GERMAN SCHOOLS ARE EMBARRASSED

Proposal to Restrict Flood of Students from Other Countries.

25 per cent of Enrolment—Outsiders are Principally Bulgarians, Russians, Rumanians, Hungarians, Jugo Slavs, South Africans.

Berlin, June 25—(By mail)—Accommodations at most of Germany's universities and technical high schools have been so severely cramped since the war by increasing enrolments that steps are being suggested for stemming the rising percentage of foreigners.

A leader in the movement to restrict the foreign influx states that in his lecture room he has noted from fifty to 100 non-Germans, made up principally of Bulgarians, Roumanians, Russians, Hungarians, Jugo-Slavs and South Africans. He declares the preparation of those "outsiders" frequently is insufficient and that their conduct often "leaves much to be desired.' While emphasizing the need of some curtailment in the enrolment and favoring action against foreigners to this end, he observes that caution should be exercised to avoid political or diplomatic embarrassment through too stringent proceedings.

Enrolment in German universities as a whole has shown an increase of 30 per cent. since the war and that of the technical high schools has been more than doubled. Just before the war there were 60,000 university students in Germany. At the armistice the aggregate jumped to 90,000. There has since been a slight falling off, the summer of 1921 registering 87,147 and the present semestre 82,668.

Doubled Since 1914.

Technical high schools of the country were handling 12,000 students before the war. In the autumn of 1920 their students numbered 22,976, and last winter 26,556.

While the knowledge that the war resulted in a greater greed for learning in the younger generation, rather than causing demoralization and frivolous living, has proved gratifying to the Germans, there is a disturbing factor in that "kultur" studies have suffered declining fascination. Compared with the figures for 1914, the present statistics for universities show decreases in the enrolments for Evangelical and Catholic theology. Medicine, the most popular in 1914, also has proved less attractive although dentistry students have more than doubled and there has been a slight increase in chemistry. The would-be physicians now number 15,110, whereas in 1914 there were 16,048.

Political economy heads the list in numbers of university students enrolled and in percentage of gain over 1914. This branch has 17,714 at work, as compared with 3,836 in the last pre-war year. The study of law comes next with a registration of 16,834, as compared with 9,840. Mathematics and physical science have attracted 9,257, an increase of 1,125.

Practical Science Popular.

In the technical schools the greaters number have flocked to mechanical engineering, which 8,306 now are studying as compared with 3,118 in 1914. Electrical science has 5,129 enrolled, against 1,307 before the war. There are 3,735 in mathematics and physical science in these schools and 3,311 in constructing engineering, as compared with 1,544 and 2,767, respectively. Mining and smelting have registered a gain from 576 to 1,234. Architecture, alone, in the technical schools, has shown a decline, the enrolment dropping from 2,193 to 1,811.

Of twenty-three universities mentioned in current statistics only four have shown a smaller enrolment than in 1914. This complete list includes Frankfurt, founded in 1914 and now having 4,367 students, and the universities of Cologne and Hamburg both founded in 1919, which have enrolment of 4,107 and 3,660 respectively. The largest registration is in the University of Berlin, with 12,724, as compared with 8,538 in 1914. Munich has increased from 6,626 to 9,984, and Leipzig from 5,360 to 5,660. Of the four having more than 4,000 students before the war, only Bonn suffered a decrease—from 4,524 to 4,010. Wuerzburg had the greatest percentage of increase, its enrolment rising from 1,605 to 3,307.

ROCHESTER YOUTH HELD.

Roy Kahler Arrested on Charge of Fraud Laid by Hotel Manager.

Toronto, July 17.—Roy Kahler, aged twenty-one, son of a well-known hotelkeeper in Rochester, Minn., U. S. A., was arrested by Detectives Dawn and Greenley on a charge of fraud. L. Muldoon, manager of the King Edward Hotel, is the complainant.

The young man before coming to the city is alleged to have sent a telegram to Mr. Muldoon asking him to "take good care of my son," and signed his father's name. The youth is said to have made out a check for $250, which was cashed at the hotel.

A chance remark, said to have been made by Kahler, to the effect that his father was in England was carried to Muldoon's ears and the detectives were on the young man's heels when he left the hotel for the Union Station ostensibly to take a train for Winnipeg. He was arrested on a train bound for Montreal and all of the money but $7 was found in his possession.

