

HAD THIRTY-TWO BOILS AT ONE TIME

Two Bottles of Burdock Blood Bitters Cured Him.

Imperfect organic action makes bad blood, so, too, bad blood, in turn, makes imperfect action of every bodily organ.

Pimples, boils, blotches, ulcers, festering sores, abscesses, tumors, rashes or some serious and perhaps incurable blood disease may result.

BURDOCK BLOOD BITTERS

For all cases of bad blood. Mr. Ernest B. Lupper, Round Hill, N.S., says: "I think Burdock Blood Bitters a great medicine for boils."

LIQUOR LICENSE FOR PARK.

Petition in Favor Now Circulated Will Be Promptly Opposed.

Residents of the beaches are beginning to gird themselves for another struggle, not with the railways this time, but with the management of the Leuty-avenue amusement park.

They claim that the petition now being circulated in favor of a liquor license being granted the park is in defiance of a proviso in the agreement under which the property changed hands, and a contra petition is being drawn up in protest.

The strong feeling against a license that exists among many of the residents was conveyed in the emphatic declaration of one prominent property owner who was asked to sign that he wouldn't do so for \$10,000.

There is a decided belief that the sale of liquor would attract a very undesirable element to the beach, and that residents would suffer serious annoyance.

The Latest Test. W. S. Smith of the Automobile Supply Co., made a test of the number of miles an automobile will run in the city streets on a gallon of gasoline.

The car used was the two cylinder Buick—all gasoline was drawn out of the tank and a measured gallon put in, and the automobile started from the garage of the Auto and Supply Co., and ran 23 1/2 miles before the gasoline gave out.

Mr. Smith is on the right track, the cost of running an automobile is a very important factor to those using auto mobiles. Cars to-day are so nearly perfect that it repairs on a first-class car is a minor matter.

Some car of equal power, namely, 22 horse power, that will make 23 1/2 miles on city streets on one gallon of gasoline.

YORK COUNTY AND SUBURBS ACTIVITY IN BUILDING AT TORONTO JUNCTION

More Houses Going Up Than for Some Years—Council to Inspect Pavements.

Toronto Junction, March 29.—Mr. Bemrose of Western-avenue is building four houses on Brighton-place, George Mason is building a house on Humber-side-avenue, and C. F. Wright will build a number of frame houses on Gilmour-avenue.

The streets are in a very dangerous condition at the present time owing to the depth of the mud. Something should be done at once to improve them.

Several members of the council and Mayor Baird left to-day for Windsor, Chatham and Detroit to inspect cement block paving.

Markham. Resolutions of regret at the retirement of H. B. Reesor and Miss Gertrude Reesor from the positions of choir master and organist of Markham Methodist Church were unanimously passed at the regular quarterly meeting held during the week.

H. G. Sanderson, for some years manager of the South End Drug Store, has decided to remove to Toronto, and will leave Markham in the near future.

The will of the late Miss Emma Carol Tuckett, formerly of Markham, disposes of an estate of \$25,786.46, of which \$10,391.77 is realty. Her mother, Mrs. Maria Tuckett, receives the whole of the property.

A meeting will be held in the Franklin House this afternoon (Saturday) for the organization of a rifle association under government rules and regulations.

Ernest Smith has returned home after a three months' course in the Dairy School at Guelph.

Miss Mary Doherty, an old resident of Box Grove, is dead at the age of 77.

The Markham fire brigade will meet on Monday evening, April 8.

While crossing the Rouge River at Vinegar Hill, Mrs. Ella Weston, thru the ice. Her sister, Mrs. Plaxton, went to her rescue.

North Toronto. The strongest kind of condemnation is being made on the side streets of the town. These thoroughfares are impassable except to the lightest kind of vehicles, and even with these there is a constant danger of getting mired, and having to get a second horse to help out.

Merchants are refusing to send goods out until the roads dry up, and those living on the roads east of Yonge-street have to carry home necessities for the time being.

Mr. Wilson, superintendent of the chicken farm on concession 2, East York, feeds his poultry keenly. His firm has two rigs straddled on Eglington-avenue and Mr. Wilson says it is impossible to carry on his business under such conditions.

He lays considerable blame on the North Toronto Council, which, he says, promised last year to make least one road from Yonge-street to concession 2 in a passable condition.

Mr. Wilson also says that he has undertaken to contribute a portion of the cost of putting a road in civilized condition, and that although not a town ratepayer his firm leaves sufficient money with the merchants to entitle them to some thought.

