Covered With Flowers Sent by Women Admirers.

Piteous Pleadings of the Jailor's Wife Who Set the Brigands Free and Ean Away With Them.

PITTSBURG, Pa., Feb. 4.—On the caskets of the Biddles were sprigs of fern and white carnations sent for the purpose by some women whose identity is unknown. The flowers were sent to Undertaker Beinhauer with the request that they be placed on the easkets, and that it be known they were the gift of a woman.

The mob about the Belnhauer undertaking The mob about the Beinhauer undertaking establishment became so great that the doors were closed by the police on account of the crush. Thousands of people, mostly women, were unable to gain admission to view the bodies, and for several hours after the closing of the doors hundreds lingered about the place, hoping that the doors would be opened again. Many women carried flowers for the dead, which they left with the undertaker to be placed on the grave tomorrow.

the undertaker to be placed on the grave tomorrow.

BUTLER, Pa., Feb. 4.—Realizing that she has ruined her husband, Mrs. Soffel does not wish to bring further disgrace and humiliation upon him. She now desires a change of venue when she faces justice. In tears and with piteous pleading she made this request to Assistant District Attorney John S. Robb, jr., of Allegheny county in the hospital here today. She said she would go anywhere to have the punishment meted out to her for her wretched crime. She is willing to meet any fate the law may place upon her, but does not want the punishment administered in the court house across the street from her old home. She begged and pleaded with Mr. Robb for almost two hours or grant her this much. She begged in the name of her husband, who is Mr. Robb's friend, and told him that her husband was in no way to blame for her shameful conduct.

Mrs. Soffel told the attorney that she was

dust.

Mrs. Soffel told the attorney that she was, not a bad woman. She said that while she knew that she had been charged with a crime against the state, she had never sinned. She pleaded that her act was brought about through her sympathy for the Biddles and not her passion.

Mr. Robb told her he was a friend of her husband and would like to lighten the burden of his sorrow and disgrace, but could not make any definite promise to her at this time. Mr. Robb was with Mrs. Soffel for almost two hours. When she had finished her pleadings Mr. Robb spoke to her about her case, but she was reticent and disinclined to talk about her flight with the Biddles. While he questioned her with reference to the places where they took refuge Biddles. While he questioned her with reference to the places where they took refuge
in their flight she listened but refused to
make any reply that would incriminate
those who were connected with the plot.
She then told Mr. Robb that she would not
talk any more until she had consulted with an attorney.

Despatches from Butler report Mrs. Sofiel

Despatches from Butler report Mrs. Sofiel steadily improving.

The indictment against Mrs. Sofiel may not be acted on by the present grand jury. She has not yet been put under arrest formally and will not be until she is strong enough to be moved to Pittsburg jail.

There is much uncertainty as to when she will be brought to Pittsburg. She will not be moved from the Butler hospital as long as that would be in any way liable to endanger her life.

STORY FROM DIGBY

Of the Stranding of the Ora and the Glarence A. Shafner.

writing under date of the 4th of February, says: Particulars have reached here relative to the stranding of the brigantine Ora, and the schooner Clarence A. Shafner, in the big storm.

The Ora went ashore on the spot where the steamer Pilot, commonly called Condon's Point, was wrecked some years ago, and it is the only spot for a long distance where life or property could be saved, by extraordinary exertion.

The master, M. O'Hara, and crew, deserve great credit for saving their lives and what is left of the ship. To Wm. Ellis, keeper of the light, is due all praise for his timely help, getting the crew up the cliffs. In order to prevent the vessel rolling off, the spars were cut away. Tug Marina, Captain Charles Lewis, succeeded in getting the vessel off vesterday and docking her at Warne's wharf, where she lies a pitiable sight. Spars, yards, sails and rigging hanging alongside in wonderful confusion.

The Clarence A. Shafner was floated this morning, pulled off by the tus and brought over to Digby, where she is docked at Turnbull's wharf. This vessel went ashore at Lower Granville, in Annapolis Basin. Lanyards were cut away and the foremast partly cut through in order to relieve her, but she took bottom too soon for the

mast to go by the board. Surveys are called and will be held tomorrow, when an insurance underwriter will be here from Montreal.

There is good sleighing now, but although the storm was lengthy, not much snow fell, and no inconvenient drifts. There was a good deal of hail with the storm, which no doubt accounts for uniform fall of snow. The crews of the wrecked vessels spoke of the great quantity of hail during the storm and of the stinging nature of it I have been informed by Captain J Benson of Bear River that the velocity of the wind at 8 p. m. Sunday night was 75 miles.

