In an interview Mr. Pyle says: "I was often very cold, and felt the cause of my troubles, and for about a year I had occasional cramps in the muscles and stiffness in the joints. I was often dizzy and felt nervous and my skin itched and burned at night. When Rheumatism was finally added to my list, I decided to try Dodd's Kidney Pills. One box cured me completely, and I have had no return of my trouble." Dodd's Kidney Pills cured Mr. Pyle's Rheumatism because it was caused by sick kidneys. The west bound travellers will pass from the wooded lake lands of Quebec and Ontario across the new, sparsely settled prairies of Western Canada, along the banks of the mighty rivers of the north, the Athabasca, Nechaco, Fraser and Bulkley, through the Teton and Rocky Mountains, to the highest peaks of the Canadian Rockies, and have a view of the picturesque Skeena river for many miles, until they reach Prince Rupert on the Pacific Terminal of the line and the highest port of Alaska, with its wonderful mining and farming development. OUR daily news letter from this thriving town furnished by The Ontario's special representative. Busy Trenton The latest news of the town and surrounding neighborhood is given in an interesting manner.

Trenton, March 28.—A bad runaway accident occurred on Dundas St. about noon today. A boy named Arthur Dawson was in charge of a four-wheeled ice, when the horse, became badly frightened and lit out for Dundas street. On the way through the Governor Simcoe Park, the horse dashed through the park fence and on to Dundas street, where it overtook the sidewalk walking man in front of Sutcliffe's store. It was at first thought that the animal was badly injured, but it proved not to be so.

Major Hughes, representing the Militia Department, was in town today looking over the armoury sites. Mr. Thompson, of Toronto, representing G.T.R. interests, was in town yesterday. Mr. J. F. Ryan has had erected in front of his shop, a fine electric sign. Mr. J. A. Sutcliffe has kindly donated to the Board of Trade a large table, handsomely upholstered, for the new Board Room.

Long Bros. state they are well satisfied with the business done so far, and that they will probably have no reason to consider business here. Mr. Frank Jones contemplates the erection of a double, cottager, roofed house on a property recently purchased in the west end. Three ordinary drunks were run in last night by the police. New board of trade members are coming along fast; but we would ask that any who did not receive a postal card appeal, should not on that account feel slighted. We need the money this year urgently for advertising purposes. Every one interested in Trenton should respond.

A representative of the Canadian Home Circuit is in town today, and will explain to the local lodge this evening, the reason for increased dues. Trenton, March 28.—The Ontario Legislature has been forced by the Woodbine Hotel fire, accompanied by the loss of five lives, to take steps to appoint a Fire Marshall for the Province. Legislation in this connection was read for the first time yesterday, judging from the difficulty experienced by the Coroner in getting witnesses to remember much about the location of fire escapes, etc. this appointment is being needed. We also intend to have an inquiry into the fire. It is intended that the Fire Marshall shall investigate fires whenever deemed to be caused by gross carelessness or design, and that the insurance companies will be taxed to cover his expenses. Our dream of town government by commission may yet be realized if the resolutions presented to the Ontario Legislature by yesterday's Associated Boards of Trade are not unceremoniously shelved by the busy and sorry legislators. The boards ask that: A Fire Marshall be appointed for the Province. Creation of a new fish and game preserve. New Ontario Power development. The speedy construction of radial railways.

Government investigation of municipal commission government. Application of Town Planning Act to all municipalities. All of these requests were brought up for discussion at the annual meeting of the Associated Boards of Trade, held in Toronto, the latter part of last month, and conclusions reached by these representative business men of the important Province, should receive the careful consideration of the members of the Legislature. We read in one of today's dailies, that in Galt's sites for manufacturing are very hard to secure, the supply being almost exhausted. If Galt has any new industry on their hands and cannot give them a site, we will try to accommodate them here, if their projects are a good one. Manufacturers should not forget the flexibility and other advantages offered them by this place.

Mr. K. S. White, of Toronto, is in town visiting relatives. We are forced, much against our will, to get out of the house these evenings in order to escape being appalled to every five minutes to give an opinion as to how badly look on three females. Thank goodness, a decision will soon be reached. Controller Simpson, of Toronto, will, if possible, be secured by the Canadian Club, to address the members and their friends, at an early date.

Trenton, March 28.—If the report be true, that the Council has engaged a resident engineer, we are glad to be able to congratulate the Mayor upon taking such a sensible and forward step in the interest of the corporation. With the large amount of sewer construction work to be done, and done properly, no wiser step could have been taken, and we will venture to state that Mr. Flanagan will really save his salary, if he be the good engineer we are given to believe he is. A gentleman from Midland is likely to locate here soon. He has not yet possession of a suitable business location. It looks as if he will have to build. Major Hughes, of Kingston, who has been in town for several days taking measurements for the new armoury, left last evening. The Weekly is making things unannounced, lively in Montreal. People in this place speak of the "Tango" with a bad breath. We have not seen anything very much wrong with it, except its approach to vulgarity. Rev. Mr. Rogers presided a splendid sermon last Sunday in the First Methodist church, King street. True it is that the parents are greatly to blame for the liberty allowed to their children. Reverence for parents.
