CAN'T SAY YES TO BASEBALL REQUEST

Council Asked for Permission to Use Queen Sq. for Games.

A request for permission to use the Queen Square, West, for ball games was presented at a meeting of the council this morning by a delegation of west side men, but no action was taken as it was pointed out that the city could not legally give permission for the use of the grounds for this purpose, it being a public square.

The delegation consisted of A. W. Covey, P. J. Legge, Charles Emerson and S. Olive. Mr. Legge said that the west side had no grounds for the boys to play on and they would like to use the Queen Square until the playgrounds were developed. Any damage which had been done had always been made good and they would like at least to finish out the games in the league, which will end August 17.

Mayor Fisher said the council had no knowledge of the matter, but Commissioner Thomson said a letter had been received from Patrick Walsh objecting to ball playing there and he had no recourse but to instruct the police to stop the games.

Charles Emerson said the damage complained of by Mr. Walsh had been done by a school boy league and the grounds committee had replaced the broken glass.

A. W. Covey said he thought the boys should be encouraged and given an opportunity to play.

The Mayor said the delegation could see from the information furnished that the city council had no right to grant any permission and they withdrew from the council chamber.

The next item on the programme will be an entertainment on an open air stage. Each orphan attending will receive a present and seven special prizes will be given by drawing. Little of the money of the committee looking after the arrangements is composed of W. E. Scully, M. P. J. Morris, A. C. Powers, treasurer; Miss C. Ward, secretary, and C. F. Tilley, chairman.

As Hiram Sees It

"Well, sir," said Mr. Hiram Hortonbeam to The Times reporter, "me an' Doctor MacLaren went out on a very good day with them forestry fellers to Salmon River. We had one o' 'em in the car with us—an' he behaved fust-rate. They was all a bunch o' good fellers. I had no idea these here lords an' things was in the woods an' watched 'em eat at that cook-house. I guess the mill cut out to Salmon River must have been surprised to see old Hiram climbin' out of an ottomobee an' walkin' round with the big-bugs. Why, me an' Lord Lovat stood up on the same stump in the woods—to get a good look round. I started in to tell him somethin' about trees, but—By Hen!—he knowed more about 'em than I did—an' him never in our woods afore in his life. I wonder what our benchbirds an' jazz chasers 'ud say about that. Say—that there British aristocracy is as fer ahead o' the git-rich-quick kind as a farmer is of a pettier bug—yes, sir. But I'm goin' out to Salmon River agin—an' I'm goin' alone—if I kin dodge Fraser Griggery. I just want to get on the right side o' Cook Crawford out there and hang round fer a spell after hayin'. I don't dast tell Hanner—but I kin taste them vittles, sir!"

LIKELY TO AWAIT FINAL JUDGMENT

Building Inspector Speaks of Court Decision re Mayor's Repair Work.

That he had not been notified that judgment was to be delivered and had no official notification as yet of the finding of the court was a statement made this morning by the building inspector, James Carleton, when asked if he had yet issued a permit for repairs to Mayor Fisher's building in Charlotte street. Yesterday afternoon Mr. Teed had called at his office and told him the court had decided the Mayor had a right to repair the building and requested that a permit be issued, but he had no notice from the court.

Questioned as to his intentions in the matter, Mr. Carleton said he did not think he would issue an permit until the final judgment had been given two weeks hence.

Mayor Fisher won the first round of the dispute with the building inspector as the right to repair the building damaged last winter by fire, when Mr. Justice White yesterday ruled that under the building regulations he had a right to repair the structure.

He ruled against the contention that a permit was not necessary for repairs, finding that no work could proceed without that document. He also found the building inspector was in error in refusing to grant a permit when it was asked for after attaching such conditions as he deemed necessary to ensure safety.

Final judgment was set for 15 days from yesterday to give the building inspector an opportunity to issue the permit and attach the conditions the law provides for without the court delivering judgment on this point.

J. S. GREGORY IS WITNESS TODAY

Arbitration Proceedings that Involve a Claim of \$74,000.

Arbitration proceedings were continued this morning in the Equity Court rooms in the matter of a claim of J. S. Gregory against the Portland, N. B. Co., to determine the amount payable to him for improvements upon his wharf properties in the North End. He is claiming in various items a total of about \$74,000. Mr. Gregory, on being recalled to the stand this morning, said that he had been in business on the properties in question from 1902 until 1923. He described in detail the enterprises in which he had been interested, and what part of the properties were connected with the carrying on of his business.

Taking the statement of claim, the witness was asked to tell in detail, upon what it was based, and then to tell in a few words as possible, the actual work done. He then outlined all the permanent repairs and construction which had been effected during the time he was in possession of the property. There was some interesting data in respect to the relative value of labor, and materials of construction between 1902 and 1906, when the work was done, and at the present time.

At the time of adjournment for lunch the details of the permanent repairs and structural improvements to both the Portland wharf and the Portland yard wharf, had been gone into thoroughly.

W. H. Harrison, C. C. and H. A. Powers, K. C. appeared for Mr. Gregory, and Dr. J. B. M. Baxter and J. D. F. Lewin for the company.

ST. JOHN BRIDE IS MARRIED IN MASSACHUSETTS

A wedding of much interest to many friends in St. John took place in Dorchester, Mass., on Monday morning, July 30, when Bertha Marion Bowes, youngest daughter of Mrs. Mary and the late Thomas J. Bowes of this city, became the bride of Frank J. Hay of Brookline, Mass., son of Mrs. Ada E. and the late Ambrose Hay, formerly of Cham and St. John. Nuptial mass was celebrated by Rev. Father Denny, rector of St. Peter's church who performed the marriage using the double ring ceremony. The bride made a charming appearance in wedding gown of white satin and tulle with train and veil and coronet of orange blossoms. She carried a beautiful shower bouquet of lily of the valley and orchids. She entered the church with her brother, Joseph A., who gave her in marriage while the organist played the wedding march.

The attendants were Cloran Hay, brother of the groom, and the bride's sister, Miss Anna M. Bowes who wore a lovely gown of sunset taffeta with hat to correspond and carried a beautiful arm bouquet of tea roses.

After the ceremony the bridal party, with the immediate families returned to the home of the bride's sister, Mrs. Jack Hanrahan, 71 Richfield street, Dorchester, where a wedding breakfast was served after which Mr. and Mrs. Hay left on a honeymoon trip to Atlantic City. On returning they will reside at 92 Columbia Ave., Brookline, Mass., where they will be at home after Sept. 1.

The gifts, numerous and beautiful, included checks, cut glass, silver and linen, also a set of French china and testified to the esteem in which the young people are held. Many good wishes were expressed and wired to them for a long and happy life.
