The quality of fat cattle was just about the same as has been coming for the past few weeks.

Trade was fairly good, on account of there being many buyers from outside points, besides the local dealers. There were representatives of the trade, who wanted cattle, from Montreal, Kingston, Parry Sound, St. Catharines and Hamilton.

were sold at \$3.75 to \$4.25 for the back with a few choice at a little more money. Butchers.

Owing to light supply and several outside buyers, there was a little sharper trade, but there was no difference in price, at least the leading dealers so reprice, at least the leading dealers so free cut.; loads of the best sold at \$4.40 to \$4.60; medium, \$4.25 to \$4.40; common, \$3.75 to \$4.10; cows, \$2.50 to \$4 per cwt.

None were offered or sold as such, but there were many light cattle on the market, that other years would not have been taken for any other purpose than for feeding, and fully half the cattle offered and sold to kill this winter were nothing more or less than feeders. Harry Murby has orders on hand, but cannot get either feeders or stockers, to fill them. Mr. Murby bought 100 cattle, 850 to 1100 lbs. at \$3.60 to \$4.40 per cwt., amongst which were cattle that ought to have gone to the stable.

Milkers and Springers.

Many milkers and springers have been market, this week. A large

mate outcome of wheat values.

Sherrson, Hamill & Co. to R. R. Bongard at the close:

We believe in buying wheat on all weak spots. The statisticial position is bullish and the demand, both domestic and foreign, is large and will continue so. We look to see wheat sell much higher later on.

Ennis & Stoppani wired to J. L. Mitchell:

Wheat—Weakness at Liverpool caused early selling by pit crowd, but offerings were well taken by commission houses and elevator houses, resulting later in a recovery of an initial loss and a subsequent sharp advance of over 3c from the low point, with final figures best 70f the day. From all markets came reports of an urgent demand for cash property, with holders rather reluctant to sell, in view of the fact that receipts at all points were abnormally small. Northwestern cash interests are competing with winter wheat. This had the effect of rather forcibly directing the attention of the domestic situation and resulted in an enormous desire on the part of shorts to cover, in their efforts to do which they came in competition with the friends of the cereal, who were willing to add to their long lines. We look for a continuation of the upward movement.

Corn and oats were strong and higher throud the session, the former scoring the greatest advance, with prospects for
