POINTS TO BE CONSIDERED:

The only gasoline engine to have is one that is properly designed so as to be economical on gasoline and give more power.

It must be easy to start and not require much attention when operating.

It must be so constructed that it will run 24 hours per day if you want it to.

It must have strength and weight where needed, and not like some of the flimsy, cheaply-made engines, which are daily being offered to farmers.

Fairbanks-Morse are the largest manufacturers of Gasoline Engines in the world. There are to-day over 80,000 Fairbanks-Morse Engines in operation.

This means over 80,000 satisfied customers.

We have been making Gasoline Engines for over a quarter of a century. You can, therefore, see that when you buy a Fairbanks-Morse Gasoline engine you are getting the result of experience, and not, as in the case of some unscrupulous manufacturers, experiments at your expense.

Fairbanks-Morse are the simplest, safest, most reliable and economical Engines made to-day. We know this is a strong statement, but can prove every word of it.

Every Fairbanks-Morse Engine is thoroughly tested before being shipped out, and is sold under positive guarantee to develop more than its rated horse-power, and our guarantee holds good for one year.

This cut shows our One-H.P. Jack Junior Engine. Not an air-cooled toy, which is forever giving trouble, but a simple, practical, durable, water-cooled engine, that can be relied upon at all times. Just the thing for pumping water, running separators, churning, washing machine, ice cream freezer, or any other such purposes.

The Favorite and the Best Value for
the Money of Them All is

TOLTON'S

NO. 1 DOUBLE ROOT CUTTER

POINTS OF MERIT:

1. To change from pulping to slicing is but the work of a moment.
2. There are two separate wheels, one for pulping and the other for slicing.
3. The united force of both wheels is always used in doing the work in either capacity.
4. The hopper is between the wheels and does not choke.

THE ONLY DOUBLE ROOT CUTTER MANUFACTURED. Fitted with Roller Bearings, Steel Shafting, and all that is latest and best in principle, material and construction. SEND FOR DESCRIPTIVE CIRCULAR AND PRICES.
