E. A. APPEALS IN VAIN. Ex-Alderman Falls in His Efforts to tetain His Seat—Other Cases of In-terest at Osgoode Hall.

A. Macdonald yesterday appeared efore Chief Justice Meredith and Jus-ces Rose and MacMahon to argue appeal from the judgment of the ster-in-Chambers, by which he was non-qualification. The ex-alderman first sought to show that the suit to inseat him was a "maintained" ac-ion, and thereby secure a reversal of the order denying a stay of proceed-

solicitor Wallbridge's affidavit was read by the appellant. In this it was alleged that the Master had improperly dismissed the motion for a stay, and had not allowed an opportunity of cross-examining Robert Long, the relator in the case, and his wife. The statement was ruled out, and the first appeal failed

statement was ruled out, and the first appeal failed.

The appeal as to qualification was argued at considerable length. Macdonald's contention was that he was sufficiently qualified by virtue of his interest in freehold property, but the judges decided against him without calling upon Mr. Henderson, counsel for the relator, to reply. Both appeals being dismissed, the new election ordered for the vacant seat for Ward 1 will be proceeded with.

An Important Judgment.

An Important Judgment.

Mr. Justice Armour yesterday delivered a judgment which may interfere seriously with the money lending transactions of the banks. Stark & Williamson of Stouffville sued Thomas and S. G. Barnett, David Clark, John Elliott and the Standard Bank for 1031, the amount of promissory notes made by the Barnetts. Before the notes became due the plaintiffs alleged the Barnetts conveyed their real property to David Clark and John Elliott, who is agent of the Standard Bank perty to David Clark and John Elliott, who is agent of the Standard Bank at Stouffville. Stark & Williamson claimed that the deal was made with fraudulent intent, and was, moreover, in contravention of the Banking Act, which says that no bank shall, directly or indirectly, lend money upon security, mortgage or hypothecation on land, buildings or other immovable preparety The judge ruled that the transaction was a violation of the law, and set aside the conveyance.

A Long Missing Stratford Man.
Something more of romance than usually comes into evidence in the law courts was developed yesterday in the hearing of an application by the father of Oliver Miller to have him declared gead.

In 1864 Miller, then 18 years of age, left Stratford for the Colorado silver mines. After working in Denver for some years, he joined a mining party bound for the New Mexico gold fields. On its way to Elizabethtown the party was attacked by Indians, and Miller alone escaped. He made his way to Elizabethtown, and from there wrote several letters to his parents. The last one, received in July, 1889, stated that his leg had been broken in three places by a cave-in. Since that date nothing has been heard of him, and the application was made in order that money standing in his name might be taken by his legal heirs.

William Radam has entered an appeal from the judgment given in favor of C. W. Eman for \$500 and costs for slander.

The city has had a writ for \$553 issued against W. J. Brown, who bought land at a tax sale, and did not complete the transaction.

The action of E. A. C. May against George Logie, by which it was sought to invalidate the deeds under which a large number of Mimico lots are held was dismissed yesterday by Chief Justice Meredith.

Judgement has been reserved on the application of a number of Lambton ratepayers for the setting aside of the by-law guaranteeing certain local improvement debentures.

The police commissioners' costs in the Kelly suit were \$179. The balance of the \$400 pald into court by the bacard has been withdrawn.

Henry A. King & Co., 12 King street east, received the following despatch to-day from Chicago:

Wheat was steady at the opening, but soon developed considerable strength. Heavy buying orders were numerous. Mitchell bought about two million bushels, at tributed to Armour. Wren, Schwartz, Dnpee & Counseiman were also heavy buyers. The impression prevaits that Armour is running the market, and has been absorbing the wheat around 62 cents for several days. The scalpers in the pit cover after a short rally, and on the advances after a short rally, and on the advances of there is generally enough fresh selling to cause a moderate set back. The reports of favorable weather came from the west and southwest. Liverpool cables reported in great arrivals of American flour there, which, it was claimed, was interfering with the wheat trade. As most of next week in Liverpool will be given up to the Easter holidays, not much trade is expected from that source. Wheat, however, is gaining strength every day, and we still advise buying on all breaks. Northwest receipts to day 332 cars, against 337 cars last year. In Liverpool closed steady and unchanged. The range to-day was between 63c and 63%c to 64c, closing at 63%c bid.

