RESULTS IN THE BIG LEAGUES

AMERICAN LEAGUE
Boston, 5; St. Louis, 2
At Boston: (First game)
Boston 20100000-5 11 3
St. Louis 11000000-2 9 8
Batteries—Foster, Bodent and Cady; Hamilton and Leary.
Boston, 6; St. Louis, 2
At Boston: (Second game)
Boston 01100010-3 5 9
St. Louis 01000010-2 7 4
Batteries—Shore and Cady; James and Leary.
Chicago, 9; Washington, 5
At Washington:
Chicago 11300004-9 12 4
Washington 10110000-5 8 4
Batteries—Paber, Clocie and Schalk; Engel, Ayres and Henry.
Philadelphia, 3; Cleveland, 0
At Philadelphia:
Cleveland 00000000-0 5 1
Philadelphia 10000010-3 5 9
Batteries—Norton, Collamore and Carls; Pennock and Schang.
New York, 3; Detroit, 1
At New York: (First game)
Detroit 01000000-1 5 2
New York 10000100-3 7 1
Batteries—Coveleskie and Stangor; Caldwell and Numanaker.
New York, 8; Detroit, 5
At New York: (Second game)
Detroit 30000011-5 15 2
New York 10007000-8 19 0
Batteries—Dubak, Cavet and McKee; Baker; Cole and Sweeney.

NATIONAL LEAGUE
St. Louis, 2; Brooklyn, 1
At St. Louis:
Brooklyn 10000000-1 5 1
St. Louis 20000000-2 2 2
Batteries—Allen, Regan and Miller; Deak and Numanaker.
Boston, 1; Pittsburgh, 0
At Pittsburgh, first game:
Boston 00000000-1 3 0
Pittsburgh 00000000-0 5 0
Batteries—James and Gowdy; Harmon and Coleman.
Pittsburgh, 2; Boston, 4
At Pittsburgh, second game:
Boston 02200000-4 7 2
Pittsburgh 00110000-8 9 9
Batteries—Crutcher, Davis and Whaling; Adams, Marnaux and Kufers.
New York, 4; Cincinnati, 1
At Cincinnati:
New York 12000000-4 11 1
Cincinnati 00010000-1 2 0
Batteries—Marquard and Meyers; Douglas, Lear and Erwin.
Chicago, 4; Philadelphia, 2
At Chicago:
Philadelphia 00001000-2 7 3
Chicago 00004000-1 5 0
Batteries—Alexander, Mayer and Killifer; Lavender and Bresnahan.

National League Standing
Won Lost P.C.

GRAND CIRCUIT RACING

Cleveland, Ohio, July 22.—In a special event this afternoon at the third day's Grand Circuit races at North Randall, Etawah III., owned by Frank G. Jones, of Memphis, Tenn., trotting a mile in 2:04, established a record for a four-year-old trotter of either sex. The old record, 2:05 1/4, was made in 1883 by Decatur, Geary drove Etawah, and was paced by a runner. In the morning Geary drove Anvil, another Jones horse, a mile in 2:02 3/4, the fastest mile trotted this season. Anvil also became the fastest record trotter in training.
Geary also drove Napoleon Direct to victory in the best race of the meet so far, the last event of the day. Six heats were required to pick the winner in the 2:12 pacing class. After Shadellna had captured the first, Napoleon took the second and third. Then Coastless Nobel came to the front, and won the next two heats. Napoleon Direct, however, outstripped Coastless Nobel in a thrilling brush down the stretch, and took the last heat and the race. The second event of the afternoon, the North Randall stake, for 2:30 class trotters, also furnished several surprises. Margaret Drunken, bm, favorite, captured the first two heats without much trouble. Sienna, who had run third and second respectively in the first two heats, came back strong, and captured the next three and the race. In the second heat, Geary drove The Guide in third, being the first time Geary had shown this season. Oakland won the first event for 2:09 class trotters in two straight heats.
Following is the summary:
2:09 Class Trotting—Purse \$1,000
Oakdale, gr.s, by Normandeur (McDonald) 1 1
Maymack, bm, (Dreyder) 2 2
Lady Grattan, chm, (Coo) 3 3
Willie, bh, (Marvin) 4 4
Brighton B. br, (Murphy) 5 6
M. L. J., bg, (Lutz) 6 5
New York, 1-4, 2:07 1/4.

