a case of that kind, when there is not A European letter cautions American ineven the shadow of a doubt of the guilt ventors to acquaint themselves thoroughly of the accused, not a pretence of his with the patent laws of Austria before being insane, nor an imaginary justifi-cation, how hopeless must be the feel-ing with which the present is the feelcolumn is colored considerably in the interest of the murderer. The testi-mony showed that he had been leading a highly impored life and left no doubt O'Neil and Mrs. King consisted in the testimony of two servants, and there was much contradictory testimony, in cluding that of O'Neil's wife, who would not be likely to be blind to any departure of her husband's from the path of mari-tal constancy. The manner in which The clause of the injuries. The Canal Survey between Moneton and Shediac commenced on Menday morning last. It will proceed under the direction of Mr. Stark, C. E., who has in his staff Mr. James Dickey and Mr. Joseph S Delaney. The clause of the building next to it on the north-erly side. The latter has been completely levelled and Palmer & Bachelders' wall has bediace orometed under the direction of Mr. Stark, C. E., who has in his staff Delaney. The clause of the building next to it on the north-erly side. The latter has been completely levelled and Palmer & Bachelders' wall has bediace orowds of people of both sexes, who had not before been granted an oppor-tunity of obtaining a near view of the ruins

tal constancy. The manner in which the murderer was dressed for the occar-sion convinced many that he had pre-meditated the deed, and the cowardly manner in which he carried out his murderous designs makes the act one of the most dastardly on record. It is no wonder that a New York

we shall conclude to stop and return to o'd-fashioned notions about the criminal law?" That is just what is wanted, a return to old-fashioned notions about the substance of the stop and return to business and present wishes. Cheerful individuals about Bangor make times lively by applying the incendiary torch to the well filled barns in the vicini-the substance of the stop and towering pile of gran-ing with an unbroken exterior, has attract-ing with an unbroken exterior, has attract-ed considerable attention, was attacked by

Among the Boston Ruins.

[From yesterduy's Boston Herald.] The line of the military guard surrounding the burnt district was so far drawn in ing with which the prosecuting attorneys Pere Hyacinthe, in a letter to M. Louis yesterday as to allow free passage through attempt to get the swell murderers who Veuillot says that he shall go on celebratplead justification punished. The account of the murder in another priests did in early times, and as the East The only remaining side, Washington st.,

mony showed that he had been leading a highly immoral life, and left no doubt of his having treated his wife harshly. The proof of improper intimacy between

of the most dastardiy on record. It is no wonder that a New York journal says: "The road we are rapidly travelling leads straight to the dissolu-tion of the foundations of society. How many more mon must be shot down in our streets and in broad daylight before results, and full statements as to their former business and present wiches. a definitioned notions about a wanted, a return to old-fashioned notions about the criminal law. They may seem rude and harsh to the cultivated sentimentallity and morbid philanthropy of the day, but they are essential to the well being of society.
The Boston calamity was predicted have perished were pointed out as good subjects for a great fire, even while Boston was gazing up to them with pride. Wooden roofs and cornices, and elevators, unprotected sky-lights are well known to render the saving of any building, after it once gets on fire, impossible; and yet "fire-proof" building the size and belong to respectable families.
Avioes from St. Louis, Mo., state that is a count for the purpose of the days the county for the purpose of the brown so render the saving of any building, after it once gets on fire, impossible; and yet "fire-proof" building the avail to be availed and belong to respectable families.

are then covered with a peculiar prepara-tion and a galvanic bath nicely governed, does the work of an engraver, but does it as no engraver could possibly do it—true to a hair, and finer, if necessary, than the printed in its turn on the paper; and every impression must be so adjusted to its pre-decessors that there shall not be the slightest variation.

decessors that there shall not be the slightest variation. In The Aldine establishment may be seen two immense Cottrell & Babcock printing machines, selected for their accuracy of register and perfect distribution. These presses are constantly occupied in printing the Chromos to be given as premiums to subscribers to The Aldine tor 1873. The well-known artistic standing of The Aldine was a guarantee that its Premium Chromos would be everything that the most fastidi-ous could desire; and the specimens of "The Village Bell" and "Crossing the Moor," now before us, fally justify every expectation. The superior facilities of the publishers enable them to deliver a large edition of these Chromos to subscribers im-
