STANSLEIGH, ALTA. I bought 200 eggs in the store at Lloydminster and then put them in a lumber wagon and took a five-day journey to my homestead. Then put incubator under canvas tent where the temperature ranged from 50 degrees at night up to 95 when the sun was shining in the daytime, and after all this I hatched 114 good, healthy chicks that are doing well. I think your Peerless Incubator about as near perfection as is possible to get.

SANDY POINT, N.S.

I started the machine with 100 eggs. At the end of ten days I tested out twenty-eight and opening the shells I found every one infertile. This left 72 in the incubator; of these 61 came out fine healthy chickens, and the balance added in the shell or were too weak to get out.

E. HIRST

BRIGTON, ONT.

From my second hatch with the 120 Peerless Incubator I got 96 strong chicks. I am more than pleased with the machine.

FARMERS OF WESTERN CANADA

You cannot be sure of getting all you ought to realize out of your grain except by shipping it in carlots to Fort William or Port Arthur, and having it sold for your account by a first-class grain commission house, acting as your agent. We possess unsurpassed facilities for so handling Wheat, Oats, Barley and Flax for farmers who ship their grain themselves, because we are an old-established and reliable commission firm, well known over Western Canada as working solely on commission as agents for shippers, and we are prepared to handle to the best advantage for our customers all grain entrusted to us. We make liberal advances against railroad car shipping bills immediately we receive same and make prompt returns after sales have been made. We are not track buyers, and do not buy your grain on our own account, and we always give our customers the name and address of the party or firm to whom we sell their grain. Please write us regarding prices, market prospects and shipping instructions, and for our "Way of Doing Business," as you will be sure to gain advantage and satisfaction thereby.
