MARKET REVIEW AND FORECAST

Toronto, Monday, Oct. 14.—The most serious report that has reached us during the last week is the prevalence of potato rot. In some sections as much as one-third to one-half of the crop is reported rotten and there are few sections where the blight will not have caused more or less rot. If this serious condition of the potato crop is found to be general, we may look for a repetition of last winter's high prices. Other branches of farm produce continue steady in price. An advance in eggs and butter is expected soon. Dressed poultry are down, due to the unusually large quantities being marketed.

WHEAT Manitoba wheat is strong on local market. There is very little to be had for immediate delivery in Ontario. Quotations are the same as last week in this

West the new crop is already on its way to market, and quotations have declined since No. 2, 96c; feed wheat, 67c. There is very little fall wheat being delivered and quotations are firm at 95c for good grades and 75c for inferior.

COARSE GRAINS The most noticeable change in quotations this week has been the decline of 5c on buckwheat. Owing to the cold late spring an unusually large area was seeded to this crop and decreased quotations are inevitable. Corn also is down as the new crop starts to come on the market. Dealers quote as follows: Buckwheat, 55c; barley, 65c; No. 3, 65c; oats, C-W, No. 2, 65c; Ontario No. 2, 55c to 57c; corn, 72 to 74 1/2c; peas, 90c and rye 72c to 73c.

Quotations at Montreal are as follows: Corn, 72 to 73c; oats, C-W, No. 2, 54 1/2c to 55c; extra No. 1 feed, 55c; No. 1 feed, 51 1/2c to 53c; local, 50c to 52c; peas, 87 1/2c; barley, including 72c to 80c; feed, 61c to 62c; buckwheat, 74c to 75c and rye, 72c to 73c.

MILK STUFFS There is no change in milk feeds. Local quotations are: Manitoba bran, 82 to 83 a ton; shorts, 82 to 83 a ton in bags, Toronto; Ontario bran, 82 to 83; Ontario shorts, 82 to 83 a ton in bags. At Montreal the market is active and bran is quoted at 82 1/2, shorts, 87 to 90 in bags.

HIDES AND WOOL Quotations for hides are as follows on country markets: Cured, 15c to 14c; green, 12c to 13c; horse hides, 85 to 90c; horse hair, 10c to 11c. Quotations for wool are: No. 1, 14c; No. 2, 13c; No. 3, 12c; oil skin, 12c.

POULTRY AND EGGS This week has seen a slight increase in the fall quotations on eggs. Quotations are now only one cent higher than last week, but receipts are steadily decreasing and further sales are not expected this week. Wholesale dealers quote fresh eggs at 25c to 27c and new laid, 25c in case lots. Dealers at Montreal quote 21c to 23c, according to quality.

Quotations on dressed poultry are weaker. Too much of the poultry is marketed at one time. Farmers just now seem to be cleaning off their surplus stock before winter sets in, and they must take a lower price as the price in the open market. We are not for the large amounts that will be held in cold storage, prices would be even lower than they are. Quotations: Live chickens, 12c to 12c; fowl, 8c to 9c; ducks, 9c to 10c; turkeys, 15c; dressed poultry, 2c to 3c per lb. POTATOES AND BEANS No quotations on potatoes are firm at the prices noted last week. Dealers are looking for more liberal supplies and lower prices but if not as prevalent as we now believe high prices may continue. Wholesalers are offering 50c a bag in car lots. The price out of store is 8c. On the retail market potatoes are 7c to 8c a bush. Beans are quoted at 83 for primes and 83.10 for hand picked.

DAIRY PRODUCE What will be the price of butter this coming winter? If the demand from the West continues good, we may expect prices on over a higher level than in winter. There has been some talk of importations from the United States as the butter market in Canada is not so steady. We do not expect this to materialize. Values there at present are on practically the same level as in Canada. Quotations are: Dairy prints, 25c to 26c; creamery, 25c to 26c; creamery solids, 27c to 28c; bakers' butter, 25c to 26c. The

MUST BE SOLD 20 Sheep and 12 Lambs, also one two-year-old Ram bought last year to serve said flock. PURE BREED COTSWOLDS Name over three years-old, white, CHS. I. ZEHNER, R.R., No. 5, TAVISTOCK, Ont. Director of Jas. I. Zehr Estate.

Jerseys Have Been Proved Best Buy a good Jersey and you don't have to experiment. There is no speculating as to her performances. There is no doubt but that she eats less and gives better milk, richer in butter fat, than the milk of any other breed. All of the experimenting has been done already. Jersey history is made up of facts—not theories. Whether you use milk or butter, or both, you get a higher percentage of profit out of Jerseys than you can get out of any other breed for the same feeding cost. Look into the matter. The more you investigate, the more Jerseys you'll buy. Booklet of facts on request. CANADIAN JERSEY CATTLE CLUB. R. REID, Secy., Berlin, Ont.

CAMPBELLTOWN Headed by KORNDYK. This is the greatest young Pointe d'Inde. Record of 10c of milk in 30 days an average of 10c per day. Hengford, Ormsby, and other cows also have good backing. R. J. KELLY, - TROY, ONT.

The Systematic Use of CALWELL'S MOLASSES MEAL

Means prime conditioned stock at less cost than your present feeding

Get that fact. Caldwell's Molasses Meal does not add to your feeding costs. It's a distinct economy. Use it according to directions. Your horses will look better, work better and live longer. Cows will keep up in flesh and give more milk. Sheep will thrive, lambs come earlier to maturity, and your hogs show you an increased profit.

N.B.—You can buy Caldwell's Molasses Meal either direct from the factory or from your feed store. Clip out Coupon, mail to us, and we will send you full particulars.

The Caldwell Feed Co., Ltd. Dundas, Ont.

Form for Caldwell's Molasses Meal coupon, including fields for Name, Post Office, and Province, and a section for "Farm and Dairy" with a note to please send no booklet and full particulars as to cost, etc., of Molasses Meal.