Amaze Your Friends With Your Complexion

Do you want a clear fresh glowing skin—free from even the slighest trace of pimples or blackheads? You can have it easily. And so quickly that your friends will be amazed at the change in your appearance Simply take Ironized Yeast—two tablets with each meal. Then watch the results. Before you know it, every pimple and blackhead will have disappeared and you will have a clean, youthful velvety skin—the kind that is envied by everyone.

Ironized Yeast supplies your system with certain vital elements now lacking in your food—the very elements needed to keep your skin beautiful. You won't believe what a wonderful change it can bring in your complexion until you try it. Get it from your dealer today or mail postcard for Famous 3-Day FREE Test. Address Harold F. Ritchie & Co., Ltd., Dept. 99, Toronto. Ironized Yeast is recommended and guaranteed by all good dealers.

IRISH TO HAVE FINEST PORTS

Millions to be Spent on Improvements to Cork and Queenstown Harbors.

New York, July 17.—The first American technical man called to Ireland, George F. Nicholson, port engineer of Seattle, Wash., returned on the United States steamship President Adams. Nicholson has just finished a survey of Queenstown and Cork harbors.

"Ireland has the finest harbors in the world, and the Free State government, which will have its difficulties smoothed out soon, is going to improve them. After my survey, I estimated it would cost $8,000,000 to improve the two ports.

"Most of the money will be spent on Queenstown, the chief port. With a deeper and wider channel between the outer and inner harbors, Queenstown will have harbor comparable with any in the world. My estimate calls for up-to-date docks and facilities. When the work is completed the Majestic can enter the harbor and tie up at a dock."

MEET OF ANTI LIQUOR FOLK

National Division, Sons of Temperance, in Convention Tomorrow.

(Glace Bay Gazette)

The National Division of the Sons of Temperance which will be in convention here during the 18th and 19th of this month will be a representative body from all parts of North America. More than 150 delegates from the Unted States and Canada will gather.

On July 18, the grand division of Nova Scotia will be in session here. On the evening of that day a public meeting will take the form of a welcome to the visitors.

Most Worthy Patriarch E. H. Harbenthal, who will preside at the session of the national division is one of the leading temperance workers in the United States. He was recently a delegate appointed by President Harding to attend the world prohibition conference in Genoa.

Other noted speakers who will address the convention are Grand Worthy Patriarch George McLeod of Halifax, F. W. Otis, Westhaven, H. B. Wood, Newport, R. I., M. B. Everson, Peconi Pines, Philadelphia, and W. Wilmot of Orilla, Ont.

While here the delegates will be billetted in the homes of members of the local division, and other divisions in the district. All meetings will be held in the George street Methodist church.

LOAD OF BEER UPSET.

Wet Road Caused Ten-Ton Truck to Skid Into Ditch.

Port Credit, July 17. — The roadway between Port Credit and Islington was given two drenchings the other night. The first was a heavy rainstorms, and the second was a liberal shower of beer, when a ten-truck load of it was upset.

The truck load of beer, which was on its way from the Grants Springs Brewing Company, Hamilton, was driven by S. W. Fullerton, who says that a touring car traveling the same way as the truck cut in front of him, and in trying to avoid a collision he skidded into the ditch and turned over. Fullerton jumped in time to avoid serious injury, but he was bruised and cut by some of the flying bottles.

A BOY BANDIT.

(Montreal Gazette)

Judge Choquet was faced yesterday morning in the juvenile court by a boy of nine years, who was charged with holding up an older boy at the point of a revolver. The youthful prisoner is said by Detectives Finel and Gagnon to have walked into a grocery in the downtown district on Wednesday night, when the fourteen-year-old son of the grocer was alone in the shop. After backing the older boy into a corner at the point of a revolver, according to the officers, the lad selected goods to the value of $9 and then disappeared. As he had already appeared before Judge Choquet on a charge of stealing a revolver, his case was adjourned for final disposal. The detectives said that the revolver had been stolen by the boy from his father.

DOGS IS DOGS IN THIS COURTROOM

Five Became Seventeen and the Neighbors Complained, So Mrs. Danreuthen Gave Away Eight in Court.

