Times Building Testify To

Smelling Gas Before The

Explosion Occurred.

Los Angeles, Oct. 31.-Witne

Los Angeles, Oct. 31.—Witnesses in the Times explosion case today testified before a coroner's jury that free gas was present in large volumes in the building on the night the explosion occurred. These witnesses, who were telegraph operators in the building testified that they had lost their positions with the Western Union Telegraph Company because of having made their statements. Simultaneously with this testimony witnesses before the special grand Jury, swore that no odor of gas was detected in the building.

The operators asserted that everybody in the telegraph room smelled gas and remarked about it.
Arthur Bell, & linotype operator, declared, however, that if gas in a quantity sufficient to cause an explosion had escaped, from a defective main, some type setting machines would have been put out of commission.