In speaking of the brigtn. Ora, the master told me they had to take their bedding (after all other signals were exhausted) saturated it with paraffin oil, placed part fore and part aft of the vessel, and set it on fire. This brought help from the lighthouse. L. D. Shafner, owner of the Clar-

ence A. Shafner, is here in the interest of his vessel. Two of the crew of the Ora have ar-

rived in St. John. They are at the Seamen's Mission.

THE BIDDLES' CASKETS No Argument Needed

Every Sufferer From Catarrh Knows that Saives, Lotions, washes, Sprays and Douches Do Not Cure

Powders, lotions, salves, sprays and inhalers cannot really cure Catarrh, because this disease is a blood disease,

and local applications, if they accom plish anything at all, simply give

The catarrhal poison is in the blood and the mucous membrane of the nose, throat and the trachea tries to relieve the system by secreting large quantitles of mucous, the discharge sometimes closing up the nostrils, dropping into the throat, causing deafness by closing the Eustachian tubes, and af ter a time causing catarrh of stomacl or serious throat and lung troubles. A remedy to really cure catarrh must

be an internal remedy which will

cleanse the blood from catarrhal poison and remove the fever and coniestion from the mucous membrane. The best and most modern remedies for this purpose are antisecptis scientifically known as Eucalyptol, Guaiacol, Sanguinaria and Hydrastin, and while each of these have been successfully used separately, yet it has been difficult to get them all combined in one palatable, convenient and efficient

The manufacturers of the new catarrh cure. Stuart's Catarrh Tablets. have succeeded admirably in accomplishing this result. They are large, pleasant tasting lozenges, to be dissolved in the mouth, thus reaching every part of the mucous membrane of the throat and finally the stomach. Unlike many catarrh remedies, Stuart's Catarrh Tablets contain no cocaine, opiate or any injurious drug whatever and are equally beneficial

Mr. C. R. Rembrandt of Rochester, N. Y., says: "I know of few people who have suffered as much as I from Catarrh of the head, throat and stomach. I used sprays, inhalers and powders for months at a time with only slight relief, and had no hope of cure. I had not the means to make a change of climate, which seemed my

only chance of cure. -"Last spring I read an account of some remarkable cures made by Stuart's Catarrh Tablets and promptly bought a fifty cent hox from my druggist and obtained such positive benefit from that one package that I continued to use them daily until I now congusting annoyance of catarrh; my head is clear, my digestion all I could ask and my hearing, which had begun to fail as a result of the catarrh, has greatly improved until I feel I can hear as well as ever. They are a household necessity in my family." Stuart's Catarrh Tablets are sold by druggists at 50 cents for complete reatment and for convenience, safety

BOARD OF TRADE.

Members Strongly Favor Establishment of C. P. R. Car Works

Here.

At the regular meeting of the St. members present placed themselves strongly on record as in favor of the acquiring if possible by St. John of the new C. P. R. car and locomotive works, and of the city putting forth great effort to obtain the establishment of the industry. A resolution was also passed tending to restrict the grabbing propensities of the Bell Tele phone Company, and during the discus-sion of this question the service provided by the local company was con-

chair, and there were present: Alder-man Macrae, Geo. Robertson, M. P. P., T. S. Somerville, W. H. Thorne, W. F. Hatheway, D. J. McLaughlan, Thos. Dean, J. Hunter White, F. A. Dykeman, T. H. Estabrooks, John Seely, C. F. Kinmear, C. S. Philps, H. A. Austin A. C. Currie, O. H. Warwick.

Secretary Allison read the proces

President W. M. Jarvis was in the

ings of the Council during the month, stating among other things that Thos. Gorman, E. C. Elkin, George Robertson, H. A. Drury, F. A. Dykeman and W. H. Barnaby had been appointed additional members of the council. A petition had been sent by the direction of the council to the dominion government, asking that an appropriation may be made for the construction of a steam whistle or fog alarm at or near Negro Head, and also for the replacing of the Beacon and Beacon light in St. John harbor by a better and more modern structure. The council are advised by the marine department that these matters will be favorably considered. A petition was also sent to the government asking that the work of dredging the entrance to the harbor of St. John may be proceeded with without delay.

At the request of the council, the president had extended an invitation to the Canadian Manufacturers' Association to hold their next annual meeting in St. John, and the invitation had been supplemented by his worship the mayor on behalf of the city. A reply has been received that the matter will be decided at the February meeting of the Canadian Manufacturers' Association.

