

When any other vowel is doubled, as āā, aa, ee, the usual sound of those letters is prolonged.

(All the vowels are sounded, and given full value; the doubled vowels introduced by Dr. Rand to denote single sounds indicate a common Indian usage of prolonging the vowel sounds into something approaching a drawl, certainly much longer than in English. A).

Accent.

The usual place for the accent in Micmac is on the penult. When it falls on any other syllable it is marked ('). But a prolonged vowel (aa, āā, ee, ̄o or oo') always takes the accent.E.
