

Rock Breakers and Ore Crushers

"THE BLAKE STYLE."

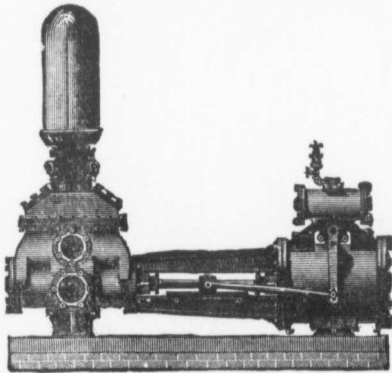

This Style of Rock Breaker, after 20 years' practical test, has proved to be the best ever designed for the purpose of breaking

Quartz, Emery, Gold and Silver Ores, and all Hard or Brittle Substances; also for making Railroad Ballast and Concrete. Our Adjustable Toggle Block enables us to adjust the Machine while in motion to the size of any stone or particular product. There are other improvements possessed by these Machines not equalled by any other in the world. Gold Medal awarded at the Massachusetts Mechanics' Association 1881, and Silver Medal (Special) at American Institute, N. Y., 1882.
