

Duck Mountain, Riding Mountain, and Norway House, so doubtless it is generally distributed throughout the Province wherever there is cover. An abundant summer resident.

151. **Least Flycatcher.** *Empidonax minimus*. Very abundant summer in all wooded localities. Arrives May 20; departs late in September.
152. **Prairie Horned Lark.** *Otocoris alpestris praticola*. Abundant, breeding in all the prairie regions. Resident, excepting during December, January, and February. Breeds twice each season.
- 152a. **Shore Lark.** *Otocoris alpestris*. Fall migrant. Taken at Carberry and Kenora.
153. **American Magpie.** *Pica hudsonia*. Irregular, rare resident. Found west of Fort Ellice, and occasionally along the Upper Assiniboine. A single specimen reported from Brandon.
154. **Blue Jay.** *Cyanocitta cristata*. Common summer resident of woodlands throughout the Province. Arrives early in April; departs late in November. May be resident in southern localities.
155. **Canada Jay, Whiskey-jack.** *Wis-ka-tjan*, *Perisoreus canadensis*. Abundant resident throughout the wooded region. The common name of this bird is a corruption of the Indian Wis-ka-tjan. This last name should not be lost sight of.
156. **American Raven.** *Corvus corax principalis*. Winter visitant in all the Alleghanian region. Said to be resident, and of course breeding, in the Canadian regions to the north; not common anywhere.
157. **American Crow.** *Corvus brachyrhynchos*. Summer resident throughout the Province. Abundant in the Alleghanian region: scarce in the Canadian.
