

22400

I do hereby certify that the bearer
John Lucresius (Beardfoot) a Chief
of the Onondago Nation of Indians
was Wounded at the Battle of Lundy's
13th October 1812. whereby the Vertebrae
of the Back were injured; he was also
wounded in the face at the same time.

But declined applying for a Pension
as he was in hopes, he would perfectly
recover. Finding himself lame
from the Wound in the back, he
applied to me; and as there had been
made, a new act, ^{made} relating to Persons
Wounded During the War; and a
Board appointed; I referred him
to that Board; But as the Act
does not provide for Wounded
Indians, the Board at York could
do nothing for him; he applied
to me again. —
