

# MIRAMICHI ADVANCE.

VOL. 15—No. 22. CHATHAM NEW BRUNSWICK, MARCH 28, 1889. D. G. SMITH, EDITOR & PROPRIETOR. TERMS—\$1.50 a Year, in Advance.

**GENERAL NOTICE**  
The Miramichi Advance is published at Chatham, N. B., on Wednesdays, at 10 o'clock in the forenoon. It is published for the Proprietor by D. G. Smith, at No. 15, Water Street, Chatham, N. B. The price of the paper is \$1.50 per annum in advance. Single copies are sold at 5 cents. Advertisements are inserted under classified heads. The rate for one square of 10 lines for the first week is \$1.00. For each subsequent week \$0.75. For a month \$2.50. For three months \$7.00. For six months \$12.00. For a year \$20.00. Advertisements of other than the above kind, or of longer duration, are taken at the rate of \$1.00 per line for the first week, and \$0.75 for each subsequent week. The matter of the paper is not returned to the advertiser. The Proprietor is not responsible for the contents of advertisements. The Proprietor is not responsible for the contents of advertisements. The Proprietor is not responsible for the contents of advertisements.

**MARBLE WORKS**  
The Miramichi Marble Works, established in 1865, is the largest and best equipped of its kind in the Province. It is situated on the Miramichi River, and is supplied with the finest quality of marble. The works are under the management of Mr. J. W. Barr, who has spent many years in the study of the art of marble working. The works are equipped with the latest machinery, and are capable of executing all kinds of marble work, including monuments, tombs, and architectural ornaments. The works are open from 9 o'clock in the morning to 5 o'clock in the evening. The Proprietor is Mr. J. W. Barr, at No. 15, Water Street, Chatham, N. B.

**Miramichi Advance,**  
CHATHAM, N. B., MARCH 28, 1889.  
The Legislature.  
We were obliged last week to defer the publication of the carefully prepared statement of Hon. P. G. Ryan, Chief Commissioner of Public Works, which we make room for this week. Mr. Ryan said—  
"Another year in the political history of the province and the administration of the affairs of the department of public works during the past year is expected of me. I shall not attempt to weary you with a detailed statement of the every day events, the fears and hopes and anxieties, the entreaties, the solicitations, the constant vigilance on our part, coupled in the mind's eye with the long list of items of necessary expenditure, and the amount standing opposite to each; the fear of adding all up together lest, perhaps, the sum total might, before the end of the year, far exceed the comparatively small amount which had been appropriated for the fiscal revenue of the province towards the maintenance of different services which the department is expected to provide for, all of which make the position which I hold under the head of bridges, the sum of \$80,731 was paid out for bridges, \$8,121 was paid out for what is called special expenditure. Hon. members know what is meant by that. Details will be found in a separate report making the total amount expended on roads and bridges last year \$102,475. The expenditure on the legislative building and offices was \$5,702. That included the cost of fuel, the salaries of the janitor and an engineer, insurance and all repairs on the public offices. We effected a saving in the amount appropriated last year, but for this we cannot perhaps claim much credit as we over expended in another direction. The amount for the Normal School building was \$2,861. This also included the salary, fuel, expenses, repairs and the cost of keeping the grounds in order.  
The expenditure on the lunatic asylum was \$795; nearly all that sum was for insurance on building, the sum of \$110 only being charged for repairs, although work to a greater extent had been done for which no charge was made. It has been performed by the employees about the institution and by some of the inmates who, although not able to make their own way in the world, are capable of doing some of the work. The superintendent of the institution had seen the wisdom in every sense of utilizing to some extent the labor of certain of the inmates by which a considerable sum was saved to the province.  
The amount expended on government houses last year was \$1,778. That was something more than the sum appropriated for that purpose, but, as the fences around the grounds were worn out, we had to renew them. The roofs of the main and other buildings had been found in a very bad condition, and we had them pointed with an inexpensive composition, which will keep them in a good state of preservation for several years. I was not then aware of the arrangement of the government, I do not consider the amount expended upon them as a waste of money.  
As was stated by the provincial secretary there was an over expenditure of \$7,418. That was chiefly for work on roads and bridges. A small portion was because of the purchase of fire escapes for use at the lunatic asylum. We felt that if a fire occurred at that institution and other buildings had been found in a very bad condition, and we had them pointed with an inexpensive composition, which will keep them in a good state of preservation for several years. I was not then aware of the arrangement of the government, I do not consider the amount expended upon them as a waste of money.

As was stated by the provincial secretary there was an over expenditure of \$7,418. That was chiefly for work on roads and bridges. A small portion was because of the purchase of fire escapes for use at the lunatic asylum. We felt that if a fire occurred at that institution and other buildings had been found in a very bad condition, and we had them pointed with an inexpensive composition, which will keep them in a good state of preservation for several years. I was not then aware of the arrangement of the government, I do not consider the amount expended upon them as a waste of money.
