All the men are Montrealers except E. W. Wilson, of New York, who has conducted the negotiations. It is reported that considerable money is shortly to be expended in developing the properties.

The correct figures in the vote on Cartwright's amendment on Wednesday were 71 yeas, 126 nays. There were three pairs. Deaths have caused two vacancies in the House, and nine members were absent. Calvin, the Conservative, voted with the opposition. All the other so-called tariff reformers among the Conservatives voted with the government. So did the independent Conservatives. Immediately afterwards, however, Messrs. O'Brien, Bryson, H. D. Gign and Davin, Conservatives, voted for McCarthy's motion in favor of free binder twine, for which all the Liberals present also voted. The motion was lost—78 to 49. The tariff will not come up again until Friday—if then. Mr. McCarthy is not likely to have many supporters in the conservative party when he makes his trade policy motion.

The Toronto Globe's London cable says the Imperial Federation League's proposal for summoning an Imperial conference to discuss the scheme for a council of Imperial defence and other matters will not be accepted by the government, although Gladstone is sure to give a sympathetic hearing to the league's deputation. At the 20th anniversary dinner of the Royal Colonial Institute, Lord Rosebery, while fully in accord with the league's aims, said emphatically that the present moment is inopportune for such a gathering. Sir Charles Tupper, who was present, responded to the toast "An United Empire" and agreed with this view. Referring to the French treaty he said the matter could not have been brought about without the hearty support of the Imperial authorities as joint negotiators.

A Toronto despatch says: A new steamboat syndicate has actually been formed. It is a joint stock company and will have a capital of one million dollars. Orders have been given for the construction of a modern line of steamers. It is safe to say that the steamships of the new line will be veritable floating palaces in every sense of the word. They are to be built in England and two others are to be constructed in Toronto. The termini of the line will be Toronto and Montreal, but the steamers will also run to or call at Cobourg, Kingston, Brockville, Ogdensburg, Sudbys Bay and other leading lake and river ports on the Canadian and American sides.

The prohibition question coming up for discussion in the Manitoba Legislature a motion presented by Attorney-General Sifton, asking that the Dominion Parliament be memorialized as to the passing of a prohibitory law, was passed by a vote of 28 yeas and 1 nay. The memorial, after pointing out that the vote taken at the last general election was overwhelmingly in favor of prohibition—eighteen thousand six hundred and thirty-seven voting for it and only seven thousand and one against it—states that the liquor traffic and its results are evils that entail upon the people of Manitoba an incalculable amount of loss and suffering and is productive of vice, disease and crime to a greater extent than any other cause. The memorial also states that the government of Manitoba agrees to supplement any effective liquor law parliament may pass.

More than five thousand persons attended the great Orange meeting at Belfast, Thursday. He had received letters from military and police officers in England and Ireland, and telegrams from Canada and Australia promising co-operation with the men of Ulster if the latter resorted to arms to defend the liberties against the tyranny of their historic foes. One hundred thousand Orangemen were ready to resist to the death the home rule bill. Wm. Johnston, M. P. for South Belfast, concluded a violent speech by swearing on the Bible that he would never submit to the laws of a Dublin parliament. Dr. Kane tore to pieces a copy of the home rule bill. In the evening effigies of Mr. Gladstone and Mr. Morley were burned in High Street in the presence of a cheering crowd of thousands.

"The Blood is the Life." Runs the old saying, and everything that ever makes part of any organ of the body must reach its place therein through the blood. Therefore, if the blood is purified and kept in good condition by the use of Hood's Sarsaparilla, it necessarily follows that the benefit of the medicine is imparted to every organ of the body. Can anything be simpler than the method by which this excellent medicine gives good health to all who will try it fairly and patiently?

A Nashville, Tenn., despatch of Feb. 27 says: Today in the criminal court, Harvey Weakly, on trial for murder, fell dead in the witness stand. When asked if he killed the victim, Weakly said he hoped God would strike him dead if he had. Hardly had he spoken when he fell to the floor.