New York, July 17—A court order was never more quickly obeyed than that delivered by Magistrate Jacob Elperin of the Fifth Avenue Court, Brooklyn, when he instructed Mrs. Paulin Danreuthen of 345 Prospect avenue to try to get rid of some of the seventeen dogs whose howlings had brought her before the court on a charge of maintaining a nuisance — or, rather, seventeen nuisances.

Daniel Donovan, counsel for Mrs. Danreuthen, immediately offered to present the magistrate with one of his client's excess dogs. The magistrate declined. But Dennis King, clerk of the court, and several others accepted the offer, and before the defendant left the court, her canine household had been reduced by eight.

In defence, Mrs. Danreuthen pleaded that twelve of the dogs had been thrust upon her. Her original kennel consisted of only five dogs, but they presented her with twelve puppies, and she, loving dogs, could not bear to part with any of them. The neighbors protested, not against dogs in general, for one of them said he had a puppy of his own, but it was the general opinion of the complainants that seventeen were too many to be quartered in one home.

"Madame," said the magistrate, "every dogs has his day, but it must be a pretty tough day for the neighbors when seventeen dogs start to celebrate their day all at once. I will have to hold you in $100 bail for special sessions. In the meantime try to get rid of the dogs."

And then the deluge of dogs began, the dogs being accepted "sight unseen" and upon Mrs. Danreuthen's claim that they were "nice puppies when separated."

AT HALIFAX EN ROUTE TO ARCTIC

Ketch Rigged Craft to Take Supplies to Baffin Land for Gold Exploration Syndicate.

(Halifax Chronicle)

After a passage of forty days from Peters Head, Scotland, a ketch rigged craft called the Albert has arrived here to take on supplies for the trading posts of the Arctic Exploration Syndicate, London, Eng., in Baffin Land and will sail next week for the far north. The vessel is in command of Captain John W. Murray, a veteran of the Arctic and Captain H. G Munn, managing director of the company, will also make the trip north in her.

The Albert, which was built away in 1888 and is well fitted for the trip into the Arctic circle, will make three calls at trading posts in Baffin Land. First she will go to Cumberland Sound, thence to Bond's Inlet and from there to Cape Kater. She will land supplies at each place and pick up furs and other articles gathered by the trading posts. It is expected that the trip north will take a month, although much depends on ice conditions, and she must be away from Baffin Land before navigation closes some time in September.

The trading company, which opened posts in Baffin Land in 1914, is taking all supplies from Halifax this year. The Albert brought from Glasgow part cargo of coal for the north. The Albert was here in 1919 when she started north from this port after having been laid up here the winter of 1918-19. Captain Murray has been sailing to the Arctic and Hudson Bay since 1892 and has spent ten winters there. He has commanded the Albert on seven cruises north. On her way south the Albert will proceed direct to Scotland. She carries a crew of ten men.

STATE TROOPER KILLS SLAYER OF VISITOR

Pennsylvania Farmer Wounds Six Before Besiegers Fire His House — Feared "Dry" Agents.

Montrose, Pa., July 17. — Two men were shot and killed and six other persons, including a girl, were injured in a shooting affair at Bear Swamp, Pa., near the New York State line, last week. The dead are Charles Wakeman of Little Meadows, Pa., and Fred Tydoni, a farmer at whose house the shooting occurred.

Among the injured is Sheriff Darrow of Susquehanna county, who is in the hospital at Johnson City, N. Y., where Wakeman died. Tydoni was killed by Harry McElroy, a Pennsylvania state constable, after Tydoni had wounded him.

According to the best information received here, Tydoni is alleged to have operated a still on his farm and, mistaking Wakeman for a prohibition officer, fired on him. Tydoni barricaded himself in the house and help was summoned from Montrose and Little Meadows, five miles away. In the shooting that followed the others were wounded and Tydoni killed. Wakeman, accompanied by three of his children, had called to see Tydoni regarding a real estate deal.

