Brazilian and Breweries Among Leaders; Laurentide and Smelters Active

WALL ST. EXCHANGE **DISPLAYS STRONG TONE**

Active Buying Is Resumed in Rails and Standard Industrials

Canadian Press

MONTREAL, Aug. 27—Trading on the ocal stock exchange at the opening this norning was very brisk, but stock values revealed an irregular trend. Chief values revealed an irregular trend. Chief interest was centred in Brazilian, Breweries and Power (new), while Laurentide and Smelters were fairly active. Power (new) was the strong spot, scoring a gain of 1½ points at 67½, after opening at 66½, for an overnight advance of three-quarters. Brewerles began the day at 68½, up three-eighths point, and in subsequent trading touched 68%. Brazilian was irregular. This issue came out unchanged at 118½, eased a quarter, but in later trading recovered its fractional loss to sell at 118½, unchanged from the opening

Amherst Paper's References to Parents of Saint John Man

In its report of the 64th wedding anniversary of Mr. and Mrs. Woodford Purdy, at Amherst, parents of F. S. Purdy, Saint John grocer, the Amherst News says scores of people from Moncton, Saint John, Sussex, Point de Bute, New York, Port Elgin, Shemogue, Wallace, Fort Lawrence, Shediac, and other centres, including friends from Amherst, paid their respects and delivered congratulations. Mr. Purdy will be 94 years old in October, and Mrs. Purdy will be 88 in November. They have three sons and one daughter, all living, and 16 grandchildren and twelve great grandchildren. Mr. Purdy was the son of the late Samuel Purdy of Fort Lawrence, and a grandson of one of the three original Purdy brothers, who settled in Cumberland, at the time of the American revolution—coming from Westchester, New York. Mrs. Purdy is a daughter of the late Lewis Wells of Wallace.

While the anniversary was not marked by any particular celebration. p In its report of the 64th wedding

Mr. and Mrs, Robert J. Bryson Congratulated on Anniversary

Anniversary

Fifty years of married life were completed today by Mr. and Mrs. Robert J. Bryson, 42 Sheriff street, and the family are celebrating the golden wedding anniversary. They were married on August 27, 1876 in St. Peter's church and have lived in Saint John all their life. Mrs. Bryson was Miss Bertha Higgins before her marriage. Twenty children were born to the union and of these twelve are now living. They are James, Sarah, Nathan, May, Jack, Bertha, Jennie, Joseph, Marjan, Vera, Robert and Helen. The family has had a record in athletics, Joe being an amateur boxer of considerable note and some of the girls heing prominent in skating and ladies' track events. Many friends will join in wishing many more happy, years to Mr. and Mrs. Bryson.

Morning Stock Letter
NEW YORK, Aug. 27—The market continues to show improvement. Yesterday morning we said the market was stronger than it appeared. There was considerable pressure on various stocks from time to time, but if the market was to have a big break at this stage, we believe it would have already materialized. Enough ammunition has signed as the stage, we believe it would have already materialized. Enough ammunition has signed as the stage, we believe it would have already materialized. Twenty-five year 61/2% First Mortgage Gold Bonds (this

From the letter to us of the Hon. Walter G. Mitchell, K.C., President of the Company, we summarize as follows:—

Due March 1st, 1951.

COMPANY:—The Canada Electric Company, Limited, supplies an important industrial and mining territory in North Western Nova Scotia, including the towns of Amherst and Springhill, and contiguous territories, in addition to the two Cumberland County coal fields. The total population supplied is 20,000.

PROPERTIES:—The Company's plants consist of a 2000 kilowatts (2,700 horse-power) generating plant at Chignecto, N.S. A new plant, with an ultimate capacity of 4,000 kilowatts (5,200 horsepower) is now in the course of construction at Maccan. On its completion substantial economies will be effected in the present cost of generation of power. The new power house is a thoroughly modern structure, completely equipped for the burning of pulverized coal, with modern boilers and machinery, and specially designed to use the cheap fuel available.

PURPOSE OF ISSUE:—The proceeds of the present issue will be used for the financing of the new plant at Maccan and to redeem a presently outstanding issue of \$30,000 of First Mortgage Bonds. EARNINGS:-Net earnings, available for bond interest, are estimated as follows:-

This compares with bond interest requirements of \$29,250. During the past ten years, including the earnings derived only from the original plant, net earnings available for bond interest have averaged \$41,289., and for the past four years \$44,911. The bond interest on the old plant has, therefore, been earned on an average of over 1½ times

Under the Nova Scotia Public Utilities Act, the Company is entitled to earn an 8% interest return on the capital value of its plant and 4% depreciation on same. Based on the Board of Commissioners of Public Utilities' valuation of the present plant, the Company's assets, after completion of the new construction, will exceed \$800,000.

SINKING FUND:—A Cumulative Sinking Fund of 2% commencing March 1st, 1928, is calculated to retire the entire issue by maturity. All legal details in connection with this issue will be passed on by our Solicitors, Messrs.

It is expected that Definitive Bonds will be ready for delivery on or about September 9th, 1926. PRICE: 100 and accrued interest, yielding 61/2%
