two.

It is to your interest and my interest and Quebec's interest that he should place both feet in Quebec because Quebec is today and has been a very anchor .e.g. note Montreal's attitude during the Winnipeg strike to the Dominion of Canada .

What is required today is loyalty toward the leader of the Conservative Party . I beg your pardon for writing so long a letter . I would like to review some of the personal self interest of those who would like this country to spend enormous sums of money at the present time on a Navy and Militia, but space will not permit .

My very kindest regards to you