The common council had been requested to appoint a commission to inquire into the whole question of taxation in the city of St. John as provided for by Act 1 Edward VII. cap. 47. The council had received from the Halifax board of trade a copy of resolutions from the board regarding its proposed transfer of the management of the Intercolonial railway to the Canadian Pacific Railway Co. The receipt of this communcation had been acknowledged.

The privileges of the board room had beeen extended to the captains of ocean liners running to the port. A committee had been appointed to consider the question of standard time. The committee has taken the subject into consideration and has asked for further time to report.

of a port of refuge on the Nova Scotia coast between Digby and the head of the Bay of Fundy, suggested by the Middleton board of trade, had been referred to the committee on safeguards harbor and bay.

W. L. Waring was elected to membership in the board and the second reading of papers on file in the room was sold by auction. The president reported that he had written to Prof Davidson of the U. N. B. regarding his proposed visit with a number of students to some of the commercial establishments in St. John, and promised him every assistance. He had also written to President Shaughnessy of the C. P. R. regarding the location of the car works at St. John.

After some favorable discussion up the matter of the act soon to come before parliament to grant the Bell Telephone Co. certain rights regarding the placing of poles and wires throughout the dominion. He protested against such legislation, and moved that the council of the board be requested to make such representations as they thought best to the government against the company getting any rights in any municipality in the dominion without

the consent of that municipality. This was seconded by T. H. Estabrooks and passed. During the discussion and speaking in support of the motion, F. A. Dykeman characterized the local telephone service as abominable. He advocated the establishment in the city of a subscribers' telephone

Regarding the proposed car works, W. H. Thorne thought the only action the board could take would be to endorse the action of the mayor. He Montreal to be slight. If the city wished to offer inducements to the C. P. R. the only action it could take would be to lay out land and offer the company a free grant. He moved a resolution stating that: "This board is intact, will be discharged. has heard with much satisfaction of the course taken by the mayor in bringing to the notice of the president of the C. P. R. the suitableness of St. John as a site for their proposed works, and pledges itself to assist in the establishment of such by every means in its power.'

This was seconded by Geo. Robertson, M. P. P., and supported by T. H. Estabrooks, who also favored the sending of a delegation to Montreal to further the matter. This would help to advertise the city even if we couldn't get the works. Alderman Macrae, F. A. Dyke-

man, Geo. Robertson and W. Hatheway contributed to a possible sites on the west side or at Courtenay Bay and of the possible acreage required. The resolution passed unanimously. Meeting adjourn- having sustained much damage.

LONDON, Feb. 5.-The perennial deceased wife's sister bill reappeared in the house of from a wharf over there Sunday and

Do You See It?

Look carefully at this little picture. There's a great deal to it. There's a lamp, that makes the heat. Right over it is the vaporizer that holds the Vapo-Cresolene. This Cresolene is a wonder John Board of Trade last evening the ful medicine. It kills most kinds of disease germs, and is a most remarkable healing agent. You simply breathe-in the vapor of it, that's all; it goes all through your bronchial tubes, curing asthma, croup, coughs,

catarrh, whooping-cough. Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete, \$1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials are upon request, Vapo-CresoLene Co., 180 Falsan St., New York, U.S.A.

VALENTINES. By N. Y. Cross. A dainty form, a winsome face,
A sprightly step with subtle grace,
A wealth of ringlets crowning all
That keeps my heart in sweetest thrall,
And brings me happiness almost divineMy valentine.

A burly form, a sun-bronzed face, A soldier's step (more force than grace), A mass of curis—no crown at all, To keep her heart in love's sweet thrall, And yet she knows she holds this heart Her valentine.

A cozy room, with open fire,
Where flames, like love, leap high and
higher;
A question asked, an answer looked,
And then—but that shall not be booked—
We took (can you not read between the lines)
Our valentines.

THE BARK KELVERDALE.

VICTORIA, Feb. 4.—News has been received of the safety of the overdue British bark Kelverdale, which is 63 named: days out from Manila for Royal Roads. She was sighted on Saturday by the steamer Glenesk off Cape Flattery. The Kelverdale was reinsured at three per cent., her owners fearing for her on account of the typhoon which raged in eastern seas soon after the bark sailed from the Philippines in ballast.

The Kelverdale, which is one of Wm. Thomson & Oo's fleet was not overdue, nor was there any anxiety about

The Danger of Low Vitality.

Severe Colds. Pneumonia, Consumption, Find Easy Victims in Persons Whose Health is in Poor Condition -Dr. Chase's Nerve Food.

