# STREETS TO BE

### FIRST WORK OF THE PARKS COMMISSION

### Poles Will Be Removed and Neglected Areas Will Be Put in

The first step toward the beautification of the city by extensive boulevarding work has already been taken by the new board of parks commissionadopted a report from the boulevards' Linden avenue, from Belci committee recommending that work be committee recommending that work be commenced upon a number of streets as soon as the piveliminary by-law can as soon as the piveliminary by-law can are dand passed by the city.

Third street, from Humboldt street to Beacon Hill park, both sides.

Third street, from Bay street to avenue both sides. as soon as the preliminary by-law can be prepared and passed by the city council. The board intends to expedite the work and expects to have the first of the streets laid and planted by August. Stringent regulations will be made to ensure the protection of the boulevards, and the companies having electric light and telephone poles situated on the boulevards will be required to remove them immediately. The names of the streets which will receive attention at once are given in the lists printed below. Both lists have been turned over to the city engineer and assessor for a report, and will be placed in the form of a by-law as early as possible.

Many of the streets, the names of which are contained in the selection of the streets which will be placed in the form of a by-law as early as possible.

## A RICH HARVEST FROM THE MINES

(Continued from page 1.)

The production of coke on the coast s confined to one company, the Wellington Colliery Company, which made in 1906 only 9,842 tons, but took from its stock piles some 13,009 tons, making the coke sales 22,851 tons, of which mount 14.547 tons were sold locally and " Fruit-a-tives" strengthen the stomach and increase the Alaskan points. The local const tion of coke shows an increase of 9,137 tons, or 169 per cent. due to the active operations of the Vancouver Island pper smelters. The increase in the nount of coke exported is equally marked, being 4,004 tons, or 93 per cent., and is due to the constantly increasing copper smelting operations carried on

While these increases are very con siderable, they are not nearly as great as they would have been but for the hortage of labor at the various ieries, which were, therefore, quite able to satisfy the demand for tuel. A

eral neglect, are now in such a poor condition that the work will have to be done over again. The construction of the boulevards, apart from laying the park except upon the condition that they were held in leash guere of a labor dispute among the band had not been observed in conserved by a frontise text. It was pointed out that allowing dogs to have a free run of the park sent will be covered by a frontise to the park except upon the constituent of the park sent in the park, and for a fronting of the considerable trouble to children. The by-law containing the regulations, as whether are to be boulevarded have already been bassed upon by the council, but for several reasons. It was pointed out that allowing dogs to have a free run of the park sent will be covered by a fronting to the constituent of the park sent will be covered by a fronting to the constituent of the park sent will be covered by a fronting to the constituent of the park sent will be covered by a fronting to the park sent the park and for the park constituent of the park sent will be covered by a fronting to the park sent the park and for the park constituent of the park sent the park and for the park sent the park that the park and the park except upon the constituent of the park sent to the park the product of the single property of the park the park the park the park that the park t
