Kincaid, Ont., Sept. 12th, 1910.  
"The effects of 'Fruit-a-tives' on Sleeplessness, Nervousness and Disordered condition of the Body, is simply marvellous. I have taken 'Fruit-a-tives' for three months—and am now perfectly well and have gained ten pounds in weight."  
I have found "Fruit-a-tives" is the one medicine that will purify the blood, quiet the nerves and restore the whole system to its natural condition.

**THE GUID WIFE'S MISTAKE**

**MR. VANDERBILT'S 12 CENTS**

Mr. Vanderbilt was notably exacting in his personal business relations of himself as well as of others. At a meeting of a certain railroad's board of directors of which he was a member it was found that several were absent. At a full board meeting each director received ten dollars, and it was the rule that if any were absent those present shared the total fee. That is, if but half the members were present each attending member would receive twenty dollars, and so proportionately. On the day of the meeting referred to the number of absentees made the division of the fee amount to certain odd dollars and twelve and a half cents. At the close of the meeting, as the secretary handed each member his check, he accepted the given number of dollars and passed up the twelve and a half cents to avoid the bother of making change. When the secretary came to Mr. Vanderbilt, however, he found him busily counting some small coin from a purse onto the table. "Can I change a dollar for you, and will take the twelve cents," said Mr. Vanderbilt; then smiled as he added, "but I cannot manage the half-cent." And the man worth more than a hundred million dollars had taken the trouble to change a dollar for the sake of twelve cents, which, together with the extra dollar, had come to him by the default of others. Had the proposed half-penny then been in circulation he probably had been "managed the half-cent."

**PATRON SAINT**

**Thousands in France to Journey to Little Chapel Marking Place of Deliverance From the Huns**

(Times Special Correspondence).  
Paris, Aug. 30. Thousands of little French girls who bear the name of Genieville are to make a pilgrimage on September 16 to the little well in Nanterre where the patron saint of Paris performed her cure, to pray in the tiny chapel which has been erected in the cellar where St. Genieville prayed so efficaciously for the deliverance of Paris from the Huns. In this cellar, more than 1,400 years ago, the 15-year-old girl saw the threatened attack upon her beloved Paris, won by much and matched her faith against the might of the terrible Attila.

**Noted Canadian Doctor**

**Graduate of Laval University, Quebec, P. Q. Endorses This Famous Treatment**

**"IT SIMPLY HAS NO EQUAL"**

In an open letter to the medical profession, Dr. J. F. Landry, relative of Senator Landry, of Quebec, says:  
"Minneapolis, Minn., Aug. 27, 1910. 'To the Medical Profession: I am quite familiar with the various liquor treatments, their therapeutic action and pathological results, and I wish to say from a purely professional standpoint that the Neal Three-Day Treatment for the liquor habit is superior to all others in its highly satisfactory action and desired permanent results. It simply has no equal and therefore should not be compared to any other known medication. Fraternally yours, (Signed) 'J. F. LANDRY, M. D.'"

When a noted physician, as Dr. Landry is, makes a thorough investigation of the Neal Treatment, endorses it and writes an open letter to the profession, all doubt as to the effectiveness of this treatment should be removed in the mind of every doctor, of whatever school, as to this treatment taking away all inclination to drink, all desire, craving and appetite for liquor, in three days, and converting the drinker who is lost to drink into a sober and respected citizen, to the joy of his relatives, friends and acquaintances. An internal treatment, without hypodermic injections, that requires only three days to complete the treatment, must appeal especially to every business and professional man and mechanic, and every other man whose time is valuable.

The St. John Neal Institute, 46 Crown St., Cor. King, affords the comforts of a refined home for its patients while under treatment. If you have a relative, friend or acquaintance who needs the Neal Treatment, call on, write, or phone Dr. J. F. Landry, Stevens, St. John, Manager, Phone 1085.

**Save Your Vim**

**By Wearing an O-P-C suspensory**

Men wear the O-P-C suspensory just to conserve vitality. It saves a ceaseless strain on the nervous force, which tires one more than work. It multiplies energy just by saving the waste. To men who walk much an O-P-C is essential. It is also important to men who don't. Men who prize their vim—who wish to keep at their best—are in these days wearing suspensories. Try one, and note the comfort and relief. Note how work becomes less wearisome. Note your better spirits.