He, however, says that aside from this the town owes it to the community at large to do something tangible in road building.

William Robinson of the Outlook Hotel was convicted by Magistrate Ellis for breaking the local option law by selling intoxicating drink over the bar on Oct. 11 last. Sentence for four months in jail was pronounced on Dec. 22.

Defendant, thru his counsel, entered an appeal, and Robinson was liberated on \$400 bail. Since the time of his conviction, nothing was done to appeal the finding of the court and Police Magistrate Ellis arrested Chief Constable Morrison with a warrant of commitment, and he took Robinson into custody at once on Thursday afternoon.

Yesterday morning a horse belonging to Councillor W. J. Lawrence was stuck with a load of cut flowers on Kensington-avenue. The horse had to be un hitched and helped out of the mire, while J. J. Davis' delivery horse had to pull the rig to terra firma.

A. H. St. Germain of Bedford Park has rented "St. Germain Park Farm" of 17 acres, fronting on Yonge-street. North Toronto (only two and one-half miles north of the city limits) to William Mabbett, who has been Mr. St. Germain's faithful and competent farm foreman for the past ten years.

Mr. Mabbett intends associating the dairy business with that of grain growing. He has bought all Mr. St. Germain's stock and farm implements. He will commence his dairy branch of his creditable undertaking with fifteen first-class match cows.

Special Good Friday services were held at St. Clement's Church at 10.30 a.m. and 8 p.m. To-morrow's holy communion will be celebrated at 8 and 11 a.m.; children's service, at 2.15 p.m., and evensong, full choral, at 7 p.m.

The members of Eglington Lodge, No. 269, L.O.L., are selling their present property. Tenders have been asked, with a view of buying a more convenient property and building an up-to-date hall.

Mrs. Radcliffe of Kensington-avenue, who spent the winter with friends at the Soo, has returned.

The Metropolitan Railway is excavating for the foundation of its \$75,000,000 barn in Deer Park.

The holiday travel over the Metropolitan line was heavy.

GUN LICENSE TAX.

A Fruit Grower Objects to Canadian's Views on Firearm Question.

In the issue of March 20, The World contained a letter from "Canadian" wherein objections were made to the tax on firearms by the government.

He likens this legislation to the automatic legislation in Russia and argues in the forcible way that because our fathers used guns indiscriminately the children ought in this free country.

But, again, the government certainly has the right to legislate on all matters affecting the relationships of one man with another.

Editor World: I must disagree entirely with "A Canadian" on the subject of guns. As a farmer and fruit grower I possess every man who carries a gun off his own premises is a menace to the well-being of society in the settled portions of Canada.

We suffer millions of dollars of loss from the ravages of vermin and foolish boys to wantonly shoot our birds, songsters, as well as game birds, the best of which are the quail and quail have got. A bevy of quail on a farm is worth more than an equal number of hens, and one hawk will kill more mice than many a boy can carry a gun off his own premises except with a very high license.

Editor World: Will you kindly allow me to state your valuable paper to make a few statements and suggestions with reference to this matter?

This morning, between Munro Park and the Woodbine, there was not a single car either on the up or down line. On arrival at the Woodbine I found eleven cars bunched there.

What is the meaning of this? It seems to me that the power failed they would have been strung out along the line and each would have been where it was when the shut-off took place.

I am glad to understand that a similar condition prevailed on Winchester-street during the summer months, and that it is now springtime and the power is again being used.

It is a disgrace to a city like Toronto that the street should be so easily demoralized. If it is lack of Niagara power, the old power should have been retained in case of such accidents as these.

Is there any disagreement between the city government and the Street Railway Company over additional power houses? Why should citizens be made to suffer every wrong and injury?

I do believe there is no other city that has any such grievances as we have in Toronto. Do you think the citizens should be made to suffer every wrong and injury?

Thousands of workmen, women and girls this morning suffered by the loss of a portion of their wages. Does the street railway people propose to consider these cases and pay the same out of the money now used to pay dividends on what we are told is watered stock?

Can't the government be called on to investigate the amount of watered stock, if any, that exists and demand a cancellation of the same and apply the said dividends to improving the service?

When the citizens are looked upon as mere servants of the company, "take what we choose to give you, and together like sardines and sardines we get your cents." It is a disgrace to all humanity, even worse than packing cattle for shipment, because the shippers give them sufficient space for safety, but we are simply packed in every degree.

