Mayor Hamilton had said at Dr. Magee, principal of the Parrs-boro schools, went to Cornwallis yes-terday to attend the funeral of his a previous meeting that Ald. Redden was the "head of a gang of boodlers, who had been in the council long enough." The meeting tonight was called to deal with this statement on mother, who died at Granville on Wednesday, aged 84. Fire did considerable damage in the new steam laundry yesterday, but perhaps an equal amount of injury was caused by the water used in

a resolution introduced by Ald. Red-den asking the mayor to specify his charges, or otherwise that the governcharges, or otherwise that the govern-ment be asked to appoint a commis-sion to investigate the charge. Mayor Hamilton explained that Ald. Redden had spoken impertinently, to him, and he had used the word "bood-

ler" hastily. As to the meaning of the word, he confessed he sould not ex-actily define it. The explanation was accepted, but Ald. Redden's resolution still stands on the order paper.

RIFLE SHOOTING IN THE ACTIVE Senator Sanford Lost His Life in MILITIA.

Editor Canadian Miltary Gazette: Sir-In your issue of June 6, just to hand, appears an article giving the personnel of the team that will repre-sent the Canadian militia at Bisley during the coming meeting. The team, which consists of 20 members (not including the commandant and adju-tant), I find is composed of 12 officers, 5 non-commissioned officers and 3 privates. This preponderance of com sioned officers on the team revives a feeling that I have had for a number of years (and which feeling I know is shared by hundreds of militiamen

race. In our race lies the hope of civilization. I believe that the desirable end of alliance is to be furthered by the effort of the individual to seek out and remove all causes of friction between us." (Cheers.)

COMPETING FOR BISLEY. The question of revising the rules for making up the Bisley team should receive the earnest consideration of the council of the Dominion Rifle Association. A team of 20, made up of 12 officers, some of whom are not even combatant officers, and three sergeants, cannot be considered satisfacory to the rank and file of the militia who would have to do the shooting in action. The council of the association would do much to encourage rifle ooting by restricting the number of officers on the team to, say, five, and excluding non-combatants altogether. The arrangement at present existing for pooling the winnings also needs revision. A percentage should be given the actual winner out of the prize before it is turned into the pool to be divided among the 20 composing the team. At present, the actual prize-winner reour "Tommy Atkins" encouraged to compete for these prizes? Is he helped the militia should have impete. What the militia should have is more rifle shooting under service corditions, and greater attention paid to young shots. There should also be some restriction as to the number of times a man may become a member of the team, Lieut, Ogg has been over ten times, Capt. Wilson five, Capt. Cartwright four, Major Ross and Lieut. Blair three. LUMBER SHIPMENTS.

throughout the Dominion), that it is about time a radical change was made in the conduct of the different rife associations, provincial and dominion. These ass clations are, we are led to believe, formed and fostered with the avowed purpose of encouraging and promoting efficient rifle shooting amongst the "rank and file" of the militia of Canada. With this object in view, large sums of money are annually voted by both provincial and dominion governments, and handsome prizes are donated by public spirited citizens. What are the results? Is by these competitions to become pro-ficient in using the weapon with which he is armed? Is our militia made more efficient? I say emphatically no! A glance at the list of prizemen at any association meeting will bear out any association meeting will bear out my statements; you will find "Major So-and-So," "Captain This," "Lieuten-ant That" and "Staff-Sergeant What's-isname" on every page, but very sel-dom "Private Tommy Atkins." dom "Private Tommy Atkins." This state of things has gone on for years, with the natural result that the "rank and file" are discouraged and disgust-ed. The annual meetings of provincial and dominion rifle associations, instead of being filed with eager and enthus-lastic towner distinguishing the state of the stat lastic young shots, men who are ex-pected to use the rifle when called upon to defend their country, are patronized year after year by the old familiar "pot hunters," and by officers who should not be entitled to the benefit of these meetings. The blame lies entirely with the councils of asso-ciations, and I would suggest for their erious consideration the following changes:

1. That no officer be allowed to con ete in matches with N. C. O. and men. 2. Encourage by every means pos-ible young and promising shots. 3. Have more matches under Ser-vice Conditions." 4. Encourage "revolver shooting" 5. Restrict Bisley team to N. C. O. The whole matter is a very serious one for the militia, and I trust that others may be induced to give their
