BLENHEIM, Nov. 10.—(Special to the Advertiser.)—That the growing of beans was a very profitable crop here this year, is shown in the returns received by Samuel Moore, a farmer, two miles north of town, who from eight acres delivered more than 240 bushels and received \$3.00 per bushel, netting abandoned further harvesting of the best returns reported, although there are quite a number who have yields of 25 bushels and more per acre.
