SAY UTILITIES BOARD HAS NOT JURISDICTION

Spokesman for Power Co. Heard on Street Railway Extension

POINT RAISED IS TO BE CONSIDERED

Up River Power Matters Come Before Board at Session Here

The jurisdiction of the New Brunswick Board of Public Utilities was questioned this morning by the solicitor for the New Brunswick Power Company when a petition by residents of Red Head for the carrying out of an agreement to extend the street railway to Lee's brickyard came up. The point will be decided by the Board at an early date.

The reports of the Hartland Electric Company, the Lakeville, Florenceville, Bristol, Bath, Centreville and Carleton Electric Companies were presented with requests from each that the rates applicable in 1924 be continued for the present.

The report of the Woodstock Electric Light and Power Company was before the Board and quite sharply criticized by S. H. Mildram, expert of the Board. This company submitted an inventory of $94,000 as the value of the plant.

RED HEAD PETITION.

The petition of the residents of Red Head for the extension of the street railway from its present terminus to Lee's Brick Yard was presented by W. A. Ross. It was signed by 57 persons and asked that the N. B. Power Company be ordered to carry out an agreement to extend this street car line, which work, it was said, was to have been completed within one year after the signing of the armistice.

COMPANY'S STAND.

H. H. McLean, Jr., for the New Brunswick Power Company, contended the Board had no jurisdiction as the Power Company Act of 1920 gave to the directors of the company the right to define the extent and character of the service and provided an appeal from their decision to the Utilities Board only in regard to the character of the service.

Mr. Ross contended that, as the Act of 1920 did not specifically repeal the act under which the railway was allowed to put its rails down in Simonds, that act still was in force and the board had jurisdiction. Consideration of the matter was promised.

ANDOVER AND PERTH.

The chairman notified M. L. Hayward that the board held that it possessed jurisdiction in the matter of the appeal of Charles W. Lewis for an order to compel the Andover and Perth Electric District to supply him with current as Sir Douglas Hazen in his judgment had ruled only that the board had no jurisdiction over cities and towns and this was neither a city or a town. He said the application would be taken up at the next meeting of the board on April 22.

Mr. Hayward, for the Hartland Electric Company, asked that the rates adopted last year be continued for the present. While the company had lost money last year they were hoping that next year would see a betterment.

Alderman M. W. White said he thought the multiplicity of companies was one reason for high rates and that if the rates were reduced in Hartland business would increase. He said the New Brunswick and Maine Electric Company were producing current for one-half cent per k.w.h. and the average price to the consumer was 7 cents, an increase of fourteen times.

Mr. Hayward also asked that the rates for Lakeville, Florenceville, Bristol, Bath and Centreville remain as they were for the present. He contended that no person was present in opposition to the application and the people of these districts were satisfied.

WOODSTOCK MATTER.

The report of the Woodstock Electric Light and Power Company was next taken up. It showed a loss of $6,031 for the year. A. G. Bailey, manager, was cross-examined by Mr. Mildram. The latter said the company had not filed with the Commission the detailed report required. Mr. Mildram also criticized the reported amount of lost current, 149,000 k.w.h. in total consumption of 670,000 k.w.h. The witness said the stand-by had not been used last winter because it was not ready when called on.

Charles H. Wright, manager of the Canadian General Electric, gave evidence that the loss was not large when it was considered that the plant was an old one. The inventory value of the plant, as made up by Wright, is $94,756.26.

The report of the Carleton Electric Company was taken up. E. R. Teed, secretary-treasurer of the company, said the year had been a fairly good one. The sales amounted to $32,875.29, and the cost of current was $22,722.27, leaving a gross profit of $10,153.02.

CHOIR ENTERTAINED.

Mrs. George Coles of Millidge avenue entertained the choir of St. Matthews' church, with their friends, at her home last evening in the form of a tea to raise money for church purposes. More than 25 attended. Delicious refreshments were served by Mrs. Coles, assisted by Mrs. Austin Galbraith and Miss Annie Aird. Games and music were enjoyed.

The splendid picture of the Admiral Beatty Hotel, painted by Frederick Daws, is now on view in the King street window of W. H. Thorne & Co. Ltd. This is the picture that later on will be sent around the United Hotels Company circuit to advertise the Saint John link.

As Hiram Sees It

I guess I didn't tell you how near I was to comin' home bareheaded. I was moseyin' round the Windsor Hotel in Montreal the day afore I left, an' after awhile when I wanted to go out I couldn't find my hat. I went all round an' couldn't see no sign of it. I hed all the bellboys an' porters tearin' round—an' after a long spell one of 'em found it. I left it in the writin' room an' somebody put it away in a safe place. Hanner says she wishes they'd kep' it — to learn me a lesson—an' I orto hev lost it anyway—fer it wasn't made in Noo Bruns-ick. Hanner's goin' strong on buyin' at home—an' she's comin' down to Saint John next week to tell some o' the folks that's been boostin' it to take their own medicine—an' not send their own orders to some other place. Hanner's a woman fer plain speakin' —an' when she gits het up over a thing she calls a spade a spade—Yes, sir."
