My trouble started with pimples breaking out all over my face and shoulders. The pimples were large and red and feverish, and itched and burned so badly that I could not sleep. They were very sore and my clothing aggravated them.

I read an advertisement for Cuticura Soap and Ointment and sent for a free sample which helped me. I purchased more, and after using four cakes of Cuticura Soap and three boxes of Cuticura Ointment I was healed." (Signed) William C. Steen, 39 Peabody St., Buffalo, N. Y.

BRAINS! That's What Dolph Has Nothing Else But

DOLPH, MARVEL POLICE DOG.

(By NEA Service.) Portland, Ore., Sept. 29.—Dolph, a police dog here, does more than bark. Scientists call him the canine with a super brain.

They say he is possessed of telepathic powers because of the seemingly uncanny way in which he interprets commands most times even before his master, Max Muller, utters them.

Among the many wondrous things Dolph can do is ferret out the hiding place of any lost article or purposefully concealed one.

Experts Are Puzzled. Experts attribute his inexplicable trailing power to an over-developed faculty of scent. But they are at a loss to explain why he will run along a trail and then cut short, catching up with it at the other end, to save himself a lot of useless chasing.

Likewise they are puzzled to know how he is so unflinchingly certain that an article has been buried or placed upon a post or building out of sight.

Dolph can be locked in a room and still he continues to perform his trick of finding hidden articles though no audible command be given.

Spirit-Chasing Mate. "Mental telepathy," says Muller, "He can read the human mind," in which opinion several scientists who claim to know concur.

Dolph has a mate called Borah, whose particular task is that of pursuing spirits. She recently put a whole army of spirits to rout after they completed mystic invasion of a home here.

And now Dolph is going into the movies. Achievement of the flickering screen may have been reached before by others through virtue of a pretty face behind which a more or less vacuous brain sometimes functioned.

But Dolph—be to become a dog-dog star because he has brains.
