

ORDER NOT DELIVERED LED TO A COLLISION

Terrific Crash of Trains Running at High Speed.

Tucson, Ariz., Feb. 2.—The east-bound train which collided with the Sunset Limited at Vall's station yesterday was in charge of Conductor G. W. Parker and Engineer Jack Bruce, one of the oldest engineers in Arizona. The conductor and engineer were furnished with orders to pass an east-bound freight train at Wil-mot Station. There was another order at Vall's Station—one to meet the train known as the Crescent City express, east-bound, at Edmond. This order, which was the important one, the operator failed to deliver, and the Limited passed out without the right of way and with no orders concerning the approaching train.

PRIEST WAS TORTURED TO DEATH

Shocking Revelations of Doings of U. S. Officers in Philippines.

Washington, D. C., Feb. 2.—In the Senate yesterday Mr. Rawlins (Dem., Utah) made a speech greatly resembling those delivered by him last year, alleging murder and cold-blooded cruelty by American officers. He referred to the death of Father Augustine, "who was tortured," said Mr. Rawlins, "until he died, for the purpose of extorting information regarding money in his possession; and this was done, according to the affidavits I have seen, on the orders of an American officer."

MASSACRE OF CHRISTIANS.

Elaborate Preparations Being Made by Chinese.
Victoria, B. C., Feb. 2.—According to advices received from China, are being entertained that China is planning another outbreak similar to that of 1901. The North China Daily News says: "It has been learned that the ruler of China, the man who is reported to be responsible for the murder of Prof. Hubert James, of the Peking University, will centralise the command of the military forces of the empire, or at least the provinces north of the Yangtze, under himself and his henchmen, Yuan-shih Kala and Tung-fuh Siang. The plot for the simultaneous murder of foreigners in 1900 failed owing to the unwillingness of so many Viceroy and Governors to carry out the order telegraphed to them. On the next occasion the order is to be sent to the military officials, whose implicit obedience may be relied on. The maxim impressed on military officials is 'superiors can do no wrong, subordinates have no concern with the morality of their orders with the consequence following obedience to it.'"

MURDERED CAPTAIN AND CREW.

Liverpool cable — The British steamer Brunsvick, from Brazil, which arrived here to-day, landed five survivors of the British bark Veronica, Capt. Shaw, from Ship Island, Miss., Oct. 6, for Montevideo. They were picked up at sea by the Brunsvick. The men reported that the Veronica was burned at sea Dec. 20 but the police have detained four of them on suspicion of their having murdered and mutilated Captain Shaw and seven of the crew of the Veronica, after which they are alleged to have set fire to the ship. The four seamen say that the chief officer and a seaman died on board the vessel; that Captain Shaw and some of the crew left in a boat, and that they (the four men) left in another boat, and the boat was wrecked on Circa Island Dec. 25 in a starving condition. Three days later they were picked up by the Brunsvick. The cook, a negro, asserts, however, that the chief officer and others, and threatened to kill him if he betrayed them. After an investigation the four seamen were formally charged with having murdered seven of their shipmates. Three of the men in custody are Germans. The fourth is an American.

WANTED IN ST. LOUIS FOR TRIAL

Toronto report: High Constable Merrivether, of Wellington county, took James Watson to Guelph yesterday, where he will wait extradition proceedings. Watson is the man who was arrested on Wednesday by Detective Davis. He is charged with stealing \$1,700 from Campbell & Co., wealthy horse dealers of St. Louis, Mo. The charge is two years old, but during all that time Watson has been diligently hunted throughout the western part of the province until he was at last run down while driving with two well-known citizens in a cutter on the Lake Shore road.

ONE SUPREME COMMAND.

Gen. Lyttelton to Command All Forces in South Africa.
London, Feb. 2.—It is announced that Lord Kitchener, of the British forces in South Africa, from the Zambesi to the Cape, will be under a single and supreme command, to which Lieut-General Lyttelton will be appointed, with his headquarters at Pretoria. This step is regarded as an important innovation, as significant of the intention of the Imperial Government to treat South Africa as a whole, and as giving a strong probability of a similar political arrangement at some future date. It is also held to point to the future transfer of the centre of power from Cape Colony to the new colonies.

A MINISTRY OF COMMERCE.

Gerald Balfour, Foreshadows Elevation of Board of Trade.
London, Feb. 2.—The Right Hon. Lord Balfour, President of the Board of Trade, speaking at Newport, Monmouthshire, to-night, foreshadowed the elevation of the Board of Trade into a Ministry of Commerce. He personally said he favored the change, and was willing to stand aside as to enable the unfettered choice of a Minister of Commerce.

PADDY DIVVER DEAD.

Police Court Justice of Tammany Hall—Had a Stormy Career.
New York despatch—Patrick Divver died yesterday afternoon at his home, No. 7 Madison street, in the 88th year of his life. The cause of his death was double pneumonia. Beside a widow, Mr. Divver leaves three sons and two daughters.
Patrick Divver was one of the most picturesque of the many interesting figures produced by the Tammany Hall scheme of district organization. No man who won the leadership of a district in this city under Tammany in recent times, had a more tumultuous political career, but his ability to take knocks gracefully and to give them effectively won out for him in many a bitter contest.

