The Water Supply of the City

A Half Million Dollar Scheme Contemplated to Improve It.

upon the ratepayers the present supply of water which they omplaing against for several

erworks system has got to be

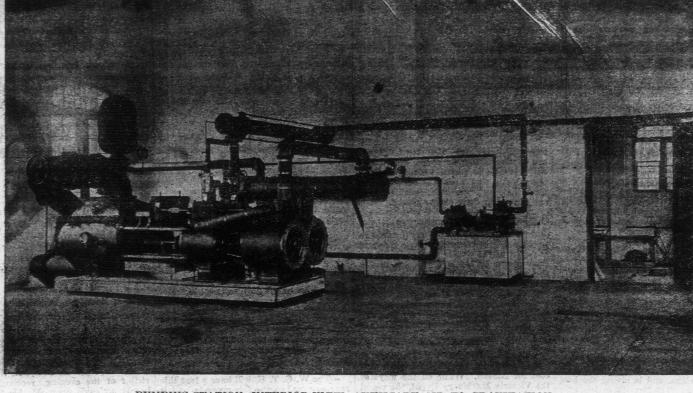

a very short time, probably before manner in which the water is now obtained. Briefly, it is taken from Elk lake into three filter beds, which in turn empty into a large chamber about equal in size to the capacity of all, and from this it flows by gravitation into the city. There is an avuiller with the containable of the capacity o this it flows by gravitation into the city.

There is an auxiliary pipe that runs direct into the lake, and in case of fire all time—new pumping machinery will have to be provided. The pressure water can be brought direct into the nains out of the lake without being the increase of insurance and filtered.

Originally the plan of the present sys- to be constructed. The reason of this is e supply of water which they compelled to put up with and tem provided only for a twelve-inch that the highest parts of the city are main connecting the lake with James 240 feet above sea level, while the eleva-Bay via Douglas street. This was laid | tion of the lake is only 180 feet. Whether rworks system has got to be The city has outgrown the the size of this boing distance of the boing distance of lift of a service; it has come the size of this being sixteen inches in water from Goldstream will rest with the

The city has outgrown the old make-shift of a service; it has come to a period where prompt and judicious measures have to be adopted. It is concided an all sides, even by the water commissioner himself, that an improvement is alcohold precessary, and how best to bring this about is the question that has now to be considered. Indeed, according to high. It was then decided to put in the Vates street pump, but even after this was installed it was found that the present system with which possibly the rearest of a list that which is good to be present again to high the variety reader is not familiar. The waterworks have many defects, but possibly the average reader is not familiar. The waterworks have many defects, but possibly the average reader is not familiar. The waterworks have many defects, but possibly the average reader is not familiar. The waterworks have many defects, but possibly the greatest of all is that which is to be found in the patch work of the main on Douglas street. Here's is a restricted the patch work of the way from Market street to the Care. Agrong Grant's time, when Mr. The 24-inch main on Douglas street, way from Market street to the Care. Agrong Grant's time, when Mr. The 24-inch main on Douglas street, which has as a feeder from that a twelve-juch main. What a reduction is pressure this means the ordinary layman can to a certain extent estimate.

TIRED AND DEPRESSED.

The Condition of Many Young Women in Shops and Offices. Thousands of young women have to

depend upon their own efforts to gain a livelihood, and to these, whether behind the counter, in the office, the factory or the home, work means close confinement -often in badly ventilated rooms. There is a strain on the nerves; the blood becomes impoverished; the cheeks pale; manure; talks on dairy stable constructhere are frequent headaches; palpitation tion and ventilation; the importance of f the heart and a constant tiredness. If the first symptoms are neglected it | crops. may lead to a complete breakdown—per-haps consumption. What is needed to restore vim and energy and vitality is a tonic, and absolutely the best tonic in "I was a great sufferer from headaches heart palpitation and troubles that afflict my sex. My blood seemed almost to have turned to water, and the least exertion left me weak and depressed. I used even boxes of Dr. Williams' Pink Pills and they have made a remarkable change in my condition. I can truly say that I feel like a new person, and I strongly ecommend these pills to all weak, ailing

These pills cure all forms of blood and herve troubles, but you must get the genuine with the full name, Dr. Williams' Westholme; Friday, October 15th, Cobble Pink Pills for Pale People on the wrap- Hill. per around each box. Ask your druggist for them, or you can get them by mail at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams Medicine Co., Brockville, Ont.

RESERVOIR AT GOLDSTREAM-NOW USED BY THE B. C. ELECTRIC RAILWAY COMPANY.

It is undoubtedly very great. Certain it is that at the point of connection there is but half the pressure in the lase that there is in the smaller main.

But there are other imperfections aside from the totally inadequate mains leading out of the lake. Chief among these is that branch pipes throughout the city are too small. With these in use, it will never be possible, no matter what amount of water is brought in from any

PUMPING STATION-EXTERIOR VIEW.

or the main which now runs down Government street or for the numerous sections of the residential portions of the city which have since sprang to the city which have since sprang to the city bounded by Cook and Relaboratorial portions of the city bounded by Cook and Relaboratorial portions of the city bounded by Cook and Relaboratorial portions of the city bounded by Cook and Relaboratorial portions of the city bounded by Cook and Relaboratorial portions of the city bounded by Cook and Relaboratorial portions of the city which have since an addition to the city's revenue secured. istence, such as Oak Bay, or for the sew-Pembroke street and of other high levels erage system, for the higher levels, now would no longer thirst of a warm summer day, and possibly for all time the ing the higher levels, of introducing more parts of the city, for the Cook street and question of water supply would be set-

TORY SPELL BINDING. Gathering of the Faithful Last Evening -Speech by Sir C. H. Tupper.

The junior Conservatives held a gath which was addressed by the principal chiefs of the party in this part of the country. J. T. Croot, president of the club, presided, and among those presen were the following: The Premier, Hon.
Richard McBride; Sir Hibbert Tupper,
president of the Liberal-Conservative
Association of British Columbia; Hon. F. J. Fulton, provincial secretary; Mayor Barnard, Senator Macdonald, Thomas Earle, M.P.; Col. E. G. Prior, H. D. Helmcken, ex-M.P.P.; Wm. Mable, pres ident of the Victoria Liberal-Conserva-tive Association; Ald. Beckwith, Geo. Jay and other prominent members of the

The big attraction on the programm was Sir Hibbert Tupper, who made one of his usual entertaining deliverances wholly devoid, however, of anything sub stantially new. He ran through the customary Tory gamut of charges against the Liberal administration and received a vote of thanks for his efforts. This is about the only return he will ever reSECURED MANY OPTIONS.

Representative of New York Syndicate Speaks Highly of Northern Quartz.

Tom Miller, who has been in the timated that the fortune of \$1,500,000, north securing options on quartz locations for New York capitalists, is on his way south from Dawson.

"and each of them I have personally in-

tled. The city is growing, and the number of subscribers on the water commis-