The rumor that Dr. Talmage is about to retire from the Brooklyn Tabernacle is denied emphatically by the Doctor himself. He said he preferred Brooklyn to any other city for a place of residence and did not expect to leave it. The Tabernacle was threatened by a most serious exigency, but he hoped and believed to triumphantly overcome it.

Boston Herald: A Philadelphia humorist sent for a veterinary surgeon the other day to come to his residence to attend a horse that had been hurt. When the doctor called he was invited to walk back to the yard, and there he was shown a toy horse, one of the legs of which was broken off. The doctor examined the horse carefully and recommended a little glue and a wire splint, and then sent in his bill for \$5. The humorist is now unable to see where the joke comes in.

To Get at the Facts Regarding Hood's Sarsaparilla, ask the people who take this medicine, or read the testimonials often published in this paper. They will certainly convince you that Hood's Sarsaparilla possesses unequalled merit, and that Hood's cures.

She was very attractive, and by her winning ways and sweet singing reached all hearts, and many hopes were awakened for her future. After four days of suffering from scarlet fever, on Feb. 20 she passed from earth. God has called her to conceal, and the mystery must arise from the limited range of our vision. Her class of seven boys attended her funeral. All that loving friends could do to save her life was done. She intended coming home in the spring, but has gone to her heavenly home. THE CHRISTIAN MESSANGER. VOLUME LVI.

Vol. IX., No. 11.

By reference to our denominational news column, it will be seen that Mr. Camp has lately completed his year of pastoral labor at Hilldale Congregational Bro. Camp on the 1st of the year just closed, like its predecessors, has been one of prospering growth for the church. Our brethren and his people have great reason for thankfulness and rejoicing because the blessings which have crowned years of faithful ministry.

Four of the men whom Mr. Camp has chosen as his cabinet are college graduates. These are Herbert, Secretary of the Navy, a graduate of the University of Vermont; Bissell, Postmaster-General, a graduate of Yale; Mr. Olney, Attorney-General, a graduate of Brown; and Mr. Secretary of Agriculture, a graduate of Union. Only one man in the cabinet is not a lawyer. Mr. Lamont, Secretary of War, has that distinction.

In the nature of things the universities get the great gift of him that hath shall be given. We state the fact or the principle fault with them, but the remarkable growth by the current report of the year in to receive another addition to its endowments, five dollars, it is said, having been that institution in trust by George Kay, the sewing machine millionaire. Naturally, and not without wisdom will prefer to have the benefits associated with renowned and well established institutions, at the same time there is no doubt that some of the country poor, unknown and struggling are doing work which in character quality is not less valuable of the famous schools with its fields of operation.

A few months ago some of our readers, on the Rev. Dr. McArthur of New York, the work of Baptists in France, particularly in Paris. The mentioning the progress of the cause in France, says it is "most remarkable religious of the present time. Although many additions to the churches by baptism the cause is from another source. A portion of the most evangelized in other churches seems to point of coming over bodily to this rank. Revivalism and corruption of the church, and the formalism of the State churches, many of the most devoted France to the Bible, and many to the Baptist position of believers in Toulon a church of one hundred Switzerland, with its pastors the Baptists. Quite a number from the Free church come over and greatly strengthen the force of Baptist laborers. Even in priest-ridden Belgium Baptist church of fifteen members formed. Two hundred and twenty-two were baptized into the Baptist churches in Paris last outlook for the whole is encouraging."

We have received from Eaton, the clerk of the Halifax, a little book of containing a directory of a list of the officers and their addresses, and other interest, especially to the church for whose use it issued. This church is September 30, 1887, with less whose names were Lewis Johnston, M. D., Miss E. Tremain, J. V. Johnston, Miss S. Grantson. The present membership of the church is 283, of whom 230 are members. The directory gives pastors whom the church's organization to the their several periods of historical lists are also given church clerks and sundry intendents, as well as the present officers, standing, etc. A statement of the for general expenses purposes in 1892 amount to be \$4,584.90 \$11,000 on the house being reduced by \$1,000 duties of the deacons of defined under ten heads are occupied with "missions," important to "Rules for our Prayers" prepared by the pastor. The next is inserted. The of all members, reside