2:12 Class—Purse \$1,200
Napoleon Direct, chb, by Peter The Great (Gerrity) 2 2 1 1 1
Margaret Drunken, bm, (Coo) 1 3 2 2
The Guide, bm, (Geary) 5 3 2 2 3
Rhythmell, blk, (Spanks) 2 4 5 4 4
Lena Rivers, blk, (Murphy) 4 5 4 4 4
Brook King, blk, (McCarthy) dis
Time—2:07 1/4, 2:08 1/4, 2:07 1/4, 2:08, 2:08 1/4.
2:12 Class—Purse \$1,200
Napoleon Direct, chb, by Peter The Great (Gerrity) 1 1 1 1 1
Walter Direct (Geary) 4 1 2 4 1
Coastless Nobel, bm (Ch) 2 4 1 2 2
Brook King, blk, (Owen) 1 2 4 3 2
Nellie Temple, bm (Murphy) 2 3 4 3 3
Wiley Custer, (Meyers) 3 3 4 3 3
Sidney Dillon, Jr, bh, (McDonald) 5 5
Time—2:07 1/4, 2:10 1/4, 2:07 1/4, 2:13 3/4.

ENGLAND'S TENNIS STARS WHO EXPECT TO LIFT THE DAVIS CUP

In J. C. Parke, T. M. Mavrogordato, Lieutenant A. R. F. Kingscote and Arthur Lowe, England is conceded to have one of the strongest tennis teams still in the running for the Davis Cup. They have played some of the best tennis seen on the other side in some time, and that is saying a great deal. Individually and collectively, they have proved strong in practically every department of play, and if they maintain their real form while striving for the international trophy the team that beats them will truly be a championship combination in all respects.
J. C. Parke has been one of the sensations of the year abroad. He has played masterfully almost every time he has started. Seldom a fault could be found in his playing. England's hopes are largely centered in him. If he can shoulder the major portion of the burden England's chances of ultimate victory are good.
At various times he has defeated Brooks, the world's champion; Wilding, formerly world's champion, and McLaughlin, admitted to be three of the greatest tennis players of the present time. Brooks is regarded by many as the greatest of all champions.

FROM THE TRAINER'S CORNER

A Column of Comment on Sporting and Athletic Men and Events. Physical Culture, Exercise, Health Measures, and Body Building. (By Mac Leary of Babylon).
"GRUB."
Far from being guilty of over-feeding, as some would have us believe, the majority of modern city dwellers don't get enough to eat. This statement doesn't apply alone to the "army of the unemployed," nor to poor shop girls and clerks and manual laborers.
I can take you to the offices and homes of the well-to-do and the wealthy and show you people who are starving to death. Yes, sir, starving to death!
Of course, a husky, healthy, hearty man, whose work or pleasure permits much exercise in the open, is likely to develop an appetite that needs restraint, but you don't find many of that sort in the cities these days.
Why is the "tired business man" tired? Briefly, because of imperfect combustion of fuel—his food is not perfectly assimilated, and this fills the system with poisons which carry the germs of lassitude and other more serious ailments, and lead in time to the deterioration of body and brain. And physical exercise is essential to the digestion of food. Of course, there is now and then a man whose digestive apparatus is akin to that of a William Tell, or an ostrich, and who can eat anything, drink everything, and still survive to a ripe old age. They are but the exceptions that prove the rule. A man cannot live by brain exercise alone. For the great majority, physical exercise is a life essential.
The average city man, whose employment is sedentary and mental more than manual, is anemic or "pale-blooded." Nearly all physicians are agreed that good, nutritious food is the best medicine for his condition. Yet the average city man is as so neurotic, and this condition is aggravated, if not caused, by the failure to digest food, which decomposes in the intestines and fills the system with poisons. Such being the case, less food would seem to be indicated.
The remedy is exercise, and lots of it, in the open air. Given the right sort of physical exercise, under proper conditions, and enough of it, and any man or woman not suffering from a chronic disease may develop a set of "innards" that will "digest nails." It is not how much fuel is put into the human engine, but how much is consumed, that counts. The "clinkers" cause the trouble. After many years experience in exercising and feeding run-down people, I have found that the food requirements of individuals vary as widely as the sizes of their shoes. The first rule of dietetics seems to be that there isn't any. For the man who won't exercise, however, it is perhaps better to eat less than more, since it is pleasant to die of starvation than from the lingering disease incident to auto-intoxication. We must eat to exercise, and exercise to eat.
Efficiency is the watchword of modern business. Efficiency methods have been applied to all the multitudinous details of America's vast commercial, industrial and financial activities. Yet few business men practice efficiency methods in caring for their bodily mechanisms. Hard workers as they are, they do not get the most out of themselves, and consequently cannot give their best to their business. The factory owner demands that his machinery be kept in the best of condition, and overlooks the fact that his own body is a machine and needs careful attention. In his factory he uses fuel that will produce the most power at the least cost, but he fills his own bodily mechanism with "clinkers" that "clog the works" and vastly reduce the efficiency of the brain.
When the exhausted brain cells rebel, he seeks recreation in vicarious amusements, attending dramatic performances or a ball game when he might be much better engaged in chopping wood or tramping through the country-side or chasing an elusive golf ball or taking a course of scientific exercise in a gymnasium.
The hurried, quick-lunch habit of eating is a dietetic sin of most business men, and they would make a distinct gain in health, and therefore in money, if they consumed their food in a more leisurely manner, and devoted half an hour or more to rest after eating, in order that the digestive processes may set a good start before the blood is withdrawn to the brain.
As to what to eat, I don't know of anything better than just food on which to feed people—plain, nourishing, pure, wholesome "grub."
I don't believe in predigesting pitte for pale people. Beef, bread, vegetables, fruit, fish, nutmeg, in good condition and well cooked, with plenty of cream and butter, make a regimen fit for a king—for a king who wants to be "fit" anyway.
So far as my experience goes, fasts are not in it, as curative agencies, with good food and plenty of it, good exercise and plenty of it, and lots of fresh air and sunshine.
Of course, there are people who need a restricted diet, and others with diseases that require a special diet prescribed by a physician, but they are few compared with the many who are slowly but surely starving to death. When an individual lives a fairly natural, well-rounded life, with sufficient physical exercise and fresh air, and a question of what to eat and how much to eat can pretty safely be left to the appetite, except in the case of those born with the gluttonous instincts of pigs.

