

# Get a Frost & Wood Mower

## Hay-Time is Money Time on the Farm

Use a cranky, wasteful out-of-date mower and you may throw away a who'e season's hay. These are the days for efficiency. Make a wise expenditure for a Frost & Wood Mower, and you save in crop, in horse flesh, in time, in money.

## Frost & Wood Mower Cuts Any Crop

It won't fail you. It's a light draft machine. The splendid roller bearings and easily controlled levers eliminate friction and make it easy for a boy or girl to use. Immensely strong, with heavy brass bushings where wear is greatest. Heavy high-carbon steel cutter bar can be set in a second at any angle. Knife guards are high-grade tough malleable iron. The Frost & Wood is a splendid, serviceable mower, always ready for hard work, even with "green" help.

Space prevents reference to the many splendid features of the Frost & Wood Mower, but the "Internal driving gear" as shown here must be mentioned. The driving gears are meshed on the inside of the main drive—travel in same direction—no tendency to fly apart, or to snap cogs—no loosening or rattling of parts and connections, and the knives begin to cut at the first step of the horses. This means quicker work and longer life to the machine.

THE INTERNAL GEAR DRIVE (ILLUSTRATED AT LEFT) MEANS BIG POWER

## Frost & Wood Rakes

Because a Rake looks a simple machine to make don't put up with cheap, inferior workmanship—get a Frost & Wood and save real money. Teeth of special quality tempered steel, and arranged in convenient sections of two or three. Self-dumping, discharging load automatically at light pressure on foot lever. Made of steel, amply strong, clean working, the Frost & Wood Rake gives a lifetime of splendid service.

Built for Hard, Quick Work.

Our nearest agent is ready to give you full particulars and advice on this or any implement or write to-day to our nearest branch or head office for illustrated catalogue.