Corn and oats—Market on both was slightly firmer to-day for a time, but there was considerable realizing on the advance, which caused a break, and the markets closed weak. Local demand continues light.

Provisions—Trade was rather small, the liquidation by longs is about over. New York has large holdings, which were bought through the big commission houses, and they are not liable to be shaken out, as they believe there will be a fair rally.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from their branch office in Chicago:

Wheat opened easier to-day on foreign selling. Cables were quoted dull and inactive and ¼c higher. Offerings very light until along in the afternoon, when local scalpers got long, and then there was a stampede to sell as no one cares to be lon CHICAGO GOSSIP.

Councillor Cantelon told of a bovine who climbed up stairs to the hay loft; but another Councillor went him one better, recounting how a cow climbed up on top of the fence at a corner and walked along the top rail until it could drop into the corn patch

GEN. GASCOIGNE'S VIEWS.

No Slur Cast Upon Col. Hamilton, But English Pre-

cedent Followed. AN IMPORTANT DECISION

The Supreme Court Gives Judgment in Involving the Disposition Upwards of six Hundred

military men in the city considerable into what the General designated as an uncomfortable position, and, following the English practice, it was better that Col. Hamilton should step out. The action of the department involved no slur upon Col. Hamilton. He trusted it would lead to greater esprit de corps, and enable deserving promotions to be made.

From other sources your correspondent learns that friction arose between Col. Hamilton and the regimental finance committee regarding the adminis-tration of the battalion funds. Col. Hamilton asked the secretary-treasur-er to hand over some of the funds to erable him to pay the band and certain outstanding accounts. The secre-tary refused, as the accounts had not been passed by the finance committee, and was backed up by his brother off-CCPS. Hence one cause of the friction between the Colonel and his officers. If Major Delamere will not take com mand, it will fall to Major Pellatt.

Over \$600.000 Involved.

Francis Clemow, James Murray, Daniel McMichael, John Arthur Codd, the Right Hon. Edric Frederick, Baron Gifford and R. L. Curzon. The main appeal was allowed, and the judgment of the court below reversed, excepting an amount lowed, and the judgment of the court below reversed, excepting an amount of \$130,000, which was included in Mr. Charlebois' former judgment for J. A. Codd. The court also ruled that the decision should carry with it neither costs in the Supreme Court nor in the courts below. The cross appeal by Delap was dismissed with costs. In the main appeal were included, besides the control of the statement of the statemen

the main appeal were included, besides Charlebois' claim, those of several other parties, and these interests who severally appealed on their own behalf were rejected, and Mr. Justice Tascherau was of the opinion that they should never have been taken. The main appeal was for \$622,226, although there are other side issues of considerable importance hanging on the suit before the Supreme Court. THE PRINCE OF WALES.

A Report Current in Eugland That Par-liament is to Be Asked to Haise His Income. London, March 28.—A report is cur-

rent, and gains credence in the lobby of the House of Commons, that the Government will ask the House to in-Government will ask the House to increase the allowance of £37,000 yearly granted to the Prince of Wales in behalf of his family. The request will be made on the ground of the heavy expense of the establishment of the Duke of York, the Prince's son. The Prince of Wales has settled upon him by law an annuity of £40,000, and by an act pessed in 1889, receives £37,000 annually in addition for the support and maintenance of his children. He has also an income, the revenues of the Duchy of Cornwall, which in 1894 yelded him £57,734. The Princess of Wales has settled upon her the annual sum of £10,000, which; in the event of her becoming a widow, will be increased to £30,000 annually. Thus the incomes of the Prince and Princess amount to a total of about £144,734, or \$723,670.