When the sheriff, Police Chief Tingley and the state trooper approached the house they were fired on with a shotgun from the house and all were wounded. Later, Constable M. P. Barnum and Steve Jones, from Little Meadows, tried to get into the house and also were wounded. Then, with the assistance of some farmers, the officers made an attack on the house. Tydoni's wife and four children were persuaded to leave, but he refused to come out. As a last resort the frame house was set on fire and Tydoni finally came out of the cellar with pistols in his hands. He was called on to surrender, but when he raised one of his pistols McElroy shot him dead.

SEWER SPOILS WINE, OWNER SUES CITY

Hull Man Claims $2,000 for Damage to Stock by Water.

Ottawa, July 17.—A break in a defective sewer pipe which, it is alleged, led to the destruction of $500 worth of choice whiskey and wines has brought the corporation of Hull into a $2,000 damage action. Louis Chanonard claims that water leaked into his cellar from September, 1921, to February of this year, completely ruining, plaintiff says, the beverage quality of the wines.

FOR SLUGGISH LIVER TRY JUST A PINCH IN YOUR TEA EVERY MORNING FOR A WEEK

Some Good Common-Sense Advice By W. G. EAST

(Cambridge Coach for 30 Years.)

Every have that lazy, listless, "don't care" feeling of constant lassitude, when every move requires special effort and even the brain seems tired, drowsy, and dull? It's your liver. Ever feel billious, nervous, irritable, "headachy," and various kinds of "achy?" It's your liver. Ever have dull eyes, yellowish eyeballs, pimply skin, catarrh, coated tongue, offensive breath, insomnia, stomach trouble, heart palpitation, loss of appetite, etc., etc.? It's your liver. Constipation has ever been called "the beginning of all disease," because it introduces into the blood, by absorption from the intestines, various disease-causing poisons which could not possibly even remain in the body otherwise. Poisons and impurities, whether you call them toxins, microbes, bacteria, bacilla, uric and stomach acids, or by any other names, are admittedly the primary cause of serious organic and other disease. Without their presence in the system the disease could not exist.

Ask your chemist for a few ounces of refined Alkia Saltrates, a compound which in its pure state gives you a reproduction of the solvent, eliminative and curative properties found in various famous medicinal spring waters. A pinch of this should be dissolved in your tea, coffee, water, or other drink, and taken every morning. No trace of any bitter, salty, sour, or other taste can possibly be detected. This simple precaution renders ordinary ills impossible, serious diseases improbable, and increases your bodily and mental efficiency so you at once begin to enjoy life, as Nature intends you should.

FORD'S PLANS FOR MEXICO

Detroit, July 17—Henry Ford's plan to establish a large assembling plant in Mexico is but a step in his scheme to "pacify Mexico with factories," revealed several years ago during the last period of strained relations between that country and the United States, it was said on high authority at Mr. Ford's office in Dearborn.

Advices from Mexico City to Washington stating that Mr. Ford was desirous of erecting a plant in Mexico were confirmed at the Ford offices. It was recalled by persons close to Mr. Ford that when the invasion of Mexico on a large scale was discussed by prominent persons several years ago he made the statement:

"Let me invade Mexico with factories and give the people of that country something to do. Then there will be no more war there."

It was learned that the assembling plant proposed may be but the first of several to be established in Mexico.

BULGAR WOMEN ARE UP IN ARMS

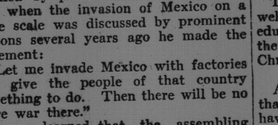
Sofia, Bulgaria, July 17.—When Premier Stamboulisky conceived the idea that it would be a good thing to compel every able-bodied man and woman in Bulgaria to work ten days a year for the state, he probably expected the trouble which has ensued, for he is described as a far-sighted statesman with an active imagination. In any event he has entered the lists to defende the weak spots in his innovation, and his principal opponents are the young women of the land.

In the first place, the young Moslem women of Bulgaria have refused point blank to do a thing. They cite the position given them in their homes by their religion, and refer the authorities to various groups of fathers and brothers armed with knives, pistols and rifles, who are violently opposed to their female relatives donating their labor to the state. The premier has proposed they be deprived of their vote, and has threatened arrest. The women still resist passively. Now Stamhboulisky says they will work for the government, or he will know the reason why.