EAST END LEAGUE RESULTS

The Nationals won from the Alerts in the East End League series last evening by a score of four to three. The game went five interesting innings and the Nationals won out in the last inning. The official score and summary follows:
Nationals
AB R H PO A E
Calahan, c.f. 3 0 0 1 0 0
Smith, s.a. 2 1 0 0 0 0
Sprout, c. 3 0 2 8 1 1

CANADIAN OLYMPIC CHANCES

London, July 23.—James H. Merrick, Canadian delegate to the Olympic Congress at Paris, calls by the Alouais for Montreal today. Discussing Canadian chances in the Olympic games the Montreal Gazette representative yesterday, Mr. Merrick expressed the opinion that the Canadians' best chances were in the field and track events, especially the former.
George Goulding's walking should credit the Canadian team with many points in swimming, not only should the games and team competitions should afford opportunities for the Canadians to distinguish themselves.
There was an excellent chance for the Canadians in some of the rowing events; for instance, the double skiff and the four without coxswains. The Canadians should also excel in trap, rifle and revolver shooting, provided the Dominion Rifle Association give the games the consideration they deserved.
Canada's chances were poor in tennis, fencing and the equestrian events, but good in cycling and yachting. The yacht measurements which have been greatly reduced through English, Canadian and Swedish representations will give the Canadians an opportunity to build and transport their own yachts. Previously yachting has been practically closed to all countries except those adjacent to the nation holding the games. The two classes of yachts which will suit Canadians best are those for six and eight metres with crew of three and five men respectively.
Canadian boxers and wrestlers should also score. The catch-as-catch-can wrestling events are eminently attractive to Canadians.
Mr. Merrick expressed his satisfaction that Britain and Canada has adhered to the majority favoring the admission of women to certain classes of sport for instance, golf, swimming and tennis, though France and the United States were opposed to the innovation.

BROCKTON PLAYS BALL HERE TODAY

The Brockton Blues will be the attraction this afternoon on the North End grounds when they play the Greenwoods. On Friday the Alerts will be the visitors opponents, and an all-star team will play Brockton on Saturday. The local line up for today is as follows:
Catcher: Thompson and Robinson; pitchers: Callaghan, first; McNulty second; O'Regan, third; Gillespie, short; Brown, Costello and Arsenault, outfielders. James McAllister will umpire. Woodbury, a former Marathon player will pitch today for Brockton.
Mr. Merrick expressed his satisfaction that Britain and Canada has adhered to the majority favoring the admission of women to certain classes of sport for instance, golf, swimming and tennis, though France and the United States were opposed to the innovation.

Five Roses Flour

This is the feather-weight loaf of snow-like purity, golden-domed and lofty, porous, satin crumb—of course you use FIVE ROSES. LARGEST OF THE WOODS MILLING CO. LIMITED, PORTLAND, CANADA.

A DOUBLE HEADER AT WOODSTOCK
Woodstock, N.B., July 22.—Two very interesting ball games were played this afternoon and evening between Mars Hill and Woodstock, the former winning the first game five to two, and the second was a tie.
Perkins pitched the afternoon game for the visitors and was very effective. For the home team, Fisher twirled stoutly and on the whole had good support. The back-stopping was done by York and Faulkner, both playing faultlessly. Rogers was the pitcher for the visitors in the evening game, and Clark of Woodstock pitched his usual good game. Dr. Martell umpired both games and gave general satisfaction.
Score by Innings:
Afternoon Game
Mars Hill 1001021-5
Woodstock 0200000-2
Batteries—Perkins and York; Fisher and Faulkner.
Evening Game
Score by Innings:
Mars Hill 00010-1
Woodstock 01000-1
Batteries—Rogers and York; Clark and Faulkner.