At no season of the year is a low condition of health more likely to lead to serious results than at the present time. With vitality running low, the blood thin and nerves exhausted, one is made susceptible to colds and catarrhs on the slightest exposure. Gradually a persitent cough, hawking and spitting, is established, and each severe cold is accompanied by chills, fever, pains in the chest, and sometimes spitting of blood.

This is the short and deadly road that leads to pneumonia, consumption and other being defeated by the casting vote of

There is no lesson which experience more strongly emphasizes than the importance of keeping the body well filled with healthgiving vitality. When a weakened, rundown system is attacked by pneumonia, consumption, or even a heavy cold, there is small chance of ever shaking it off. Dr. Chase's Nerve Food instills into the blood the most potent blood-forming and nerveinvigorating elements which cave ever been found in nature. You cannot possibly help but be benefited by this preparation, and even in long-standing cases of extreme debility and prostration there is good hope for recovery by the persistent use of this great food cure.

It is not wise to neglect the health at any time. Do not wait until you are completely exhausted and worn out before appreciation.

pletely exhausted and worn out before appealing to Dr. Chase's Nerve Food. Build pealing to Dr. Chase's Nerve Food. Build up the system while yet there is some foundation to build on. Put new, rich blood in the shrivelled arteries, new vital energy into the nerves, and add firm flesh and solid muscles to the body, in order that in the 'day of trial, when attacked by disease, there may be some chance for fighting the great foe to human happiness.

Should you find yourself suffering from a cough, bronchitis, asthma, or any similar

Should you find yourself suffering from a cough, bronchitis, asthma, or any similar trouble, we can recommend you to the Dr. Chase's Syrup of Linseed and Turpentine, believing it to be the most thoroug by effective treatment that you can possibly obtain. It has time and again propen its power over asthma, and affords the greatest relief even in the most serious cases of meanments and consumption.

est relief even in the most serious cases of pneumonia and consumption.

While Dr. Chase's Syrup of Linseed and Turpentine is aiding expectoration, clearing the choked-up air pasages, and healing and soothing the torn and ulcerated linings of the throat and bronchial tubes, do not lose sight of the value of Dr. Chase's Nerve Food as a means of restoring lost strength and vigor. It is a unique preparation of surprising effect as a blood and nerve restorative. Fifty cents a box, six boxes for \$2.50. At all dealers, or Edmanson, Bates & Co., Toronto.

ECHOES OF THE STORM.

Brigt. Ora, which was ashore near Digby, has been surveyed and condemned. The cargo of lumber, which

Sch. Clarence A. Shaffner, at Digby after having been on the rocks near there, will discharge her cargo of lumber. She will then probably go to Meteghan to repair. Her keel is gone, 14 planks on the starboard side broken and the foremast, which was cut almost through by the crew, will probably have to be taken out. Her rudder stock is split.

Sch. Gladstone, Capt. Williams, frem Sherbrooke, N. S., for New York, which stranded near Sandy Cove on the 23rd ult., has been discharged. Several attempts were made to float her, but without avail. She has been condemned and will be sold today. Fishing sch. Massachusetts, from Boston, parted cables at Liverpool, N. S., on Sunday, and grounded on

The old American schooner J. Ponder, jr., which was used at Liverpool, N. S., for lightering pulp, broke away commons in a form identical with that of crossed the harbor, coming in contact last year. WOODSTOCK.

First Meeting of the New Town Council.

Inaugural Address of Mayor Belyea. The Scott Act a Burning Question—To Bonus Manufacturing.

WOODSTOCK, Feb. 5.-The first neeting of the new town council was held this evening, and as it was known that several matters of interest would come up, there was quite a large attendance of ratepayers. The new board is made up of the following, all of whom served at the last board excepting the last named, who was elected unopposed to take the place of Coun. James Carr, resigned: Mayor Belyea, Couns. Dibblee, R. B. Jones, George Belmain, J. A. Lindsay, A. E.

Jones and H. E. Burtt. The mayor delivered his inaugural. He expressed his pleasure at seeing so many of the old board associated with him, and his thanks to the ratepayers on his unopposed election. He did not see that there was any service requiring any very heavy expenditure during the coming year. It would be well this year to aim at paying off the bank balance on which was paid annual interest of \$300. He spoke of the advisability of the sewers being more generally used. In many cases entrance was not effected where it hould be. He advised the appointnent of fire wardens and the improvement of the fire system. Respecting the electric light, he favored the adontion of the incandescent system, the resent system being out of date and inefficient.

The following committees were Finance-R. B. Jones, Belmain, Dib-
