to-day and see what is being done Yonge-streets it would be more marvelous in his eyes than anything he ever dreamed of in the old days when he nurtured the chief civilizing influences of the infant community of Toronto. It is only as yesterday since Knox Church was torn down, but today a new church, the result of Jesse Ketchum's benefaction, grows to per-fection on Spadina-avenue and on the old church site there arises a mammoth steel structure which forms the framework of a store which will have no rival on the continent, and there-fore in the world. Toronto is already celebrated for its stores, but the Robt. Simpson Company, Limited, has conceived the idea of creating a store which will embody the best of all that have been, and at the same time present so many new features that storekeeping will enter a new era with its opening.

The genius of modern business has attained its successes and recognizes its opportunities in the field of the democracy. Some stores attract the populace, and some attract the car-riage people. It has hitherto been found impossible to combine the pat-ronage of all classes. Limitations of space of means, of a sufficiently large purchasing public, and other factors have prevented. Simpson's have kept steadily in view as an ideal the possibility of supplying the best that the markets of the world can furnish.

perfect taste and in harmony with the purpose designed.

Accounts of costly and exquisite surroundings usually foreshadow in the customers' minds a climax of inaccessible rates. This is not Simpson's desires to adumbrate. Prices will be brought as low for the high-est qualities as they usually are for inferior merchandise. This will be a natural result of large purchases and quick and ready sales. Toronto will furnish the shopping public, and Simpson's will provide the prices and the merchandise in what is expected to be the show place of the city. The immense area of the new store floors, covering an extent equal to a small farm, will enable the firm to display a stock of goods such as has never before been attempted in Canada. Already in anticipation of the completion of the building the foreign buyers have received instructions to take account of the completion of the building the foreign buyers have received instructions to take account of the completion of the building the foreign buyers have received instructions to the show place of the city.

Public spirit is a commercial asset in the new business methods. It is recognized that the public are loyal to those who deal faithfully and disinterestedly. Simpson's, relying on this, have begun at the beginning, and from the foundation have undertaken the erection. attention to qualities and rates and the advantage of widening attention to qualities and rates and this is being given.

Besides quality, style is of almost equal importance. The great shopping centres of London and Paris are completed and filled with the most

wonderful collection of merchandise and crowded with delighted purchasers by the first of next December. THE SUNDAY WORLD is delivered to any address in the city or

suburbs for 5 cents per copy.

Westmoreland Avenue Methodists Worship in New Quarters.

The congregation of Westmorelandavenue Methodist Church, which was destroyed by fire last winter, worshipped yesterday in a tent on the site of the burned edifice. Since the fire they have occupied quarters in a

Meanwhile the congregation are striving nobly to arrange for the rebuilding of the church. and other congregations are respond-ing to their call for assistance. Rev. I. E. Mr. Sutherland stated that the selection of the candidate for the house of commons should be left open until a later time. This is thought to be a forerunner of an announcement that Speaker Sutherland will retire from politics, probably to accept a high court judgeship, but it may mean only the deferment of the nomination. The executive selected William Piche of Sandwich and Gerald Mooney for appointment as customs officers. There were about 40 applicants.
