GET GOOD GLASSES

Both Sides of the Question

There are people who can see and won't, and others who can't see and want to. Those who can see well do not need glasses at present but when they do, it will be their distinct advantage to come here. Those who cannot see well should not delay a day, because delays in matters of the eye are dangerous. We are expert opticians and adjust glasses to suit all sights.

"It would be wrong to attribute this policy to pro-Britishism, the war President Wilson sued an American policy about which is ascribable America's development in the prod of armaments—every club that no one in Germany thought of the possibility of a man-American war. President son himself hardly seriously contemplated a Japanese. This is also fully understood Tokyo."

The article says that on the face nothing is more natural America should equip a giant fleet. It continues: "They are not for use however this war during which they practically no fire a shot, but use afterward against Japan. Our enemies play with their allies, the game of the biter with Japan acting in the lead part."