Every exhibition time we have a service that cannot be surpassed. Then, at the recent enquiry, the company tried to gull the public by saying that it would be dangerous to have more cars running past certain points.

Now this of itself should be sufficient to show to us, the public, that as long as we choose to put up with such outrageous treatment we shall get nothing but the same.

The public in a body should rise for its rights and use every effort to compel the street railway to give our citizens the service to which they are entitled.

THE GAME LAWS. Editor World: While heartily in sympathy with every effort made to curtail the slaughter of our fish and game, there is one proposed law I wish to point out to every shooter which is not for the protection of game, but for the benefit of the reserves on which there is easily two-thirds of the good ducks killed annually.

As everyone must know, the reserves in Ontario are not for the protection of game, but for the extinction of every duck it is possible for the members to kill.

By baiting the ponds with wheat and growing wild rice and wild celery they prolong the stay of ducks on their southern migration and by every known means diminish the number of ducks which happen to tarry with them.

Shooting all day they are known to kill 100 ducks each. The proposed law is that of not allowing decoys over 200 yards from any shore line or marsh. This will be class legislation of the worst kind, for any shooter not a member of the favored reserves has a poor chance of getting good ducks, "redhead" and "canvas-back" if he is compelled to shoot off shore, when the ducks shot out of reserve are sitting 300 and 400 yards from shore.

I know this to be the case in Long Point Bay, Port Rowan, Lake Seagus and am led to believe at Rondeau and the flats.

It is a regrettable fact that certain of our legislators on the committee which reported this law have been the guests of the reserves. The result of this hospitality is easily seen in this law curtailing the shooting of hundreds of shooters, not that the reserves can kill them all.

Very few ducks will be had around Toronto, Humber Bay and Ashbridge Bay; not that many are got, but many persons enjoy the chance of getting ducks; they will be denied even that privilege.

As a shooter, let me suggest curtailing the number of ducks to be shot in any one season, or in lieu of that, the prohibition of sale of ducks. If the gun clubs and shooters of this province take this matter up as they should do, I feel we will be able to maintain our rights as against the interests and influence of the reserve people, who have nearly everything and want it all.

Seldom Seen. First Golf Match. Simcoe, March 29.—What is supposed to have been the best golf match of the season was played here to-day between Braithford and Simcoe, twelve players a side. The course was in excellent condition. Simcoe won by a score of 8 to 3.

THE GREAT "SILK HAT DAY"

Easter lays its obligation on man as well as woman. The gladness of the occasion seeks to express itself in brighter, fresher, newer garb.

James Gibson is seriously ill. Unionville is rapidly becoming one of the most important shipping points on the Midland Railway, the shipping of grain and live stock having increased 25 per cent. over last year.

East Toronto. East Toronto Lawn Tennis Club will this year open the season under the most auspicious circumstances.

The finances are in a most satisfactory condition, and a new cluder tennis court and bowling green will be added to the present court.

The officers for the year are: Hon. president, Rev. Mr. Rogers; hon. vice-president, Miss Leadley; president, F. W. French, B.A.; secretary, Noel Drummond; treasurer, A. Care.

On Monday evening, April 1, the G.T.R. trainmen at home will take place in the Y.M.C.A.

Albert Lake of Vancouver, B.C., is visiting his sister, Mrs. F. Mother-sill.

J. Clarke has purchased the property on the corner of Main-street and Danforth-avenue, formerly occupied by Mr. De La Plante.

The Religion of the Pygmies. Major Powell-Cotton during his long stay among the pygmies of the Ituri Forest discovered that the tribe has a religion of its own.

In some of the inner recesses of the forest, he reports, improving rites take place.

On certain occasions an altar is erected and sacrifices are offered, the pygmies themselves sitting round in a semi-circle performing their devotions.

When the camp is moved to a fresh site a sacrifice to the god of their new home is made in the forest. The little people offer to the gods on their banquets, bananas, sweet potatoes, meat, pieces of cooked meat, all steaming hot, are placed on the altar as the offering to the god, and the pygmies sit round, all men, women and children—eating.

During their honeymoon, Major and Mrs. Powell-Cotton had opportunities of watching the weird dances indulged in by the pygmies. To the music of their own voices and the native tom-tom the groups of dancers shuffle round in a rough circle—in pygmy land the sexes never dance together.

At evening time, when the shadows are lengthening, this barbaric dance is fantastic beyond description.