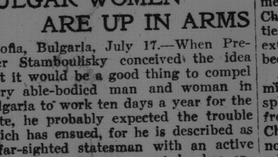
REVIVAL OF SWEDISH SHIPPING

Stockholm, June 29.—(A. P., by mail.)—Less than eight per cent. of Swedish shipping is now idle, according to the latest report of the Swedish Shipowners' Association. This report shows a sharp contrast to conditions a year ago, when in June Swedish shipping depression reached bottom mark with more than forty-four per cent. of the country's total tonnage idle and nearly forty-six per cent. of the men employed laid off. The report of the Shipowners' Association covers only its membership, but virtually all of the country's shipping is owned by members of the association.

The recovery of Sweden in shipping is based largely on the country's approach to normal in many of its most important industries and the rapid increase in exports.



Corns?



—just say

Blue-jay

to your druggist

Stops Pain Instantly

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in two forms—a colorless, clear liquid (one drop does it!) and in extra thin plasters. Use whichever form you prefer, plasters or the liquid—the action is the same. Safe, gentle. Made in a world-famed laboratory. Sold by all druggists.

TWO FAMILIES FILL ONE CAR

W. M. Morris Tells of Happening Down in Maritimes —Piping Times in East.

(Toronto Globe)

W. M. Morris, secretary of the Ontario School Trustees' and Ratepayers' Association, has just returned after an extended trip through Quebec, New Brunswick and Nova Scotia, where he addressed several meetings—particularly the New Brunswick Educational Association and the school trustees of Nova Scotia. He went east on invitation of the superintendent of education for Nova Scotia to discuss with the trustees the avisability of organizing an association. He says the result was quite gratifying. "The trustees of Nova Scotia are taking hold of the movement with great enthusiasm," said Mr. Morris, "and they are planning to organize the counties and bring trustees and ratepayers together in convention all over the province. They have drafted a provincial constitution after the model of the constitution of the Ontario association.

"The Province of Nova Scitia gives promise of a bountiful harvest," he added. "The hay crop is the best in many years. Considering the variety of industries in Nova Scotia, the farmers have a good year before them. When they are not pressed with strictly agricultural work they may turn their hand to salmon, oyster, lobster or other fishing. Mining and lumbering may be engaged in at any time. They are making big money this year in the fishing industry. One man cleared $700 in two months catching lobsters. He was a laborer, for whom everything was found, and he was paid according to the quantity of lobsters. This indicates the prosperity of Nova Scotia this year.

"Talk about large families," he concluded. "Two Frenchmen emigrated this spring from Edmundston to Quebec province to find room for their children. They lined into the railway car, seventeen and eighteen children, respectively, one family on one side of the aisle and the other on the other side.. There were thirty-nine people, and they practically filled the car."

ATTACK CHRISTIAN SCHOOLS.

Chinese Societies Issue a Protest Against Religious Teaching.

Peking, July 17. — Feeling against Christian education in China is evidenced in a long protest recently published by the Chinese press. This protest, signed by "the Anti-Christian Student Federation," was sent to the Chinese Educational Reform Association, which is meeting at Tsinanfu, capital of the Province of Shantung.

The protest asserts that while China welcomes the introduction of foreign educational methods, it does not desire them connected with the preaching of Christianity.

Advices from Amoy on April 20 stated that an anti- Christian movement said to have started with the formation of twenty-anti-Christian organizations in Peking University was spreading rapidly over China and that the agitation had reached Amoy University, the government schools and other institutions. Christian leaders and consular authorities at that time expressed alarm at the extent of the movement, said to have been backed by Communist agitators.

A week later, Shanghai reported that missionary circles and even official spheres of China were alarmed by reports from widely separated sources in Central China of the spread of anti-Christian denominations. These reports came from reliable sources in Nanchang, Changsha and Wuchang.

TEAM SHOCKED TO DEATH.

Cornwall, Ont., July 17. — Robert Simpson, a teamster, while on the way to work with his team, had the experience of seeing the horses drop dead in the tracks in front of him. One of the animals stepped on a live wire and dropped, pulling its mate down with it. Another section of the wire, which was supported by the limbs of trees, fell when the dead horse rolled over on it and the second horse was also electrocuted.

