

THE Handbook of Nature Study

By ANNA BOTSFORD COMSTOCK.

Is the one internationally recommended leader
for the Spring Drive in Nature Study work.

It is written as a guide to the trained and
untrained teacher. Its 234 lessons take up the
following studies: birds, insects, animals, reptiles,
plants, flowers, trees, brook, earth and sky. Nine
hundred pages of inspiration.

THE HANDBOOK OF NATURE STUDY is *used* in
hundreds of Canadian schools. It has been
adopted by the *State Textbook Commission* of *Utah*.
It is on the recommended library list in *New*
York, Texas, Montana, Minnesota, Wisconsin, Ohio,
and other states. It is in use in South Africa,
Australia, Tasmania, New Zealand, China and
Japan. Quite a cosmopolitan traveler!
