS

Paris in the last five years has become a city of jewelers. The poorest streets, the poorest quarters, have almost as many jewelers now as they have bankers, for every girl and woman wears at least one necklace, several rings, and a watch. Hands may be work-worn and dirty, but the rings, with their imitation stones, are there.

GERMANS ENROLLING IN RUSSIAN ARMY

Whole of Courland is Reported to Be Full of Soldiers in Russian Uniform.

Reuter Cable. London, Sept. 4.—Reuter is informed by the Polish authorities in London that the transfer of German troops to Russian formations in the Baltic provinces is still continuing despite numerous official German denials. In this connection the following remarks made by the German Independent Socialist paper, Freiheit, are interesting. The Freiheit says: "The official communique is a lie from beginning to end. We consider it to be an undoubted fact that whole German military formations with complete equipment have passed and are passing over to the Russian army and the whole of Courland is full of German soldiers in Russian uniform. That General Von Der Goltz is doing his utmost to assist the reactionary Russian troops is proved by the fact that German doctors receive circulars from the record offices in Leipzig informing them that 'doctors and military nurses are necessary for the Russian army which in co-operation with General Von Der Goltz and other well-known German soldiers is carrying on the fight in the east.'"

In the light of these revelations the Freiheit considers that the denials published by the German government and the military authorities are an insult to the German working class, which, adds the paper, would under no circumstances tolerate such action in the east.

KING GEORGE UNVEILS STATUE IN MONTREAL

The ceremony will be witnessed by the Duke and Duchess of Devonshire, and a distinguished company of Canadians and Americans. NOVA SCOTIA SUGAR SITUATION DESPERATE

Halifax, Sept. 5.—Twenty of the leading wholesale grocery firms of Nova Scotia this afternoon sent the following telegram to Judge H. A. Robson, chairman of the board of commerce at Ottawa: "Sugar situation in Nova Scotia is desperate. Cannot obtain any sugar practically from Acadia Refinery and shortage becoming extreme. Have not been able to obtain anything near our requirements for two months. We protest strongly against Nova Scotia being totally deprived of sugar for benefit of the west. We demand that you instruct Acadia Refinery to take reasonable care of the needs of Nova Scotia before being forced by you to ship sugar to western points."

O. T. A CRITICIZED BY COL. MACHIN

At Welland Meeting—Also Pays Respects to Billy Sunday.

Welland, Sept. 4.—This city was stirred to a high pitch of enthusiasm by an address by Colonel Machin at the court house tonight. The speaker criticized the O. T. A. as being brutal and vindictive in administration, as one long lie, and to be hated by all high-minded citizens. "How many persons with an unblemished record have wilfully broken this act?" he asked. "Hypocrisy is rampant and becoming a canker in our national life. The speaker argued for the repealing of the present act, and then the framing of a law without class distinction. "What an anomaly," he said, "that after fighting for liberty for four years, our best citizens are returning to find their own liberties taken from them in their absence." Billy Sunday came in for severe handling on account of his hissemphous language as a help to the cause of the prohibition fanatics. The Toronto Globe was recommended to change its motto to "sanctimonious hypocrisy." "It always sees the rotten side of things," he said. Colonel Raymond was in the chair.