WHAT IS A LETTER

Many Times It's a Guide to Health as is This One

Women—Read It

Marmion, Ontario.—"Before using Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had terrible pains in my sides and was not regular. Finally I got so weak I could not go up stairs without stopping to rest half-way up. I saw your medicine advertised in the newspapers and gave it a trial. I took four bottles of the Vegetable Compound and was restored to health. I am married, am the mother of two children and do all my housework, milk eight cows and do a hired man's work and enjoy the best of health. I also found the Vegetable Compound a great help for my weak back before my babies were born. I recommend it to all my friends."—Mrs. Henry Janke, Marmion, Ontario.

Letters which you read in the newspapers recommending Lydia E. Pinkham's Vegetable Compound are genuine expressions from women who have been helped by this splendid medicine. They are anxious for other women, who may be suffering as they did, to know of the great merit of this medicine. Each one, with her reputation, stands behind it, to point out to sick women the way to health.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write Lydia E. Pinkham Medicine Co., Lynn, Mass.

Do You Get Up in the Morning Feeling "Fit as a Fiddle"?

Success in Life Often Times Depends Upon Starting the Day Right

TO BOUNCE out of bed feeling fresh as a daisy; to greet the little one prancing before you with a happy laugh, toss him up high with a firm, steady hand, and actually dance with the very joy of living!

Then plunge into your morning tub, if that's your method, dress with a smile on your lips and a song in your heart. Come with firm step to the breakfast table, eager for its wholesome fare—

And you spread joy in your household and go forth into the world "fit to fight," equipped with that most powerful of all weapons, great good health. For health is surely yours, and YOU do not need Tanlac.

But how different if you arise unrefreshed, aching in every fibre, unmoved by the healthy laughter of the household. The long day ahead will seem to you an eternity, promising nothing but misery, and you just have to summon all your will-power and what little energy remains to you, to drag yourself up, dress and take your place falteringly, discouraged, without appetite, at your breakfast table. Gloom enshrouds you and casts its depressing pall about your whole family circle, and you go out to the battle of life already hopelessly beaten. YOU need Tanlac!

And oh! how many thousands experience this wretched state! Far and wide the wail is heard from those who crawl out of bed with the greatest effort and wonder if there is nothing that can bring the health that will make them feel "fit as a fiddle" in the morning. They need Tanlac!

What is the matter? Why are they all tired out in the morning? The answer is simply that their systems are clogged and their blood poisoned from the waste substances that have been stored up because the digestive and eliminative organs have not performed their proper functions. And the reason for all this is that too much hastily eaten food has been piled into the stomach.

When you feel yourself getting up in the morning unrefreshed and exhausted, look for the symptoms of stomach trouble, such as dizziness, nervousness, bad taste in the mouth and biliousness. You may be constipated, too, and your liver sluggish or torpid. Unusual skin pallor, loss of weight, loss of appetite and inability to sleep restfully are Nature's warnings, and you must look to your digestive system or be in danger of drifting into some serious disease.

The natural action of Tanlac on the digestive, secretive, assimilative and eliminative organs is the certain safeguard to your health, and the never failing foe of that awful tired feeling when you get out of bed in the morning. Tanlac has proved to be the best and safest tonic and system purifier, stimulating the digestive system to its proper functioning, so the blood is able to take up fresh building material and is so vitalized as to be able to more thoroughly eliminate the waste products which make you feel all tired out.

The cells of all parts of the body then receive real healthy nourishment, the shrunken tissues are filled out, the skin regains its glowing texture and the bloom of health. The eye clears and with the strong and normal digestion the whole system is built up to the point where your hours of sleep are truly refreshing, and you get up in the morning feeling "fit as a fiddle."

It seems the sheerest folly for anyone to feel all tired out in the morning, when Tanlac affords the best and most natural means of keeping in good trim or bringing the system back to its full and normal powers.

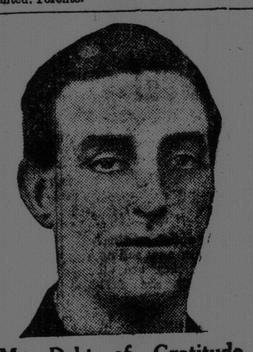
Tanlac is sold by all good druggists.

