Charles Currie, Morriston, Ont., breeder of Tamworth swine, has made a change in his advertisement, which runs in this paper, in which he offers for sale young boars two to ten months old, at moderate prices.

Among recent importations of Clydesdales, sailing from Glasgow June 11th, were twelve head from the stud of A. & W. Montgomery, for Hodgkinson & Tisdale, Beaverton, Ont., comprising yearling, two-year-old, and three-year-old fillies, sired by such noted stallions as Royal Favorite, Argosy, Everlasting, Count Victor, and Baron's Pride. Among the twelve three-year-old fillies is one by the noted Canadian Champion, Sir Marcus, and her dam is by Baron's Pride. Another of the same age is by the Glasgow premium horse, Clan Chattan, out of a mare by The Summit, grandam by Prince Robert, the sire of Hiawatha. These are a choice selection of young mares of the most desirable breeding, and should find ready purchasers.

DON'T KILL THE TOAD.

Prof. Washburn, of the Minnesota Division of Entomology, at University Farm, finds toads to be friends of the farmer. They feed entirely upon an incredible number of insects. The Federal Department of Agriculture, investigating the toad, discovers the startling fact that in twenty-four hours the insect food consumed by one toad equals in quantity four times the capacity of its stomach, which is practically filled and emptied four times every twenty-four hours. One hundred and fifty-nine stomachs examined by the Department showed a content of 19 per cent. of ants; 16 per cent. of cut-worms; 10 per cent. of thousand-legged worms; 9 per cent. caterpillars; 8 per cent. of ground beetles; 5 per cent. of destructive weevils; 3 per cent. of grasshoppers, together with crickets, spiders, sow bugs, potato bugs, and a miscellaneous lot of other insects. Protect the toad. Teach the thoughtless boy friendliness to this helpless, harmless, useful animal.

The American Jersey Cattle Club has issued a new edition of the free pamphlet, "Dairy Quality of Jersey Cattle," which contains all confirmed and authenticated tests accepted by the Club to March 31st, 1910. It will be sent free to anyone interested in Jerseys on application to J. J. Hemingway, Secretary American Jersey Cattle Club, New York.

GOSSIP.

A North Bay goat, trying to solve the high-priced food problem, devoured a farmer's trousers. And, as a correspondent of the Monetary Times adds, now he pants.
