WHEAT VALUES UNDER PRESSURE AT CHICAGO

Seemingly Dubious Chances of Adequate Foreign Market Impaired Prices.

BIG RECEIPTS PILED UP Million Bushels Sold to Europe—Oats Declined in Symmetry.

NEW YORK, Feb. 14.—Metal shares commanded the bulk of speculative attention in today's dull and irregular market, with high records for...

CHICAGO, Feb. 14.—Big stocks of wheat and the seeming dubious chances of an adequate foreign out-let excited a bearish influence today on wheat values here. The result was an unsettled close at 1-2c to 3-4c decline with May at \$1.27 3/4 and July at \$1.20 3/4. Corn finished 1-4c down, oats off 1-4c to 1-2c, and provisions varying from 1/2c to 1/4c rise of...

Large receipts, which piled up during the double holiday, had a noticeable tendency to make holders of wheat discouraged, and this condition was emphasized later by the fact that the United States available supply showed a weekly decrease of only about one-sixth as much as the corresponding time last year, whereas the total supply was posted as about 13,000,000 bushels in excess of last year's aggregate. Besides, warmer weather northwest was expected to increase the present movement. Reports of crop damage, chiefly in Texas, Oklahoma and Missouri, acted to some extent as a check on the bears, but failed to stimulate any demand buying. Absence of fresh export business until late in the session counted a good deal toward bringing about a lower average of wheat prices for the day, and prices estimated at 1,000,000 bushels, exclusive of 2,500,000 bushels which had previously been reported.

There was some sympathy with wheat. There was some buying here to, to remove hedges against northwestern cash sales to the west. Some provision for some trans-shipment because of a buying movement on the part of several grain houses. Profit-taking by holders subsequently wiped out most of the gains.

STOCKS IN GOOD DEMAND ON MONTREAL MARKET

Smelters Rose to New High—Record and Finished Strong—Steel Shares Affected.

MONTREAL, Feb. 14.—The local stock market was inclined to disregard the heavy tone of the day, and the long-continued competition in the Wash-ton-Berlin situation. Special stocks in demand, while the tone was generally steady. The exceptions to this were sharp declines in the steel shares. Against 40% in the last market for steel, the market fell sharply to 29%. Smelt-ers rose to a new high of 63%, and finished at the best. Loyal advanced 2%, and the steel shares were fairly active, but were mildly affected by the reactionary tendency of the market. The market was in good demand for the steel shares. The market was in good demand for the steel shares.

BANK DIVIDEND REDUCED.

Bank of British North America direct to audit, at a meeting of shareholders to be held March 7 a dividend of 30 cents was declared, which less the tax amounts to 7 per cent. for the year. The usual dividend of 40 shillings was paid for the year. The dividend was paid for the first half of the year, but the dividend for the second half has been reduced to 20 shillings. This dividend of 7 per cent. in 1915 compares with 8 per cent. in 1914 and 1913, 8 per cent. and a 1 per cent. bonus in 1912, 7 per cent. and a 1 per cent. bonus in 1911, and 6 per cent. and a 1 per cent. bonus in the preceding four years, with 5 per cent. prior to that year for a number of years. The dividend is thus made the smallest in two years.

NOVA SCOTIA STEEL NOW A GREAT EARNER

MONTREAL, Feb. 14.—Authoritative financial circles in Montreal are responsible for the statement that Nova Scotia Steel and Coal Company's position is a great deal better than represented in the public statement. The company's earnings have been declared to be at a rate sufficient to yield 37 per cent. for the year on the common stock, 12 per cent. more than given out, and in addition, a bonus of 10 per cent. on the common stock. NEW YORK CURB.

Hamilton B. Willis says: Following the upward movement of the mining securities, the curb in sympathy with the market, ran into a period of dullness this afternoon, but prices held firm, and the closing resulted unusual strength. The active issues, especially the copper, zinc, and silver, are in exceptionally solid technical position.