CANADA'S CROPS

Ottawa, July 17—Reporting on the condition of field crops at the end of June, the dominion bureau of statistics states that throughout eastern Canada the prospects were said to be generally favorable. In the prairie provinces dry weather during the first three weeks in June exhausted moisture and rain became badly needed. About the 23rd the drought was broken and heavy rains fell with very beneficial effect. A violent wind and hail storm damaged grain crops over an area approximately 200 miles long by ten miles wide. Early wheat suffered considerably from this storm, but oats and barley should recover.

In Saskatchewan grains were reported as making excellent progress and in Alberta the prospects were for average grain crops.

ECZEMA You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage. 60c. a box; all dealers or Edmanson, Bates & Co. Limited, Toronto.



My Debt of Gratitude.

'Ulcers the Size of Man's Hand.'

Our portrait is of Mr. G. M. THOMPSON, of 4, Midland Grove, Edward Rd., Balsall Heath, Birmingham, England, who writes:

"In July last I happened to get a scratch on my leg. It was so slight I took no notice of it till a fortnight elapsed, when I found I could not go to work. It gradually grew worse, when it turned septic; from this period it got from bad to worse till at length the sores turned into ulcers. I had at that particular time ulcers the size of a man's hand covering my leg. After I had tried nearly everything I read about your Clarke's Blood Mixture and decided to take it; it was then in the month of October, and after the second bottle, I found relief. I continued until the seventh bottle when I found myself completely rid of the trouble. You can make use of this statement and I will be only too pleased to answer any enquiries because it's to nothing else but Clarke's Blood Mixture that I owe my debt of gratitude."

Sufferers from Bad Legs, Abscesses, Ulcers, Glandular Swellings, Piles, Eczema, Boils, Pimples, Eruptions, Gout and Rheumatism should realise that lotions, ointments, &c., can but give temporary relief—to be sure of complete and lasting benefit the blood must be thoroughly cleansed of the impure waste matter, the true cause of such troubles. Clarke's Blood Mixture quickly attacks, overcomes, and expels the impurities; that is why so many remarkable recoveries stand to its credit. Pleasant to take, and free from any injurious ingredients. Of all Chemists and Stores.

Ask for and see that you get

Clarke's Blood Mixture

"Everybody's Blood Purifier."

Tired Eyes

If your eyes are tired and overworked; if they itch, ache, burn or smart, go to any druggist and get a bottle of Bon-Opto tablets. Drop one tablet in a fourth of a glass of water and use as directed to bathe the eyes. You will be surprised at the real relief and comfort Bon-Opto brings.

Note. Doctors say Bon-Opto strengthens eyesight 40 per cent in a week's time in many instances and druggists everywhere sell it under a positive money-back guarantee.

GAINED OVER 20 LBS

Consumptive Condition Restored to perfect Health.

"An attack of "flu" in the fall of 1918, left me in such a weakened condition that I could not walk across the kitchen, and for nearly two months I spit blood. My neighbours as well as myself thought I was in the first stages of consumption. My weight when I first took sick was 120 lbs., and I shrunk from that to 98 lbs. On the recommendation of my druggist I began to take Carnol. Before finishing the first bottle I felt a marked improvement. I then took four bottles and my improvement was so marvellous that, at the end of six months, I gained in weight—the most I ever weighed in my life. I can safely recommend Carnol to anyone in a run down condition, as being the best as well as the most palatable tonic on the market today. My little girl of eight years took a cold in the head and chest and was so bad she could scarcely breathe. I gave her Carnol in hot water and the next morning she was able to get out of bed for the first time in several days. I know Carnol will do for you what it did for me and my little girl worked miracles."

The experience of Mrs. F. of Halifax

Carnol is composed of that wonderful nerve tonic—glycerophosphate salts. This is commonly known the world over as the "Blood Salts." It is the best blood builder and nerve invigorator yet discovered.

Carnol is sold by your druggist and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money. 11-122

THE WONDER SALVE

(Registered)

"It's great stuff for piles. I had them bleeding, itching and protruding. The second application stopped the bleeding and I have had comfort ever since. No I'm not cured, but it's my own fault. I have felt so good I neglect myself. You can refer anyone to me."—A well known citizen's unsolicited testimony.
