will become one of the foremost dividend paying mines in Canada. We are so firmly of the

Crawford Mines, New Ontario, Oct. 2, 1907. This is to certify that we have been employed by Mr. Middleton Crawford, and have seen at work upon the Crawford mining properties, located just north of the Otto Township line, near Otto Lake, and have been at work developing these properties most of the time since the 1st of June. We consider ourselves to be practical, experienced mining men. We can truthfully state that the development work completed upon the Crawford properties up to the present time, has opened up some of the largest and most remarkable veins of ore we have ever seen. It is our opinion, based upon our knowledge of these properties, that the Craw-

opinion that these properties will make a great mine that we have invested in shares of the Crawford Company to the extent of our financial ability. WM. YOUNG. Superintendent. D. LAVAILLE. E. OLMSTEAD. JAMES LECKIE. JOHN MILLER. JOE. WHITE. J. P. GLIDDON. A. JOHNSON. FRANCIS OGLE

JOHN JOHNSON. We are trying to convey to investors information about the Crawford properties just as the conditions warrant. It is our candid opinion that the Crawford properties are far better than we have ever represented, and, further, that they will with development become one of the biggest, richest and largest dividend-paying mines in Canada.

The present underwriting offer will not exceed 500 \$18.00 memberships. We will give to each \$18.00 membership 100 shares of Crawford stock fully paid and non-assessable. We will positively close this sale within a very few days, and thereafter not a single share of Crawford stock will be sold by us for less than \$1.00 per share. We doubt if investors will be able to secure Crawford stock from anybody after this underwriting closes for less than \$1.00.

Our best advice is, hold your Crawford stock and buy every share you can pay for. We believe Crawford stock will go to \$10.00 A SHARE with the development of these mines.

Mr. Middleton Crawford, President of the Company, will be at our office the balance of this week and will be pleased to personally give information about the Crawford mines. If possible call and see Mr. Crawford and examine a large quantity of ore received from the

of the Nation. LONDON, Oct. 14.-Lord Rosebery, unveiling the statue of Queen Victoria at Edinburgh, described her in a brilliant speech as the mother of the nation. She had knit her people together. He said that her noblest epitaph would be not only that under her Canada had been brought from civil war tocordial allegiance as the noblest doninion of the empire, and Australia and New Zealand had become living loyal realities, but under her reign was established the new relation of per-sonal affection and allegiance to the

mand Made Several Weeks Ago. SYDNEY MINES, N. S., Oct. 14 .-Will there be a strike among the coal miners of the Nova Scotia Steel and Coal Co.? That is the question at present worrying the minds of officials as well as the general public thruous Cape Breton. The trouble seems to be over the refusal of the company to grant the request made by the Drum-mond Lodge for an increase of six cents a ton on the present rate paid the hand pick miners in No. 1 colllery They now receive 54 cents a ton, 10-hour shift, but owing to the increased cost of living, they contend it is, impossible to make both ends meet This demand was made several weeks ago. The directors' reply was unfavorable, and unless some concessions are made, a strike of 1500 miners seem inevitable.

Should this be resorted to busines would be paralyzed, and a coal famine would surely follow, as at present there is not any coal banked, neither is there a bin full at the piers at North Syd-

SILVER TAKES SHARP FALL A Fact Which is Due Chiefly to Selling From India.

LONDON, Oct. 14.-Silver to-day experienced a sharp fall of a penny, to 27 7-8 pence, making a fall of 3 1-4 pence since Sept. 30. This steady drop was chiefly due to selling from India.