PUBLIC NOT SATISFIED.

Eastern Telegraph Company Not Pleased With the Wireless.
London, Feb. 2.—At a meeting of the shareholders of the Eastern Telegraph Company, Sir John Wolfe Barrie declared that people who were best qualified to speak on the subject still held the opinion that the wireless system of transmission could never be a serious rival of the cable for long distance transmission. The reason given for sending by regular route the King's reply to President Roosevelt's message had not satisfied the public.

OIL IN ALBERTA.

One Well Spouts Three Hundred Barrels a Day.
"Believe that western Canada is about to become a factor in the oil-producing part of the world," said John Lineham, of Okotoks, Alberta, who is at the Walker House, Toronto. Mr. Lineham is the president of the Rocky Mountain Development Company. They have a well spouting 300 barrels a day, and others in view. The point where the oil has been struck is known as Oil City. It is a hundred miles southwest of Calgary, in the foothills of the mountains, in the Pincher Valley. The drill sank down over 1,000 feet before oil was reached, but the quality is good. Mr. Lineham has a big bar of the fluid with him, and it has the correct odor and color. The company will build a pipe line to Montreal when other wells have been bored.

MONEY IN GARDEN TRUCK.

Dawson Man Has Cleared Small Fortune in Business.
Tacoma, Wash., Feb. 2.—M. D. Dally, who probably made more clear money last year out of market gardening than any other man in the Northwest, is preparing for another trip into Dawson. Mr. Dally thinks highly of his experience in gardening, and declares that energy and industry are of far greater importance than a technical education. From a small island at the mouth of the Klondike he last summer sold \$13,000 worth of lettuce and such in the City of Dawson, and is preparing to do business on a still larger scale the coming summer. Mr. Dally is already ready to start the gardening portion of the larger island lower down the river from the owner, the North American Trading and Transportation Company, paying for the use of the ground for one season the enormous sum of \$300 an acre in advance. On his own small island he is having erected in his absence a greenhouse, 1,400 feet long. While business he did last summer was done without a greenhouse at all, limiting his trade to the few short months in the middle of the summer, when a frost is not to be anticipated each night. He is now in Tacoma to purchase a large stock of flower bulbs and rose bushes, which he purposes taking in over the ice after the weather shall have moderated to where he can protect his treasures from freezing.

UNBURYING ROMULUS.

City of Rome Existed Long Before His Appearance.
Rome, Feb. 2.—It is claimed that the excavations that Professor Airolli is carrying out in the Forum have conclusively proved that Romulus did not found Rome, but that the city existed long previous to his appearance. It is contended that Prof. Airolli's explorations have shown that Etruscans originally established themselves on the Aventine Hill, from which they constantly descended and fought the Sabines, who inhabited the low ground at the foot of the hill. This Etruscan city was Rome, and its wars were waged generations before Romulus came on the scene. The discovery of a great number of skulls forms part of the evidence. Under Romulus, who, instead of giving his name to the city, took his name from it, the Romans gained victories over the Sabines under Tatius. Thereafter peace was concluded between the two peoples and the event was commemorated by building the Via Sacra, which linked the districts inhabited by the Romans and Sabines. The Via Sacra is now revealed as it existed two thousand years ago. Owing to the excavations it is now flooded by the Tiber whenever the river rises, exactly as in the remote past. When Etruscans Rome occupied the Aventine Hill a marshy lake covered the site of the forum and as late as the time of Imperial Rome, there was an artificial lake in the forum, in front of the rostrum. Now that the site has been cleared the bed of the lake has been found to be still water-tight.

Thereafter peace was concluded between the two peoples and the event was commemorated by building the Via Sacra, which linked the districts inhabited by the Romans and Sabines. The Via Sacra is now revealed as it existed two thousand years ago. Owing to the excavations it is now flooded by the Tiber whenever the river rises, exactly as in the remote past. When Etruscans Rome occupied the Aventine Hill a marshy lake covered the site of the forum and as late as the time of Imperial Rome, there was an artificial lake in the forum, in front of the rostrum. Now that the site has been cleared the bed of the lake has been found to be still water-tight.

UNBURYING ROMULUS.

City of Rome Existed Long Before His Appearance.
Rome, Feb. 2.—It is claimed that the excavations that Professor Airolli is carrying out in the Forum have conclusively proved that Romulus did not found Rome, but that the city existed long previous to his appearance. It is contended that Prof. Airolli's explorations have shown that Etruscans originally established themselves on the Aventine Hill, from which they constantly descended and fought the Sabines, who inhabited the low ground at the foot of the hill. This Etruscan city was Rome, and its wars were waged generations before Romulus came on the scene. The discovery of a great number of skulls forms part of the evidence. Under Romulus, who, instead of giving his name to the city, took his name from it, the Romans gained victories over the Sabines under Tatius. Thereafter peace was concluded between the two peoples and the event was commemorated by building the Via Sacra, which linked the districts inhabited by the Romans and Sabines.
