will take place during ing probably all of next week. Monday next will mark the real comnent of the session which before the, final adjournment may be of marked importance. Heretofore there has been so much business before the council at each of its sittings, particularly before the incorporation of the city, that it was Irequently necessary in order matters to suspend the rules of procedure and give a bill two or more readings at the same time. This in the future, it is understood from a reliable source, will be avoided and no bill will be put upon its final Teading until every member has had an abundance of time to thoroughly digest all the provisions contained therein. On that account the present session may be anticipated, though it is not thought

it will exceed ten days at the most. Territorial Secretary Brown has prepared the orders of the day for Monday which shows that the day will be exceedingly busy. COUNCILOR

Talks of His District's Resources

in Developement of Copper Properties

Mr. Robert Lowe, member of the Yukon council from district No. 3 and one of the leading and most public spirited citizens of the enterprising town of Whitehorse, has great faith in the future of his section of the territory, the copper resources alone being sufficient to insure permanency and wonderful growth,

Nearly a dozen large deposits of copper have been discovered, the nearest four miles and the furthest, the Grafter group, seven miles out from the town of Whitehorse. Of these a which he is so well known. large amount of work has already been done on the Grafter, Copper King, Rabbit's Foot, War Eagle and
