

ATLANTIC BIG LEAGUE GOSSIP BY CHRISTY MATHEWSON THE GIANTS' STAR PITCHER

was like putting a duck into water. He became the Athletics' first catcher. Still, many doubted whether Mack would trust the youngster in the world's series. "Connie won't take a chance on the kid," said the wise ones. "He'll work Thomas."

Most of us Giants thought the same, but "Connie" knew his man, for he has made a study of character. Schang went behind the bat and was one of the stars of the series. It was part of our plan of battle to run ourselves to death as the bases if Schang caught. We expected him to be nervous and not able to throw. On the contrary, he watched the bases like a veteran.

Australian Belt For Pal Brown

FROM T. S. ANDREWS

had such a surprise as your boy handed them here. Brown did a couple of public training stunts before the match and the Aussie folk and the wise ones summed him up as a joke. Certain bookies bet as high as 20 to 1 against him.

Another "Lucky Strike" Sale OF WINTER OVERCOATS

Starts tomorrow morning at 8.30

We conducted our last "Lucky Strike" Sale one year ago, and it proved to be the biggest Overcoat Event St. John has ever seen. We are going to make this Sale, LUCKY STRIKE, No. 2, far greater in every respect.

Our Buyer on his Annual Fall Trip to the Upper Canadian markets, was fortunate enough to get in touch with a large Clothing manufacturer, who had a great quantity of Overcoats on his hands, owing to the slump in business in the West. This manufacturer needed the money much more than the Overcoats, and offered them to us at only a small portion of their regular Factory Prices.

We want all of our Old Customers to take advantage of these Remarkable Bargains, but we are especially anxious to attract hundreds of New Customers to our Store on this record-breaking occasion; and one thing is sure, these Money-Saving Prices will do it. Every Sale will either make us a New Customer or draw an old one closer.

RECENT PUBLICATIONS OF GEOLOGICAL SURVEY

Memoir 29—Oil and gas prospects of the northwest provinces of Canada, by Wyatt Malcolm, 99 pp., 9 pls., 2 figs., 1 map (not yet published), 1913. This memoir is a compilation of information regarding the geology and the oil and gas prospects of the great plains region of Canada. As it is intended primarily for the use of those engaged in searching for oil or gas, stress is laid on the lithology and the thickness of the geological formations. The vast area has as yet been but little prospected, but heavy flows of gas have been struck at several places, more particularly at Bow Island, Medicine Hat, and Polson river. Logs of wells of different localities are given.

TO WHICH ATTENTION WAS DRAWN BY THE DISCOVERY THAT THE HIGH GRADE SILVER ORES OF COBALT WERE GENETICALLY RELATED TO THE FACCOLITHIC BODIES OF DIABASE.

Areas of diabase were closely prospected and silver ores were discovered in several localities, including the Gowganda district in the upper part of Montreal River drainage basin in the western part of Nipissing. The pre-Cambrian geology of the district is described and notes are given on the various mining properties and prospects. Map 68 A—Southeast Nova Scotia.
